MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

When ver the letters "P M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of Judgements the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means jugment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

MURESCO!
It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.
You may have a color card and full information about Muresco for the asking.

Vol. LXII. OCTOBER 29, 1898. 1,598

SOMEWHAT to the surprise of many, cheerfulness has reigned in Wall Street this week. There was an increase in the professional operations and some new buying of bonds of recent issue. The reasons for this change of feeling are not quite clear, in view of the prices at which the most favored securities stand, but there have appeared announcements that reflect favorably on the business situation. Some of the railroads in the South and Southwest, which have surprised their friends by loss of earnings for some time—for instance, the Missouri, Kansas & Texas—have lately reported substantial increases, and have thereby assisted the growth of a more cheerful feeling. As in the case of the repentant sinner, this causes more joy than the continuation of increases on roads that have not offended by lapses into decreases. The report of the Labor Bureau of this State showing that the number of people employed at a recent date was 56,000 more than was the case at the same time last year, reveals a good condition of business in the State, while the report of the Post Office of increased postal matter in the past quarter, offers somewhat similar testimony to the condition of business in the country at large. Here, also, money is easier than it is abroad. In the nature of things, these developments will find reflections in the security market. Wall Street seems further to have made up its mind that it has nothing to fear from the elections; that the results will not raise suspicions of the stability of the gold standard, or interfere with a policy abroad that it chooses to consider is necessary to the further development of the commerce of the country. As to the war-cloud in Europe, that is regarded rather as favorable to this side than otherwise. Presumably, it is thought that war would raise prices and create an unusual demand for our produce and certain lines of our manufactures. It is only on this supposition that the way the market strengthened and advanced simultaneously with London selling can be explained.

IF, as is now stated, Great Britain has determined to bring the Egyptian question forward in a shape that will compel its final settlement, either by confirming her possession or providing a form of government for Egypt that will be satisfactory all round, the rest of the world will have reason to be glad. The present anomalous condition, of an occupation which everyone knows is only nominally temporary, gives rise to endless trouble and ought to be ended. If this issue is now raised, it is hard to imagine that its determination will take any other form than the one most pleasing to Great Britain, and if France is dissatisfied with this prospect, she can thank her diplomats, because their policy of petty annoyance was so well calculated to arouse Great Britain to take a firm stand, and to give her the sympathy of other countries in doing so. A bold declaration of an intention to stay permanently in Egypt would not create more anxiety or inconvenience to the world at large than the fact of Major Marchand's presence at Fashoda has done, or be more provocative of war. It would only place the boot upon the other leg. Business is more affected by the continued stringency in money which is being felt at all the European financial centres, with increasing force, of course, as relations with the greatest ones are loose, than by the political situation. It is expected that, while some relief is in sight, there will be no real ease until after the new year. The rapid growth of commercial demands upon capital is illustrated by a recent statement of the amount of money invested in Great Britain in a comparatively new industry, the electrical. This is said to have been, in 1896, roundly, $300,000,000, and in 1898 to be $425,500,000, without taking government telegraphs and telephones, on which $3,500,000 was expended in the interval given, into the account. The results of attempts to reform bourse business in both Paris and Berlin have been unfortunate so far as the governmental revenues are concerned. Onerous taxes and regulations have driven large amounts of business away from the bourses to be done over bankers' counters, where the transactions are not taxed. The German iron and steel manufacturers, alarmed by recent consolidations in those trades on this side of the Atlantic and the increased competition that they indicate, are contemplating organization to meet it. Their intended programme is said to include a union of the export agencies of the various syndicates and organized efforts for the procurement abroad of orders for large quantities of wares. As yet an advance of protective duties does not appear to be included in the plans.

CONVEYANCES, MORTGAGES AND MONEY.

LAST week we published our tabular summaries of the conveyances, mortgages, etc., for the immediately past and preceding quarters of this year, which were doubtless carefully perused by our readers, and their many points of interest noted. This week we propose to refer to some features, that we think ought to be brought out with some distinctness, which the time available between the completion of the tables and their publication would not allow us to do earlier. We have already dealt with the distribution of the conveyances of last quarter, and at the same time presented some reflections on the general results shown by the figures in that branch of our tables, so that little remains to be added to that subject. In examining the figures relating to considerations we found recently that the average favored the quarter of this year. A like examination shows that was the case throughout the year. For the nine months we have 4,803 transfers with considerations amounting to a total of $76,-021,008, or an average of something over $15,800 to set in comparison with similar figures for the corresponding three quarters of 1897 of 5,901, $86,106,158 and a little less than $14,600 respectively. The final result is $1,200 per transfer more for this year than last. For the last quarter the showing in this respect was still better, as a reference to our figures will prove, although the falling off in transfers was more considerable than in the three quarters taken together. The average per transfer of the number reported, with considerations, was $15,578, as compared with $12,476 in the same quarter of last year, a gain on the average of more than $3,000 per parcel. The separate figures for the Bronx display a large falling off in conveyances for the third quarter, though for the nine months they compare favorably with 1897. In the average reported consideration over the larger period there is the considerable gain of $1,100, the averages for the two years being $5,300 and $4,200. In the last of the three quarters of the two years the averages work out at $3,800 for last year and $5,300 for this, which suggests that there was a depression in Bronx realty in the summer months of 1897 which was not seen in those of this year.

Probably the most interesting of the tables presented last week was that relating to New York mortgages, especially in so far as it indicated whether there had been any change of disposition of the money market toward realty. The last quarter saw some nervousness and stringency, due to the locking up of funds to pay for the new government 3's when they should be issued, and it would not have been surprising if it appeared that realty loans were not only harder to obtain in that period, but also if the terms were more onerous. The amount of money loaned on realty last quarter was very much less than it was in the same time last year, but of the amount that was loaned a fair proportion was at the lower rates of interest. In our issue of September 24th last, we treated the question of the course of realty mortgage interest rates at some length. We showed then that the proportions of the annual totals for the five years 1893-97, representing mortgages made at over 5%, varied from 22.3% in 1893 to 29% in 1897, and rose to 31.3 in the first half of 1898. Similar proportions of mortgages made at 5% ran from 51.4% in 1894 to 44.6 in 1897, and to 40.4% in the first half of this year. Loans made at less than 5% were 18.3% of the total for 1893; 29.2% of the total for 1895 and 26.6% of the total in 1897, the percentage rising to 28.3% for the first half of this year. In the third quarter of this year these percentages were 37.7% over 5%; 33.3% at 5% and 29% at less than 5%. It will be seen from these figures that proportioned to the total amount loaned more money is being placed on realty at the lowest rates. It must be admitted, also, that the loans made at the highest rates are increasing in proportion, but this is probably explained by a larger building loan business than usual and a rapid development of the outlying sections of a more or less experimental character. The tendency of the market toward proved realty is more truly indicated by the loss in 5% loans, that having been the standard rate, and the gain in loans at rates below that figure.

While on this subject it may not be without value, if briefly we take up again the general question of realty interest rates and point out some facts that support our views that their tendency is downward. First, it may be confidently stated that that

is the natural tendency. Not to go further back, we find that in 1870-73 the normal rate was 7%. In 1897 that rate had declined, though with occasional fluctuations, steadily to 5%, until now, as we contend, it stands at 4½%, with the indications pointing to a 4% rate in the near future. In January last the Emigrant Industrial Savings Bank dropped their rate on realty loans to 4%. Now, it has been the policy of this bank for years to establish, at times when the circumstances called for change, a rate which should apply to all loans made by it, whether large or small. In pursuance of this policy, the bank's rate was reduced, in 1877, from 7 to 6%; in 1881 from 6 to 5%; in 1885 to 4½%, and in 1898, as we have just said, to 4%. It may be taken for granted that these reductions were not made as a matter of generosity toward borrowers, but in the execution of a policy that should redound to the profit of the bank. For further illustration we have to go abroad to the older countries, which have settled into conditions similar to what will prevail here as time goes on. In England, Germany, France, Holland and Belgium the normal rate of interest on mortgage loans is from 3½ to 4%. In a country that is accumulating wealth as fast as the United States is, the tendency of interest rates must be downward, and in the actual capital of that country realty will give the best security, and thereby secure the cheapest money.

THE extracts from the report of the Tax Department, given in another column, refer to, probably, the grossest instance of the violation of the principle, that representation should accompany taxation, as can be found anywhere. It is there stated that this city, which pays more than one-half of the State tax, is not represented upon the State Board of Equalization, whose action determines the amount that shall be paid by the several counties of the State from year to year. This year $188,753,108 was added to the valuations of New York County, comprised in Manhattan and the Bronx, and thereby its quota of the State burdens will be increased several millions of dollars. This was done in spite of the protest of the Tax Department and its submission of proof that the up-country counties are undervalued for the purpose of relieving them of their proper share of the tax burden. New York's exclusion from the Board is probably dictated by the fear that, if represented, she would be able to look after her own interests and keep the rural communities from bleeding her, a prospect that the representatives of the latter must contemplate with horror. It is clear that New York's chances for relief from injustice in the matter hang on her ability to secure adequate representation on the State Board of Equalization, and that until the composition of that body is altered in that city's favor, nothing but injustice and extortion can be expected from it.

THERE is no doubt that the Underwriters have grown tired of the fight they have been carrying on for some months, and are in a frame of mind conducive to a settlement of their differences, and consequently the framing of a new tariff. Experienced insurance brokers expect the announcement of an agreement any day, followed by a new tariff to take effect with the opening of the New Year, or even earlier. The situation is one property owners ought to consider carefully with a view to deciding whether this is not a good time to place their insurance. It may be taken for granted that the new tariff, whenever one is made, will be higher than the rates now prevailing under the disorganization that has come upon the insurance business, especially as those rates are unprofitable, as a rule, to the companies.

TENEMENT POPULATION.

According to the statistical investigation published by the Record and Guide two weeks ago, it was found that the increase in the population of Manhattan Island since 1893 has been about 8 per cent. larger than the increase in housing furnished by new apartments, flats, tenements and private dwellings. This result was obtained by a comparison of the growth of residential population, as a whole, with the total increase in housing capacity. But the claim of overbuilding may be tested more in detail by means of the semi-annual census of the tenement house population taken by the police under the direction of the Health Board.

For the purpose of this census a tenement house is "taken to mean and include any house or building, or portion thereof, which is rented, leased, let or hired out, to be occupied, or is occupied, as the home or residence of three families or more living independently of each other, and doing their cooking upon the premises, or by more than two families upon any floor, so living and cooking, but having a common right in the halls, stairways, yards, water-closets or privies, or some of them." The legal tenement, therefore, as defined above, includes the three classes of buildings usually denominated in the Record and Guide as apartments, flats and tenements. In this article, when reference is had to tenements in the legal sense, a qualifying word will be prefixed, otherwise not. As the semi-annual tenement house census is a count of the tenantry of flats and apartments as well as tenements in the ordinary sense, it furnishes the basis for an accurate comparison of the growth of that tenantry with the increase in housing in those three classes. The building statistics relating to apartments, flats and tenements for 1893 and 1894 were small. We may, therefore, leave those years out of consideration. The statistics for 1895 and 1897 were exceptionally large, while those for 1896 and the first half of 1898 aggregate just one-half the total for 1895 and 1897. Now, if, for the sake of argument, we assume that the exceptionally large number of buildings projected in 1895 was not ready for occupancy before January, 1896, and that none of the comparatively small number projected during the first half of 1898 is yet completed, we shall be accepting a basis for comparison unwarrantedly favorable to the theory of overbuilding. But even on this basis, according to the conservative method of calculation explained two weeks ago, the increase in the legal tenement house population has exceeded the increase in the capacity of new housing by upward of 1 per cent.

The number of apartments, flats and tenements projected from January, 1895, to January, 1898, is 3,089, furnishing an estimated housing capacity of 154,450 persons. The increase in the legal tenement house population from January 1, 1896, to July 1, 1898, is 156,023 persons. In estimating housing capacity, as explained two weeks ago, we allow five persons to the family, the average for the country at large; but, as a matter of fact, the average for the legal tenement house population in Manhattan is about 4.5 persons per family.

Through the courtesy of Dr. Roger S. Tracy, Registrar of Records of the Board of Health, we are enabled to publish an extremely interesting schedule of the tenement house population by wards as shown by the censuses completed on the 1st of January, 1896, and of July, 1898, which schedule should be studied in connection with the tables of projected buildings printed in these columns Oct. 15, last:,

STATE AND PERSONAL TAXES.

The Tax Department's report to the Mayor, for the quarter ended the 30th ult., has recently been completed. It contains, besides, a formal statement relating to the preparation of this year's assessment roll and its delivery to the Municipal Assembly, etc., some remarks regarding the valuation for State tax purposes, and a suggestion to secure an amendment of the law relating to personal taxes, which are of great interest, and are as follows:

The present equalization by the State Board seems to us to be an arbitrary one, and in justice to the taxpayers of this city, we must enter our protest against the increase in valuation of the real estate of this city for State purposes by the State Board of Equalization. It is not only the wealthy citizen, but the citizen of moderate means as well, who feels the effect of this unjust increase; each and every one who pays taxes in this city must be affected by the result of this unwarranted action by the State Board of Equalization, a Board in which this great city is not represented, although it pays nearly one-half of the total State taxes. Each year a formal call is made upon this Department by the State officials in relation to this subject; and this year the Commissioners, in order to help the State Board of Equalization to arrive at a fair and equitable decision in the equalization of the land values of the State, and particularly those directly affecting this city, caused to be made a thorough investigation of the methods of assessing real estate in a number of the counties throughout the State, the result showing in the most conclusive manner the injustice done the taxpayers of New York City.

In a letter to the members of the State Board of Equalization, the President of this Department demanded relief from the unloading on New York City of a disproportionate share of the State taxes. In 18 counties of the State, the assessed valuation was returned to the State Board as being from 69 to 85% of the actual value; whereas the investigation of this Department in the same several counties, shows that the real proportion of assessed and actual values is 81 to 55. Nevertheless, there was added by the State Board to the assessed valuation of real estate in this city the enormous amount of $188,753,108, a large burden to place upon the property owners of this municipality. Until this city is represented on the State Board of Tax Commissioners, this enormous injustice is likely to continue, and the taxpayers cannot expect any relief from this tribute levied by the State.

This quarterly report in its criticism of the action of the State Board of Tax Commissioners, as well as its statement in relation to the amount that the city pays of the proportion of the State tax, is entirely applicable to the city as constituted previous to the 1st of January last; namely, the Boroughs of Manhattan and The Bronx. The increase of $9,771,176 of valuation put upon real estate in Kings County and of $3,088,777 in Richmond, has not been spoken of, for the reason that both of those figures were made upon valua-

tions fixed during 1897, and submitted by the Board of Supervisors of their respective counties.

In our last quarterly report we called your Honor's attention to certain inequalities of the law governing the assessment of personal property, and in relation to that matter we now make the suggestion, that the present might be an opportune time through you, on the recommendation of the Municipal Assembly, to appoint a committee of citizens who would be chosen from the various business interests of our city, for the purpose of drafting a revenue code for our great municipality, which code shall contain a suitable and comprehensive plan of taxation for its vast financial and commercial interests, and which should have in view legislative sanction, the citizens so appointed to be selected from all the professions, trades and employments, thus insuring full and adequate representation to all interests.

The necessity of some improvement in these laws is so evident to almost every thinking man that we believe it to be our duty to press this question upon your Honor's attention, for the purpose of relieving our citizens of some of the unequal burdens which they now bear, and also to create a public sentiment of interest and knowledge in this direction, that will conduce to a greater equalization of taxes.

PROPOSED BUILDING CODE.

The following communications were laid before the Board of Aldermen at their last meeting and referred to the Joint Committees on Law, Public Buildings, Lighting and Supplies and Public Health, which have the suggested resolutions relating to the appointment of a commission to frame a building code for the City of New York under consideration:

The Honorable the Board of Aldermen, New York City:

Gentlemen.—You have before you for consideration two resolutions in re to the proposed "Building Code Commission."

Representing the concensus of opinion of our League, composed as it is of over four hundred firms, all actively engaged in the building trades, we ask your approval of the original resolution, as opposed to the amendment (offered, I believe, by Mr. Folks).

Our main objection to the latter is that it proposes that the Commission shall be composed largely of "doctrinaires," and not practical men. Again, under its provisions the Commission would be so large that it would be unwieldy.

On the other hand, the original resolution provides for a commission of specialists, each in his particular line, and each one (except, perhaps, the plumber) an absolutely necessary part of a body whose duty it shall be to provide a general building law, which law shall be the absolute guide for the construction of over 90% of the work in this city. The remaining 10% of the work will be executed by civil engineers; and, owing to the constant change in methods of engineering, it is possible to lay down in the law only the general rules as to strength of materials for this class of work. Our present building law is an excellent one, and has stood the test of many years' experience. What it now requires is a more elaborate and definite text in order to meet the various problems which are presented. It may surprise you to know that at each meeting of the Board of Examiners an average of fully 40 questions are submitted to this board for their decision, and these are questions which could be answered by making the laws more definite.

The composition of this board is very similar to that proposed by the resolution we favor, and the very excellent service rendered the trades by this board is the best argument we can advance in support of our views.

In offering these suggestions we have no candidate to present; we only ask for the general good that the Commission shall consist of a few level-headed men who shall command our confidence, and that the trades shall have the right to appear before it and offer such suggestions as practical experience would justify.

We would also ask that prompt action be taken. Nearly 10 months have elapsed since the new charter went into effect, and as the interests of nearly 300,000 wage-earners are affected, we feel justified in our protest against unnecessary delay.

Yours very respectfully,
JOHN P. LEO, President Builders' League.

New York, Oct. 22, 1898.

To the Honorable, the Board of Aldermen of The City of New York, Hon. Thomas F. Woods, President:

Sirs—At the hearing given by the Joint Committees on Law, Public Buildings, Light and Supplies and Public Health, on Friday last on the resolutions in favor of establishing a Commission of Experts to prepare and report a building code, as required by the Charter, I had the honor to appear as chairman of a committee consisting of three delegates from each of practically all the building trade and real estate associations in this city.

At that hearing we expressed the hope that you would not adopt the resolution offered by Alderman Folks, for the reasons in brief that a commission of 19 would be too large; that the names of the greater number of the Commission was, in effect, to be left to various associations; and that no representation was provided either for the building interests nor for the real estate interests in said resolution.

We also stated at the hearing that while we favor broadly the composition for the commission recited in the Council resolution, we suggested certain changes to be made therein, viz.:

1. That the three Commissioners of Buildings be added to the list.

2. That all reference to trades and professions be eliminated.

3. That the resolution be so worded as to provide for the appointment, in addition to three Commissioners of Buildings, of one representative of the Corporation Counsel and seven other men qualified for the work under requirements of the Charter; thus, these seven men might be all lawyers, all architects, all masons, all carpenters, or representative men in various lines might be selected, although it does not necessarily follow that a man is an expert in drafting building laws simply because he is a lawyer or an architect or a builder.

4. But if the resolution is to specifically name the several trades, then we suggest that the plumber be stricken from the list, for the reason that all matters relating to plumbing is to be contained in rules and regulations that the Charter directs the Commissioners of Buildings to establish for plumbing and light and ventilation, and the new building code is therefore to contain no reference to plumbing.

5. In lieu of the plumber, we suggested one representative real estate owner be named.

6. We also suggested that instead of allowing the Board of Fire Underwriters to name a representative, the appointing power should select one fire underwriter.

Inasmuch as the Charter (in section 647) provides that a Commission of Experts is to be employed, we expressed the hope that the Commission would not be required to serve without pay. We expressed the opinion that the payment to the members of the Commission of $10 each for each sitting was inadequate, inasmuch as continuous work would be required from the members for at least three months' time fairly to the exclusion of their other duties. Adequate compensation should be made to the members at the conclusion of their work, say upon the advice or recommendation of the Corporation Counsel, who would naturally be the best qualified person to decide such a question. No provision in the Council's resolution is made for office quarters, clerical help nor printing.

At the hearing we urged the Joint Committees to remember that a new building code is one of the most important powers conferred upon the Municipal Assembly, and that a good building code would reflect great credit upon the City Government, while the reverse would be the case if an unjust and complex code should be adopted. We expressed our belief that as the responsibility will be upon the Municipal Assembly for a good or a bad building code, the experts who are to be named to prepare the code should be only such men as would consider their obligations to the city far above their obligations to any association or society with which they might be connected.

Very respectfully, WM. J. FRYER,
Chairman of Builders' Committee on New Building Code.

New York, Oct. 25, 1898.

HALL OF RECORDS' SITE APPRAISMENTS.

Wm. M. Ryan was recently called, on behalf of the owners, to give testimony as to values of property taken for the site of the Hall of Records, making the third witness called on that side. His valuations of eight parcels are given below alongside of those of Frank Lord and Alwyn Ball, which are now repeated for convenient comparison. It should have been stated before that the eight parcels given are not all the property taken for this improvement, which includes also Nos. 15, 17 and 19 Centre street, regarding which no testimony as to value has yet been offered. In our previous table valuations of No. 25 Chambers and No. 1 Reade and Nos. 21 and 23 Centre were given separately. As will be seen, in the table below they are grouped together, and the amounts opposite to them are made up of the estimated value of the several parcels, with an allowance also for the advantage of being connected. It is well further to offer the reminder that so far only ex parte estimates of values have been offered, and these have yet to stand comparison with the figures of the city's experts and to receive the endorsement of the Commission:

CORRESPONDENCE.

FREEHOLDERS AND REGISTRATION.

To the Editor of THE RECORD AND GUIDE:

Your readers know that false registration is common in this city, and that several persons have lately been arrested for this crime. Being the owner of a large tenement house, I have, for years given the names of the legal voters therein to the local political club to which I belong, so as to prevent my house being used for "colonizing."

If all freeholders in Greater New York will make out a list of their tenants entitled to vote, and hand it either to the local board of inspectors or to the police captain or to the local political club, the number of illegal voters in this city will be reduced and the cause of good government will be advanced.

October 28. ALFRED R. CONKLING.

CONCERNING REAL ESTATE AGENTS AND BROKERS.

The long established house of D. Kempner & Son, as announced in our business pages, make a specialty of leasing realty and guaranteeing owners a specified income. Owners are thus relieved of the care of the property which Messrs. Kempner & Son assume, making repairs, paying taxes, etc. Their address is No. 626 8th avenue, telephone call 1702—38th Street. They also negotiate sales, as shown frequently by items in our "Gossip" column.

Agent and broker P. T. Canavan has removed his office from No. 118 to No. 120 9th avenue, near 18th st, which premises Mr. Canavan has improved and modernized. He is better equipped than ever before to serve his old clients and new ones who desire to buy or sell realty in the vicinity of his office or have their property rented and rents collected.

Broker L. B. Matthews, of No. 59 West 125th street, is putting the finishing touches to five attractive-looking 5-story double flats on the northwest corner of 3d avenue and St. Paul place, which are now being tenanted. The suites each comprise six rooms and bath, with hot water supply and other improvements. Mr. Matthews is also building two flats on the west side of 3d avenue, near 173d street.

ELECTRIC LIGHTING AS APPLIED TO ARCHITECTURE.*

I assume that in this year of grace it is unnecessary for me to take up your time by dwelling upon the manifold and very apparent advantage of electric lighting over every other form of illuminant, whether it be considered from an hygienic, artistic, decorative, or even commercial, point of view, and it is generally admitted there are very few individuals—excepting, of course, those interested in gas or oil companies—who will not honestly endorse this statement. At the commencement of this paper, then, it will be as well to state that I do not propose to touch upon or refer to the subject of electric lighting outside buildings; that is, upon the generating plant or other sources from whence electric energy is brought into the building or group of buildings, but rather to confine my remarks to internal lighting and the manner in which the current should be conveyed to the various points of light.

Dealing firstly with the distribution of lights, it is obvious that the lighting of different classes of buildings requires distinctive treatment, because the lighting of a cathedral cannot be compared with that of a railway station, any more than the lighting of a ballroom or drawing-room can be compared with that of a bedroom or kitchen. Each room or space, which it is intended to light, should be considered and examined from at least three different points of view, namely:

(1) The purpose for which it is to be used.
(2) The decorations, furniture, and general surroundings, and
(3) The cost of the proposed lighting.

Which of these three points is the most important is probably a matter of opinion, but it may safely be assumed that the third point, or question of cost, is not the least important, because it may be taken as granted that the skill of the architect or engineer in arranging a system of lighting is in no case more marked or apparent than in getting the maximum lighting effect at minimum cost, this minimum cost including not only the first cost of putting in the work, but the more important one of annual expenditure and renewals.

When considering the question of lighting new buildings by electricity, the subject can be treated and dealt with with a far freer hand and, generally speaking, with far greater effect than in the case of houses at present lighted by gas or other form of illuminant, because one is so very apt to take the positions at present held or assigned to gas as those most suitable for electric lamps, quite forgetting the fact that gas is so non-adaptable and lends itself with such ill grace to artistic effect that there are only certain positions in any room in which it can safely be placed. Now I shall assume an axiom, that the most perfect form of lighting is that evolved from a hidden system of lamps, in other words, where no portion of the lamps themselves are brought in direct contact with the retina of the eye. It is, however, only right to point out that this form of lighting, like many other nice things in this world, is, generally speaking, the most expensive, because, as a rule, it means the placing of the lamp or lamps under some form of shade, whereby a large portion of the illuminating power is lost, and, therefore, and in order to get the same effect or amount of light from hidden lamps as from ordinary unshaded, or only partly shaded lamps, double or even treble the amount of energy has to be used. In public halls, concert rooms, churches, etc., the points of light can, if taken from the ceiling or roof, be raised sufficiently far above the heads of the audience that, unless they wantonly gaze at the lamps, no inconvenience to the eyes need necessarily be felt, but it is different in the case of ordinary rooms, be they drawing-rooms, boudoirs, or dining-rooms; and it is these classes of rooms which, in my opinion, require the most careful thought as to the disposition and arranging of the lamps.

In dealing with this matter, it is, perhaps, unnecessary to say that I am dealing solely and wholly with the incandescent electric lamp, and that I do not propose to touch upon the question of arc lighting this evening, because, though this light is pre-eminently suited for streets, railway stations, and other similar places, it is not, and, I believe, never will be, suitable in any way for the internal lighting of buildings. Many of you here this evening must, at some time or other, have been struck with what is generally termed the "glare" of the electric light, and may possibly have thought that this was one of the inherent faults of the system. I need hardly say it is nothing of the sort, and the fault lies, not in the system, but in the brain of the stupid person who put it there. No sane man or woman, with any regard to their eyes, wilfully stares at the noonday sun; but I submit it is just as idiotic to put up a clear electric lamp and gaze at it as it is to gaze at the sun. Electricity, like most other things, to be properly appreciated must be suitably adapted to the end in view, which, as before stated, is a diffusion of soft light, without the lamp from which the light emanates being brought in direct contact with the eye. I am fully aware that the cost of complying with this requirement is in many cases too heavy to allow of its being adopted, but I submit there is no reason why every electric lamp should not in some form or other be shaded, even if the shading is simply the putting in of an "obscured" lamp in the place of a clear one. It is evident, or at any rate should be evident, that the lighting of each particular room or space should be separately considered, and that being so, it is impossible to lay down any hard-and-fast rules as to what is necessary in each particular case; and it requires a certain, or I may go even so far as to say a good deal of practical experience and judgment to know the proper amount of light required, and also the position in which the lamps should be placed. Under these circumstances, therefore, I fear it is quite impossible for me to lay down any rules which would be of the slightest value in enabling you to properly arrange for the lighting of any building in which your are interested. There are, as you are doubtless aware, certain "rule-of-thumb" rules which are given in pocket books and similar literature, but I have never found them to be of the slightest value; but, on the other hand, rather misleading. Take, for instance, a drawing-room. What use is it to anyone to know that a 16-candle power lamp will light a certain number of square feet of floor, when raised a given height above it? In my opinion none, for the simple reason that it is quite impossible to take into calculation or make due allowance for the surrounding coloring of either walls or furniture.

Leaving artistic effect out of the question for the moment, it is evident nothing is easier than to drop a number of pendants from the ceiling, and if these are kept a certain distance from the floor, you can procure the maximum amount of light with the minimum number of lamps and cost. This mode of lighting is, however, not to be recommended; indeed, it is strongly to be deprecated, and when one sees a room lighted in the above manner, it is at once apparent that a Goth, Vandal, or other barbarian, has had the arranging of the lights. I think it will be generally conceded that the most pleasant, and at the same time, most artistic method of lighting ordinary living rooms is by means of wall brackets, standard lamps and table lamps, the lamp in each case being shaded so as not to come in direct contact with the eye. With regard to the other rooms in a house, there is not, as a rule, much difficulty in assigning the right position for the lamps and their numbers, but at the risk of reiteration, I would again impress upon you the desirability of considering the lighting of each room, or at any rate, of each principal room separately, and from the three points of view mentioned at the beginning of this paper.

Now, the next portion of my paper has to deal with the manner in which the electric current is brought from the place where it enters the building to the lamps themselves, in other words, that portion of the work generally spoken of under the comprehensive term "wiring." As you are doubtless aware, this word "wiring" includes not only the supplying and laying of the various wires and cables, but also—at least, as a general rule—the switch and fuseboards and subsidiary switches, and occasionally the necessary "cutting away and making good," this latter expression being in many cases incorrect, as you, like myself, have probably found by experience that it could be more accurately described as "hacking and tearing away, and not making good." Many of you have doubtless had before you the bids of some electric lighting contractors for the lighting or wiring of certain buildings, and, perhaps, have even gone so far as to draw up a common specification on which these various firms have bid, and you have doubtless been surprised to find that the highest bid is sometimes half as much, and in some instances, as much again, as the lowest, and furthermore have been puzzled to know what should be done under the circumstances. Of course, if no specification has been issued, the reason of the difference in prices is easily explicable, inasmuch as the contractors, having no common basis upon which to draw up their bids, simply send in an estimate for the work and material they consider necessary, with the result that if the contractor is an honest man, taking proper pride in his work, and with a reputation and good name to lose, his prices must be, and always are, considerably higher than those of an individual whose commercial instincts have unfortunately prevailed and got the better of his moral ones. It is far otherwise, however, if the contractors have estimated on a common specification, because if there are great discrepancies in the bid, it is evident either that the individual quoting the lowest figure is willing to forego all profit, or else that the one quoting the highest figure intends to make a fortune. Neither of these hypotheses are probable or ever likely to occur in practice, and it will generally be found that the real cause of the indifferences may be found in the loose and unscientific manner in which the specification has been drawn up. For a skilful and, perhaps, unscrupulous contractor nothing is easier than to drive a coach and four through a loosely and inaccurately drawn up specification, whilst it is evident that even an honest contractor—being but human—will avail himself of every opportunity in interpreting an ill-drawn clause to his own advantage. Perhaps I may be considered wanting in courtesy in suggesting that you are likely to draw up a faulty specification, but I can assure you nothing is further from my thoughts, and my only object in speaking thus plainly, is to insist upon the absolute necessity of drawing up the specification in the most careful manner and with a full knowledge of all the requirements necessary and incidental to the proper carrying out of the work. My experience has been that many points of vital importance to the work are—probably from want of technical knowledge—entirely omitted from many specifications, and others of no technical importance are treated with a fulness and amplification entirely unnecessary. What is the use of carefully specifying the density of current allowed per square inch of sectional area in the copper conductor, when the

*A paper by Mr. Tom. Ekin, read at the meeting of the Architectural Association of the 6th inst

loss of pressure, or, to use a more technical phrase, the fall in voltage, or electric motive force, is omitted? None whatever, because in the case of a light, or group of lights, placed at some distance away from the source of supply, or point from whence the electric energy is brought into the house, the contractor might possibly be carrying out his work strictly in accordance with the specification, and yet the lamp or lamps would look like "hot hairpins," owing to the fact that the very essential point of loss of pressure had not been taken into account. Again, what is the use of specifying the most heavily insulated wire and omitting the final test when the work is completed? Instances like these could be given ad libitium, but for the purpose of argument this is unnecessary.

There are still two points upon which I should like to give a warning, and these are, firstly, the low-priced contractor who looks to make his legitimate (or, as some would say, his illegitimate) profit on fittings; and, secondly, the contractor who offers to put in the work so that it will comply with the ridiculously low requirements—I refer to the test of the insulation resistance—of the fire offices. In London and other towns where there are electric supply companies, this latter danger is to a large extent rectified and guarded against by the fact that all work has to pass the more reasonable standard of the supply company, but it still remains in the cases of country houses, and houses in towns, where the owner or occupier generates his own electric energy.

The Real Estate Market

Real Estate Market

The business of the private sales' market this week, although comprising few conspicuous individual transactions, discloses no diminution either in the investment demand for residential housing or in the speculative demand for vacant lots and old properties. The continuance of the market for flats, despite ill-founded reports of overbuilding,is readily explained in the light of a statement made to a "Record and Guide" representative, by the appraiser for a large savings institution, to the effect that flat-house property, held free and clear, on a conservative estimate, yields an average of 6% net on the capital invested. As mortgage loans at 4½% and 5% on two-thirds the value of such property are common, the average return on the equities of most owners is, of course, more than 6%. The trade of the parcel, 28x36.7, on the southwest corner of 42d street and Madison avenue, nominally at $160,000, or about $150 per square foot, has undoubtedly been accredited with too much importance as an indication of 42d street values. In a trade stated values have only significance, as they are supported by known values of the properties traded. The price paid three years ago for the same property, namely, $100,000, was considered high, even for a key lot, at that time. The price then was undoubtedly influenced by the fact that plans were known to be under consideration for extending the Grand Central Station to Madison avenue, instead of adding some stories,which would have placed the purchase diagonally opposite the station. Even at $100,000, however, the record for uptown high-priced realty was established—about $95 per square foot. Forty-second street is at present in a transition stage, and current values are largely speculative. But it is precisely under conditions such as those that "money is made" in real estate, and it will be interesting to see to what use this week's purchase will ultimately be put. In this connection, it may be recalled that, according to Mr. Barker, president of the Board of Taxes and Assessments under Mayor Strong, the reason for the disproportionate increase, under the head of Accretion, in the assessed valuation for 1898 in the central tax sections was due to a rise in the speculative value of land as evidenced by the extensive buying of key lots by professional operators. The total number of transactions given below is 44, with considerations given in 9 and amounting to $517,000; corresponding figures for last week were 71, 22 and $2,540,425, respectively.

The following are the comparative tables for the New York Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1898 and 1897:

The offerings at the Salesroom this week were insignificant both in number and quality. Nevertheless, the attendance has been good, and the plaintiffs in foreclosure actions have been compelled to protect their interests by purchase in a smaller proportion of cases than was to have been expected. There were only several city parcels offered at voluntary sale. Of two properties offered by Bryan L. Kennelly, one, No. 2089 3d avenue, was bid in at $49,200; the sale of the other, No. 512 West End avenue, was adjourned until November 2. No. 32 West 75th street, scheduled for sale on Wednesday by Richard V. Harnett, was not offered. The only other voluntary sales were that by D. Phoenix Ingraham, of Nos. 68 and 70 E. 114th street, two 5-story flats, both which were sold at $28,000 each; and that by Peter F. Meyer, of No. 129 West 46th street, a 3-story private dwelling, which was bought by Henry Tietjens for $12,300. The following adjournments to dates beyond the coming week are to be noted: No. 39 Little West 12th street and Nos. 426 to 430 West 13th street, by Peter F. Meyer, to November 17; and the southeast corner of Valentine avenue and Clark street, by James L. Wells, to November 10. The dullness noted this week is likely to continue for a little while; it is usual for this market to be uninteresting about election time.

Richard V. Harnett & Co. announce, in our advertising pages, for Wednesday next, 2d prox., the auction sale of the dwelling No. 13 East 80th street. Maps, etc., can be had of George F. Chamberlin, No. 31 Nassau street, attorney for executors, who are selling, and of the auctioneers at Nos. 71-73 Liberty street.

Lowenfeld & Prager state that No. 475 3d avenue has not been sold. Negotiations were on, but the sale was not effected.

W. J. Huston & Co. report the sale of No. 31 St. Marks place, New Brighton, S. I., 3-story brick dwelling on plot 36x170, for P. E. Tallman.

Sohns & Ohlhaver were the brokers in the sale of No. 58 East 104th street and a plot of six lots on Westchester avenue, 190.3 south of Wales avenue.

Tuesday next is the last day on which the rebates of this year's taxes, allowed by the law, can be obtained. After that day, and until December 1st, bills are net to the city. If taxes are not paid by December 1st a penalty attaches.

Gen. Wilson, Chief Engineers, U. S. A., proposes to ask Congress for appropriations for river and harbor improvements around New York, as follows: Gowanus Creek, $25,000; Harlem and East Rivers, $100,000; East River and Hell Gate, $100,000; New York harbor, $300,000; Hudson River, $100,000.

The Illinois Supreme Court has, in a test case, upheld the Torrens Land Title act passed by the last legislature of that State.

There was no quorum of the Aldermanic Committee on Parks when the time set for their adjourned hearing on the advisability of establishing a park at Houston, Elizabeth, Prince and Mott streets arrived on Wednesday last; consequently the hearing went over without date.

The mortgages filed this week include one for $250,000, on the office building known as Aldrich Court, 41 to 45 Broadway, extending through to 17 to 21 Trinity place. It is for five years, and is given by Mrs. Elizabeth W. Aldrich to the Seamen's Bank for Savings. They also include one given by ex-Gov. Levi P. Morton for $300,000 on 110 to 116 Nassau street, extending L shape to 43 and 45 Ann street, where the Governor's new building is being erected on the site of the Nassau Chambers, recently destroyed by fire. The executors of George Bliss make the loan.

At last Wednesday's meeting of the Board of Education, the

Committee on Buildings reported favorably on renewing the leases on the following places: Public School 119, in 136th street, annex to Public School 86, at 96th street and Park avenue; annex to Public School 54, at 105th street and Amsterdam avenue; annex to Public School 115, at 150th street and Mott avenue; 1,637 First avenue, 58 and 60 West 135th street, 122 Avenue C, 1,458 Amsterdam avenue, 306 East Ninety-sixth street, and 453 St. Nicholas avenue. A resolution authorizing the Commissioners of the Sinking Fund to request the Controller to execute the leases of these premises was adopted. The Committee on Sites and Buildings for Manhattan and Bronx reported the need of school accommodations in the vicinities of 101st street and Columbus avenue, 145th street and Boulevard, 116th street and Lenox avenue, and 182d street and Wadsworth avenue. Negotiations having been begun for sites in these localities, the committee recommended that the board insert the sum of $375,750 in the budget to be devoted to the purchase of the property. The matter was referred to the Committee on Finance.

The Building Trades

MATERIAL MARKET.

BRICK.—Sixty-three barges of North River came in this week and 65 were sold. The quality of brick is not running as good as usual and buyers are experiencing great difficulty in obtaining straight cargoes. Heretofore we have spoken of the good grade of brick coming to the market, but now it is hard to get a very desirable article without going into the special grades. There are some concessions in prices on the poorer grades. Pales are in active demand and the supply is small. Sales are made at $4.00 without question. Prices in specials are about the same as they were last week. The demand for New Jerseys is excellent, while the stocks on hand are not very heavy. The market is in good condition, with first goods firm at $6.00 and $6.25.

LIME.—Between 4 and 5 cargoes of Rockland came in this week and sold at prices ranging between 65 cts. and 75 cts. The demand is good and there is only a moderate supply on the way. The demand for State lime is good, being due largely to the fact that dealers are laying in their winter stock. Plenty is now coming to the market and common is selling at 65 cts. and Jointa at 90 cts.

CEMENT.—Rosendale is in good demand, with plenty of stock on the market. Inquiry is mostly for domestic consumption and prices are firm at 65 cts. and 75 cts. Portland, both domestic and imported, is still in great demand. Dealers are not able to meet new orders and are simply filling old ones. A restricted condition of the market will probably prevail until the end of the season.

NAILS.—The meeting of the wire nail manufacturers on Tuesday resulted in a reduction of 5 cts. a keg on their commodity. The demand is fair and there is plenty of stock on hand. Quotations are as follows: Wire nails f. o. b. cars Pittsburg in carload lots, $1.30 base; in single carloads, f. o. b. Pittsburg, $1.35 base. Small lots New York stores range in price from $1.55 to $1.60, according to quantity. Cut nails f. o. b. Pittsburg, carload lots, $1.13 base. Small lots New York stores, $1.35 base.

OIL.—Prices for raw oil for immediate delivery are firm at 37 cts. for lots of less than 5 bbls., and 36 cts. for 5 bbls. or more. Boiled oil is selling at 39 cts. for lots of less than 5 bbls. and 38 cts. for 5 bbls. or more. Firm prices are due to the good demand and sharp advance in seed, which has gone up very much in the last few days. Oil for future delivery is in good demand.

GLASS.—The demand is seasonably very good and prices are being maintained at 80 for plate and 80 and 20 for window. There is a good stock on hand and orders are being promptly filled.

LEAD.—The market is seasonably active, with a good demand in both large and small lots. Prices on standard brands f. o. b. New York last quoted by the National Lead Co. are as follows: White lead, dry or in oil, red lead and litharge in kegs in lots of less than 500 lbs., 6¼ cts. net. In lots of 500 lbs. and over, 5¾ cts. Dry white lead in bbls., ½ ct. per lb. less than price in kegs. Red lead and litharge in bbls. and half-bbls., ¼ less than price in kegs. White lead in 12½-lb. tin pails (packed in 100-lb. cases), 1 ct. over price in kegs. White lead in 25-lb. tin pails (packed in 100-lb. or 200-lb. cases), ½ ct. over price in kegs. White lead assorted in 1-lb., 2-lb., 3-lb. and 5-lb. cans (packed in 100-lb. cases), 1½ cts. over price in kegs. Terms on lots of 500 lbs. and over, 60 days or 2 per cent. discount for cash, if paid in 15 days from date of invoice. To make either of above required quantities, any assortment of packages of either or all of the above articles may be counted. The above proces and terms supersede all previous prices and terms offered by the company.

NAVAL STORES.—Owing to the fire in the Atlantic Dock Co.'s warehouse on Monday, local prices in spirits of turpentine have advanced about 6 cts. over last week's quotations. Dealers, however, are cautious and are selling only in small lots on dock. Prices are expected to become normal as new supplies arrive. Yard prices are 41 cts. for machines. Trade mostly in jobbing lots for immediate delivery at 41 cts. @ 42 cts. and 39 cts. to arrive. Tar is quiet, with small offerings and light inquiry. Regulars are quoted at $1.80@1.85; oil barrels, $3.60 and $3.70. Pitch was neglected at $1.60@1.65.

LUMBER.—Trade in Yellow Pine has been unusually light for the past two months. The supply has been restricted by the climatic conditions and in a small degree by the quarantine restrictions along the gulf coast. Trade is not satisfactory, and 40-foot averages are selling at $10.50 f. o. b. gulf ports. The indications are that wide sizes in both West Virginia and Eastern spruce will command better prices in the near future. White Pine.—Owing to the approaching close of navigation in the Erie Canal buyers are securing low grades of stock for winter consumption before rail rates prevail. Hardwoods are in good demand. Cypress and white wood find an easy market at good prices. There is a good foreign demand for black birch and small sizes of oak. Quartered oak and ash are good property, and show indication of an advance in prices. The inquiry for basswood is excellent, with only a limited supply.

OF INTEREST TO THE BUILDING TRADES

Joseph M. Lawlor, architect, has opened an office at Room 286, Washington Building, No. 1 Broadway.

Laidlaw & MacDonald, fire-proofing contractors, have removed their offices to No. 52 Broadway, Exchange Court Building.

The R. M. Hunt memorial, in the 5th avenue park wall, opposite the Lenox Library, is to be unveiled on Monday next at 4 p. m.

Paul Brandmor, architect and engineer, formerly of No. 538 Kosciusko street, Brooklyn, has opened an office at No. 49 Liberty street, N. Y. City.

The Police Commissioners have acceded to the request of the Board of Delegates which asked that no more jobs of any kind be done in the police stations by policemen who hitherto have taken the place of regular mechanics.

The Supreme Court of Wisconsin has held in the case of the State ex rel. Winkler vs. Benzenberg et al., an act of the Wisconsin Legislature requiring an examination for licensed plumbers to be a proper exercise of the police power.

The work on the Ivins Syndicate Building is now progressing, although the issues involved in the strike are as yet unsettled. All the striking workmen have been replaced except the plumbers, a small portion of whose work is at present unfinished.

A new covered pier is being constructed at the foot of West 128th street which will furnish facilities not afforded by the dock formerly at that point. The building will be about 300 by 50 feet, and open on the sides and ends. The entire structure will cost about $100,000.

At a meeting held in Arlington Hall, Wednesday, an amalgamation was formed between the Tin and Sheet Iron Workers' Union and the Cornice and Skylight Makers' Union. The men in each trade are fitted for the same kind of work and it was considered best to unite the unions.

A press dispatch from Massillon, O., says: William G. Hipp, a prime mover in the organization of the so-called Paving Brick Trust, states that the concern is a paving combine, and purposes only to prevent prices being cut. Those particularly interested are the manufacturers of the Hocking Valley, the Canton district, the Ohio Valley and the Galesburg (Ill.) district. It is rumored that the combine will control all the factories making modern clay working machinery, thus shutting off outside competition.

There is now reasonable hope that there will be a successful outcome to negotiations that have been going on for some time between the labor organizations and the employers in the building trades with the object of creating a board of arbitration or appeals to decide all disputes between the two parties. At the last meeting of the conferring committees two resolutions were submitted for approval. These called for the appointing of representatives from the various employers' associations and the labor organizations to contitute a board of appeals. They stipulated that no member of the Board of Walking Delegates be made a member and they were afterward amended so as to preclude the appointment of members of the United Building Trades' Association. This board will have absolute and final power in all matters under dispute and will be governed in accordance with the rule of precedence.

TRADE NOTES.

DUMBWAITERS AND REFRIGERATORS.

No features in the fitting of the modern apartment house receive greater consideration than the dumbwaiters and refrigerators, because so much of the comfort of the tenants depends on them, hence the manufacturers have vied with each other to excel in design, make and finish, and thus secure the best position in the market. In the front ranks of the manufacturers stands Anton Larsen, who, established since 1881, has continually improved the character of his work, which is called for by very many of the most reliable and successful builders. All the dumbwaiters and refrigerators in the Livingston and Cascade apartment houses on Central Park West, erected by Builder James Livingston, were supplied by Mr. Larsen. Also the dumbwaiters for the "Mohonk" and "Minnewaska" apartment houses on Central Park West. In the latter houses the dumbwaiters are the highest in the city. The "Stuart," corner of Boulevard and 94th street, erected by Builder Alexander Walker, is equipped with Larsen's dumbwaiters, and two elegant houses on Riverside Drive and 114th street, the work of the same builder, are supplied with Larsen's refrigerators, which are lined with French plate glass. Other up-to-date apartment houses, recently equipped with Larsen's dumbwaiters and refrigerators, or either, include the "Dewey," West End avenue and 102d street; Gunn & Grant's, Boulevard and 91st street; Noble & Gauss's, and Wm. Call's, on 83d street, near West End avenue, the latter erected by E. F. Dodson & Co., contractors, and D. Osborne's, Amsterdam avenue and 79th street. The new Hebrew Infant Asylum at 161st street and Eagle avenue, built by John Weber & Son, is supplied with Larsen's dumbwaiters and refrigerators, the latter being of extra large size, and Henry Zeltner's block of tenements on upper 3d avenue, with dumbwaiters. Mr. Larsen will also equip Hallahan & Ahearn's new apartment house at Central Park West and 108th street with dumbwaiters and refrigerators. His office and factory are at 134th street and Brook avenue.

KEEP OUT THE COLD AND DUST.

At this season of the year it is wise to examine doors and windows to see if they fit tight enough to keep out the cold and dust. If they do not May's Invisible Weather Strip is recommended. These strips were lately specified for use on Richard Mansfield's new mansion on Riverside Drive. Architect James A. Favor, of

Boston, says that their use in the "Exeter Chambers," a large Boston office building, resulted in the saving of a ton of coal per week. Send to the Young Lock Nut Co., No. 150 Broadway, for prices, testimonials and samples.

ARCHITECTURAL AND ARTISTIC MARBLE WORK.

Wm. K. Fertig & Co., marble contractors, are busy carrying out contracts for architectural and artistic marble work in many first-class dwelling houses. Their extensive yard, works and office are located at Nos. 516 to 528 West 20th street. Telephone call 996, 18th street.

COPIES WANTED.

We will pay a liberal price for copies Nos. 253 and 930 of the "Record and Guide," delivered at our office in good condition.

Questions and Answers.

Correspondents are respectfully requested to confine their inquiries to matters directly relating to real estate, building or architecture. Each question must be accompanied by the name and address of the inquirer, though not for publication; anonymous communications cannot be answered.

CHECK DISHONORED.

To the Editor of THE RECORD AND GUIDE:

I did work for Jones. When the job was finished he paid me on account. For the balance he gave me a check which was "N. Gd." by his bank. Later he transferred his property to a member of his family. What is best to do in the case?

Answer.—You cannot have criminal action against him. Your only remedy is to sue him civilly, obtain judgment against him, and, after execution is returned unsatisfied, you can bring an action to set aside the transfer of his property.—Law Editor.

DIVISION OF COMMISSIONS.

To the Editor of THE RECORD AND GUIDE:

(1) A and B are real estate agents. Their offices are in different cities. A agrees to give B charge of all the properties he controls in B's city on condition that the commissions paid for the sales of same are equally divided, B to do likewise with A. In accordance with above understanding A gives B several houses owned by one man for collection of rentals and sale. B sells four of the houses on the installment plan and gives A half the commission. B arranges price and terms with owner and purchasers. A so requested. In fact, when A was asked to assist as far as the owner was concerned in two cases he refused, and told B he had better arrange matters with the owner himself. No compensation is given B for collecting the monthly installments. He remits in full to A, who does likewise with the owner. B claims A should not demand half the commissions paid on the sales, because the transactions demand additional labor without compensation. Which is right? The remaining houses are sold by B to parties who give other properties in part payment. A played no part whatever in any of the transactions. B makes all the arrangements with both purchaser and seller. B, of course, receives from the purchasers commissions based upon the value of the properties they give in payment. A demands not only half the commissions realized on the properties placed by him with B but also half the purchaser's. In order to consummate three of the sales last referred to, it was necessary for B to purchase two of the houses himself and pay out $3,000 cash, or about three times the gross commissions on the deals in question. One of the houses B has sold at a loss of $75. The other he still retains. The prices paid by him were the same as those allowed by the other purchasers. A has not expressed a desire or willingness to take any interest in the purchases, although B informed him that it was unreasonable for him to demand commissions on transactions that involved cash outlay and possible loss without being willing to advance half the cash. B, therefore, claims that A is entitled only to one-half the commissions realized on the sales of the properties placed by A in B's hands, exclusive of B's purchases. From the statement of facts it is seen that it was necessary for four things to be accomplished in order to put the deals through. 1st. the control of the properties owned by A's client. A attended to this. 2d, the purchasers, B found them. 3d, the adjustment of prices with the purchasers as to the properties they were to buy and sell, and, 4th, the consent of A's client to the prices and terms; B, therefore, does three-fourths of the work and A one-fourth. Kindly give us your opinion as to how the matter should be settled legally, equitably, and according to custom and usage.

Answer.—I am of the opinion that under the agreement, the commissions earned by B should be equally divided with A. The collection of the installments was an incident of the transaction, and it was part of the work for which B was paid. B might have refused to buy the two houses, so his putting his money into them has no bearing on the question of the division of the commissions. A had a right to refuse to put his money in also. B put his in in order that he might make the commission. I do not think that A should be called upon to stand one-half of the loss of the $75. The investment of his money is a risk that B took. Per contra, I think that if B sold at a profit A would be entitled to no part of the profit. It was not in the agreement, as stated, that either A or B should invest any money.—Law Editor.

SALES FOR TAXES.

To the Editor of THE RECORD AND GUIDE:

(1) Will you please inform me of the conditions under which the city sells lots, etc., in arrears for taxes? (2) Can the property be improved by blasting superfluous rock, excavating or building? (3) Would the amount be reimbursed if the original owner reclaimed it? (4) Could interest while in course of construction be added? (5) Would an institution loan on such property? (6) What are the objections or risks attached to such purchases?

Answer.—(1) They are sold at auction for the lowest term of years at which any person or persons shall offer to take the same in consideration of advancing the tax and the interest thereon to the time of the sale and the costs and charges of the notices, advertisements, etc., which have accrued. The sale being made, the collector gives the purchaser a certificate of sale "describing the lands and tenements so purchased, the term of years for which the same shall have been sold, the sum paid therefor, and the time when the purchaser will be entitled to a lease of the said lands and tenements." Mortgagees have two years from the date of the sale to redeem the property. Owners have six months to redeem after service upon them by the purchaser of a notice of the sale. On default to redeem the purchaser is entitled to a lease for the term of years which he bid. (2) The purchaser can improve if he so desires, but at his own risk of redemption by the owner or mortgagee. (3) The amount expended for improvements will not be reimbursed. (4) The owner or mortgagee redeeming the property must pay the purchase money, with the addition of forty-two per cent. thereon, and the amount that shall have been paid for the lease, and also fourteen per cent. per annum interest on the purchase money. (5) Not to the casual purchaser. (6) There seem to be none. If the property is not redeemed the purchaser gets a lease of the property for the term of years which he bid at the sale, by taking the proceedings required by law. If it is redeemed he gets his money back with fourteen per cent. interest from the time of the sale, and a bonus of forty-two per cent. If a sale shall be vacated or canceled the purchaser is repaid the amount paid by him at the sale with legal interest thereon from the time of payment.—Law Editor.

WAR REVENUE TAX.

To the Editor of THE RECORD AND GUIDE:

Is an internal revenue stamp needed on flat and house lease, both for the owner and tenant leasing, or is the one for the tenant needed only?

Answer.—If duplicate leases are executed, there should be a stamp on each.—Law Editor.

DEBTOR DIES.

To the Editor of THE RECORD AND GUIDE:

A, the father. B, the son. A had a business for 20 years. B receives the business from A, terms of transfer unknown. According to reports from Bradstreet's at the time B had little or no equity in the business but has been buying goods in his own name, paying for them fairly prompt. B dies suddenly,and several weeks after his death A sells the business to B's wife for $1.00. Can we hold A for our account? He owns real estate. In regard to our inquiry of Saturday would say that since writing we have found out that B, the son, had given his name to the New York State factory inspector as proprietor of the place during years '96 and '97. Thinking that this might have some bearing on the case I write.

Answer.—If your account is against B you cannot hold A. You must look to B's executor or administrator.—Law Editor.

BROKER'S COMMISSION.

To the Editor of THE RECORD AND GUIDE:

I, as broker, offer A a certain house in exchange for lots owned by him. I also offer B lots owned by A in exchange for his house. I take A to examine B's house. B happens to be out on that day, and we could not go through the house, only seeing same from the outside. B, on different occasions, calls on me to find out whether A would exchange. I informed him that A would exchange at a certain price, which he eventually did by being introduced by a party to whom I had sent A to value B's house, and for whom both parties were doing work as contractors. Party who introduced them and valued house received no commission, and is not a broker. But B claims that he made the exchange and refuses to pay me commission. Have I a just claim for commission?

Answer.—I think you have.—Law Editor.

UNPAID BILLS FOR ROOFING.

To the Editor of THE RECORD AND GUIDE:

A does work for B, among which was a job for roofing. A presents his bill. B tells A the work was leaking. A repairs the roof according to B's desire and the tenants said it did not leak thereafter. B then paid the bill for other items and said that he had paid A for the roofing, which he did not. A did not guarantee the work for any length of time. Could you please tell me the best course to pursue to obtain my money and how to go about it?

Answer.—You can file a mechanic's lien if your work has been done within ninety days, or you can bring suit.—Law Editor.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

When the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

Mortgages under this head marked with * denote that the property is located in the new Annexed District (Act of 1895).

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

BUILDINGS PROJECTED.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects) for the first time in one volume, illustrated, indexed and supplied for $2.50. Record and Guide, Publishers, 14 and 16 Vesey street.

The first name is that of the owner; ar't stands for architect, m'n for mason, c'r for carpenter and b'r for builder.
When character of roof is not mentioned, it is to be understood that the roof is to be of tin.

Assignment of interest to amount of $5,500 in property Benj G Hitchings. Elizabeth Hitchings to James P Niemann; also power of attorney.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of Judgements the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means jugment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

Vol. LXII. NOVEMBER 5, 1898. 1,599

THERE must be confidence in the minds of the men who control our railroads, that they can obtain relief from Congress from the unpleasant situation created by the recent Joint Traffic decision. Otherwise it would be impossible to account for the strength of railroad securities since the Supreme Court held that the Joint Traffic agreement was illegal. Those who remember the discussion that preceded the passage of the Inter-State Commerce law, which was presumed to sanction rate agreements, will recall the fact that its necessity was insisted upon, because rates were disorganized and railroad properties were threatened with disaster as a consequence. By the passage of the act it was thought that equitable arrangements could be made that would satisfy the railroads and be just to shippers. That has not been the case, however. The railroads have not held to their agreements, because the law was weak in that it afforded no means for enforcing them. Rates were cut and disaster finally overtook the railroad world so that at one time the mileage operated by receivers was appallingly large. Whatever good it may have done in other directions, and it may be supposed to have done some, the Inter-State Commerce Act has totally failed to benefit railroad investments, so that the investing public have a right to ask Congress to give them some assistance, especially in view of the sacrifices made by them in the past five years. What form this assistance should take has not been suggested, but it ought certainly be such as will allow agreements on rates to be made, and also provide that when once made they shall be maintained. The shipper's interest in this matter will have to be protected, which can be done by creating a commission to whom he can appeal for readjustments of rates when such operate to his disadvantage, and who will have the power to enforce their orders. A year ago it was thought likely that Congress would pass a railroad pooling bill as a result of the Trans-Missouri decision, but it did not. Evidently there is a stronger ground for hope of relief now, otherwise it would be natural to suppose that a break in prices of railroad securities, similar to that that immediately followed the Trans-Missouri decision, would have occurred on the announcement of the later and more important ruling against agreements. As it is, prices are not only strong, but there are signs of extensive new buying of railroad bonds, in spite of quotations that at one time, especially in the cases of the new bonds, would have been thought much too high.

TWO years of industrial activity in Great Britain, with a consequent and continuous increase in the demand for money, have brought about a substantial reduction in the prices of the very best securities. Consols have in this time declined six points and guaranteed Canadian and Indian loans nine points. Prices of other gilt-edged issues show corresponding declines, and the end of this movement has probably not been reached because there is no sign that lower prices are attracting new buying. Certainly, with military and naval preparations now directed against Russia instead of France, if not against Russia and France combined, there is little likelihood of a change in sentiment toward these issues. That there is no doubt of the industrial activity previously mentioned is shown by the report of the Labor Department of the Board of Trade for September, which states that, in 117 trade unions making returns, with an aggregate membership of 467,075, 12,027, or 2.6%, were reported as unemployed at the end of the month, as compared with 2.8% at the end of August and 4.4% of 113 unions, with an aggregate membership of 462,292, reporting in September, 1897. While we have no similar returns from labor in other countries, in view of the reports that have been current for the past year or two, the same cause, trade demand, supplemented in some cases by over-speculation, is operating to create stringency in money and to restrict operations on the bourses. It is the fall demands that are the severest, so that putting aside extraordinary agencies in the inflation of rates such as war, relief ought soon to appear; otherwise accepted theories of the sufficiency of available money to sustain a growth of trade that has been unprecedented will be very thoroughly tested. In a period of over a quarter of a century, in which wars have been of short duration and carried on in very restricted fields; in which new markets have been opened up, and resources, quite revolutionary in character, as, for instance, electricity, have been extensively developed, trade has grown so enormously that, failing the uprising of some unnatural check to that growth, a situation of intense interest will arise. In a year the aggregate gold holdings of the great European national banks have decreased by about $100,000,000 (a sum, by the way, that corresponds somewhat to the gold gains by importations of the United States in the same period). As these banks are the channels through which flows the gold production of the world, outside of that of the United States, and which ought to replace the gold drawn away on exchange, this loss reveals a very large dispersion of basic funds among dependencies in the provincial districts. The readiness and extent of the return tide ought to indicate whether the present stringency is simply an aggravation of an old symptom or a new one whose precise nature has yet to be diagnosed. On the solution of this question will depend whether European industrial development can continue. The situation in the United States is very different, as we show in another column.

THE adoption of a budget for 1899 of $93,520,082 must make the property owner desirous of knowing where the money is to come from. The amount to be raised by taxation will be reduced to an extent, estimated at $7,000,000, by returns from the general fund, but this still leaves $86,500,000, roundly, to be provided directly out of the ratepayers' pockets. This is about $14,000,000 more than the budget of the current year, after deducting the income from the general fund. It is stated, and we fear with only too much truth, that the whole of this increase will be put upon realty in Manhattan and the Bronx. Going into details, report has it that the real estate valuations of these two boroughs are being increased in the total between $500,000,000 and $600,000,000, mostly by raising the assessments on the commercial and better class of residential properties, especially in the middle sections of Manhattan, from twenty to forty per cent. The tenement sections on the extreme East and West sides are not touched. Ordinarily such reports as these would not be worth repeating, but at the moment they have credit and importance because it is impossible to imagine where the increase in the city's pecuniary needs is to come from, unless it be from real estate in the old city. That this is so is not surprising; it is one of the results aimed at by consolidation, and which the provision in the charter requiring an equalization of valuations throughout the consolidated city was intended to produce. It is expected that the personal assessments will be increased in Kings and Queens, as they were in Manhattan and the Bronx last year, but that will not offset the results of equalization against the boroughs or the increase in the cost of running the larger city. The final result must be to increase the burdens in Manhattan and the Bronx and correspondingly relieve the other boroughs.

APPLICATIONS for paving streets and avenues are now met by the city authorities with the statement that this year's appropriation for such work is exhausted, and such applications can only be placed upon the list for consideration when next year's appropriation becomes available. This is not a pleasant prospect for owners of property abutting on streets needing repair, but it is one that will have to be borne with such philosophy as has been vouchsafed to them. The fact of the exhaustion of this appropriation probably accounts for the suspension of work on Elm street, which has occurred in spite of the protests of the owners of land and buildings along the route and of other representations made to the authorities. In our report of the Municipal Assembly will be found the announcement of the postponement of other paving work in different parts of the city for the same reason.

THERE are indications that red brick is returning to favor. Except that fashion is as arbitrary and extreme in architecture as in millinery, there never was any reason why the architects and builders of New York City should have so completely banished this warm-looking material from the exteriors of their work as they have for ten years past. They deprived themselves thereby of a valuable resource for contrast and color, and the general appearance of the city has suffered. Light bricks were a valuable addition to the architect's palette, but much of the gain was lost when one form of monotony was substituted for another.

And of the two, we are inclined to think the red is preferable to the white. On the whole, both aesthetically and physically, the darker hue wears better. It is not so thin, and staring, and under our bright skies one would hardly choose the most reflective of all colors for miles of heterogeneous street fronts. Yet, of late, that is exactly the thing our architects have selected. They have preferred the lightest of brick. H. J. Hardenbergh was one of the first, if not the first, of our architects to return to the older material in work of importance. The Wolff building on Maiden Lane, admirable for so many good qualities, was notable also for its red-brick work. The Waldorf and the more recent Astoria hotels reasserted on a larger scale the value of red brick. Bruce Price's St. James Building obtains and deserves no small part of the public approval it has received on account of the skilful and picturesque use of the same material. Many persons who are unable to appreciate the Parisian translation into Americanese which Ernst Flagg gave us in the Singer Building, accept with satisfaction his Gallic predilections as "the thing" because presented to them in an old and familiar substance; and, latest of all, W. Wheeler Smith is using red brick in his building on Wall street and Broadway, now under construction.

NEW FIRE ENGINE HOUSES.

NOBODY but those who are responsible for it will deny that our municipal architecture is, upon the whole, a municipal disgrace, and very much behind and below the standard of private building. Until within a few years, no municipal department thought it necessary to employ an architect, or if it did, it contented itself with an "artchitect." Commonly, it contented itself with a builder. This was conspicuously the case with the school houses. No other class of buildings requires more considerate planning, nor in any other is there more need, in the very interest of public instruction, of an appropriate architectural expression. Until within less than a decade, these were left to a "boss builder," acting upon the inexpert illuminations of trustees and commissioners. Now the department has taken to itself an architect, and has been well-inspired in selecting him. The immense improvement in the exterior architecture of the school houses is not less marked, though it is necessarily less conspicuous, than the improvements in the arrangements proceeding from a thoughtful consideration of the special requirements of the buildings.

As the department which does the most and the costliest building, that of education offers itself most obviously to criticism. But other municipal departments are in as bad an architectural way as this ever was. Thanks to a special commission there is in New York one excellent district courthouse, but there is only one. There is not even one architecturally decent police station. Ten years ago or so some exceptional fire commissioner was moved to the belief that it was worth while to employ an architect, and the immediate result was gratifying and encouraging, more gratifying than some of the ulterior results. The first-fruit of the employment was the engine house in Old Slip, unless, indeed, it was the headquarters of the department in East 67th street. The latter is a reasonably successful essay in the Richardsonian Romanesque then prevalent, with an impressive massiveness and an attractive simplicity, and has in the crowning watch tower a picturesque feature of which the picturesqueness is attained without any perversion of the purpose of the building. To the engine house in Old Slip an even higher praise belongs. To have an engine house which was worth looking at at all was so novel and refreshing an experience that it indisposed the onlooker to criticise. But the building would stand criticism, came, indeed, very near to being a model in point of architectural appropriateness, and is better worth looking at to-day, not only than any of its predecessors, but than most of its successors. The designer was happily inspired when he deferred to the genius loci of the oldest part of New York so far as to design it in the Dutch Renaissance that was in vogue when New York was New Amsterdam. For, apart from the local appropriateness, the style was capable of that homely and unpretending picturesqueness which fitted it for the purposes of an engine house. It is built of brickwork laid in the Dutch manner, with black headers, of which one regrets now to notice that the black, being apparently produced by pigment and not by burning, has not shown itself weather-proof. There is a more extensive use of brown stone than would have been available or permissible when New York was in its infancy. But it is very well applied, and the Dutch crow-stepped gables and other quaint and sparing decoration make the building picturesque without controverting its prosaic destination. A little better studied detail, and it would have been quite a model for its purpose. In subsequent essays which were much more elaborate and pretentious, the purpose seems to have been quite lost sight of in the architecture, which consisted in a profuse application of delicate detail, mostly scholarly and refined in itself, but very much "from the purpose" of an engine house. There are a good many of these engine houses scattered about town, and the admiration one might feel for them if they were examples of domestic architecture, of an ornate and even "palatial" kind, is multiplied when one regards their ornate and palatial character in view of their actual destination. This is conspicuously the case with the most extensive and expensive of all, the large engine house at Elm and White street. Abstractly this is a very pretty and successful composition in a well-detailed French Renaissance. One does not come upon many buildings of which the architecture shows such careful and affectionate study. As a mansion, say on Riverside Drive, it would be entirely in place, and but for the large and numerous driveways which alone betray its actual purpose, would be accepted as an agreeable example of a rich and refined domestic architecture. But as a lodging for firemen and fire horses and fire engines, it is manifestly an extravagant absurdity.

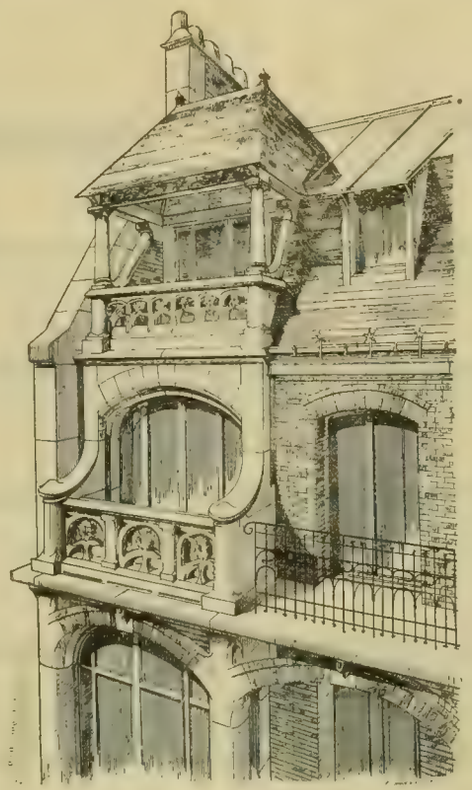
Much the same may be said of a later engine-house, apparently by another hand, in West 43d street. Instead of being in sixteenth century French of the Loire—this is, in very modern Parisian, with the neatness and precision of lay-out and detail which are the excellence of that manner, and also with the sharp edges, the absence of transition and "middle tint," and the unconsciousness of the uses of mouldings, which are among its defects. In point of modernity and up-to-dateness, this may be admitted to be a more suitable abode for a steam fire engine house than the chateau in Elm street. But in the profusion and the minute delicacy of its ornamentation, it is quite as unsuitable and as absurd. Such things make the judicious grieve almost to the extent of longing for the old stupid engine houses in which it is plain that no architect was concerned. For these are at least devoid of that pretentiousness which is a chief element in vulgarity.

It is not praising a new engine house in 3d street, between the Bowery and Broadway, highly enough to say that it marks as great an advance in suitability upon its architecturesque predecessors as it marks in respect of abstract architectural excellence upon the old stupid builders' engine houses. There is here no lavish display of ornament of which the only ostensible motive is to run up the cost of the building, including the architect's commission. It is not only comparatively much more to the purpose than they. It is positively much to the purpose.

In the first place, it is of red brick, with visible white joints, with a basement and "trimmings" of light freestone, used rather sparingly. As we shall see, cut stone is not employed even for the main cornice, which is an arrangement of metal between and over panels of brick work. Already the material gives a sense of suitability which is absent from the profuse stone carving or even from the highly elaborated terra-cotta of such of the earlier engine houses as have architecturesque pretensions. The cut stone here is confined to the basement, the sills and lintels of the plain openings at the sides, and the big arch which occupies the centre. The brick might be even plainer and rougher with a gain in architectural expression, but it is very effective, and visibly bonded with every other course of headers, giving an unusual sense of structural connection.

The front is an effective composition. Being a double engine house, it has a frontage of some forty feet, as against the single lot to which a single engine house is confined, and the designer has taken advantage of his unusual opportunity in this respect to convert it into a single telling feature. The basement shows two equal segmental archways at the centre, with a small doorway on one side and a small window at the other. The arrangement, in so far as it introduces the subsidiary doorway at one side of an ample entrance which habitually stands open is common in the recent engine houses. Seeing that the two open apparently into the same apartment, it resembles the ingenious device of the late Sir Isaac Newton in cutting in the side of his cat kennel one opening for the cat and another and smaller one for her kitten. The substructure is of big blocks with deeply recessed joints and in point of design is neither here nor there.

The real design is the superstructure. This is of three stories under the cornice, wtih an additonal story in the roof. The centre is occupied by one great arched opening taking up about half of its breadth and running through the three stories of the wall. There is room on each side for an abutment of ten feet or so, and this abutment is properly kept as solid as possible, being pierced on each side only with a single small and plain opening in each of the two stories below the springing. The central arch, on the other hand, is entirely open, a mere sash-frame, in fact, in which the intermediate floor lines are treated as transoms. The contrast is effective, and the feature, though of course not novel here, having many precedents in the domestic architecture of the West Side, has seldom been so effectively handled.



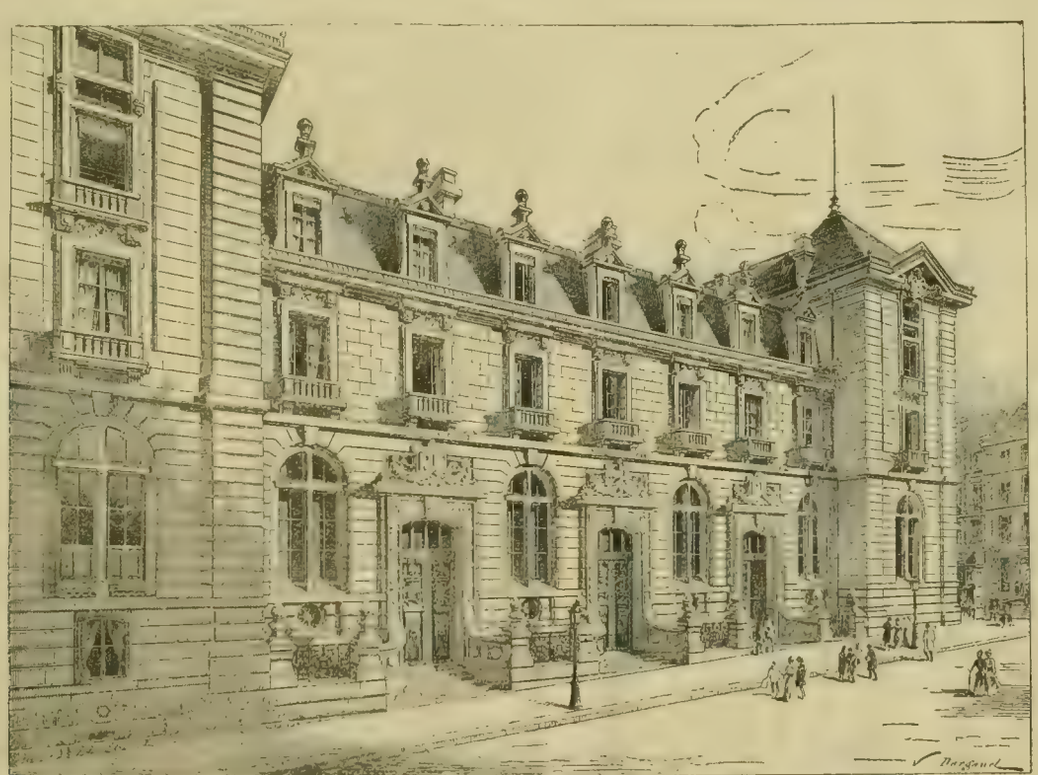
There are, however, drawbacks to its effectiveness. While the piers of the great arch have been pierced, as has been explained,

though so pierced as to attenuate or weaken them as little as possible, the wall above the springing, which forms the spandrils of the arch is left entirely unbroken. The effect of this solid wall at the top of a building is undeniably awkward. If the arch were monumental, the solid spandrils would explain themselves. In that case they would carry some decoration, and in the present case it seems that simple decoration in keeping with the character of the buildings, mere patterns in brickwork, for example, would have done much to relieve the awkwardness. But this is not all. This is not a monument but a building, and the fourth story of it is lighted, so far as appears only from a semicircular opening at the centre and at the floor line. We may assume that the architect has arranged for a more equable and effectual illumination than his front shows. But his failure to explain in his architecture what he has done in this behalf gives their chief awkwardness to these solid spandrils.

The arch itself is in good relation and keeping with the building, and is an impressive feature. But it has a very bad fault. Having no extrados, it has yet the hood moulding which should mark the extrados. Here the moulding is cut upon the face of the arch, while the vouissors are extended behind it and outside of it to level joints. This is architecturally meaningless and absurd, besides being a most wasteful way of cutting stone. It is odd that it should be used in a building which shows so clearly as this the influence of Paris, because the solecism was long ago castigated by Viollet-le-Duc, and nobody who has read the "Entretiens" has any excuse for not knowing that it is a solecism. The terminal cartouche of the arch, however, is designed with much spirit and ingenuity, carrying as it does the corbel in which rests a flagstaff.

The best thing about the building, excepting the main idea of the composition, is the treatment of the top. The main cornice is a series of iron brackets carrying a gutter of sheet copper, and between the brackets the brickwork is panelled. The arrangement is frankly expressive and the execution of it capital. Upon the whole the new engine house is architecturally the best that has yet been done for the department, and is a refreshing departure from the irrelevant ornateness of most of the work done for the department that was worth talking about at all.

SPEAKING of things French, for a year or two to come Parisian example will be as potent in New York architecture as in bonnets or robes. It's the vogue of the hour, and the builder who has hitherto "done" Romanesque, old Colonial, Francis 1st and whatever other styles were current, will apply himself assiduously to the French, if not of Paris, of Stratford-atte-Bow. The French style has many qualities. One is that its charm is native and of the soil, French. Therefore it has not the virtue of being easily seized by the uninstructed alien. Indeed, deprive French work of its indigenous element and the residuum lacks many qualities that other work possesses. It is a poor style for the copyist and adapter to touch. He is sure to accentuate its defects. Nevertheless, we may be certain that no considerations of this sort will deter for a moment the New York builder in search of "the latest." We are destined to suffer for our sins, and the passage of "Art" along the history of the city will be marked by blocks of buildings in the "French style," exemplifying in a crude and crucial manner what French architecture is not.



EXAMPLE OF CURRENT FRENCH DESIGN.

MODERNIZING OLD DWELLINGS.

In what may be called the heart of the residential portion of New York City there are so many instances where old houses are being remodelled into modern dwellings that it is interesting to consider whether it is really a profitable operation to alter an out-of-date house into one embracing all the requirements of modern living, or whether it is not better to tear the old house down and start anew.

The various kinds of alterations that are now in a state of progress or that have been made within a few years past may be grouped into two general classes: One comprising those where the essential arrangement of the house has been undisturbed, and the renovating process has been limited to a general overhauling of the premises; repointing the outside stone work; re-

decorating the interior; substituting new plumbing for the old, and placing the dining room on the rear of the parlor floor, adding an extension for the butler's pantry and second story bath. The other class embraces the houses changed from "high stoop" to "American basement" houses. In reviewing this modification, which involves, in almost every example, extensive operations, the most important phaze of modernizing out-of-date houses is dealt with.

The main feature of the American basement house is the entrance on the first floor. This may or may not involve a change in floor levels. If what was the old basement floor is considerably below the level at the sidewalk, say, for instance, two feet, so that it would be necessary to descend three or four steps to enter the house, it is desirable to construct a new floor as nearly level with the sidewalk as possible. This may necessitate a raising of floor levels throughout all the stories, or the change may be confined to the ground and the second stories if the height of the old parlor ceiling is thirteen feet or more, as it sometimes is. In this case the first floor may be placed at the same height as the sidewalk, but it becomes necessary to raise the level of the second or old parlor floor so as to give a proper height to the first floor ceiling. The second story ceiling is then at a height of eleven feet or more from the floor, which is sufficient. Where the height of the old parlor ceiling will not permit this change and the owner does not care to raise all the levels, the flight of steps descending at the entrance becomes necessary, but can by judicious treatment be made unobtrusive. An excellent solution of this problem was effected in a house in West 52d street where the level of the first floor was so far below the sidewalk that three steps seemed at first to be necessary. The architects utilized one step in going from the front hall to the kitchen, the height of another was neutralized by pitching the area four or five inches from the railing coping to the doorstep, when it was then necessary to descend only one step to enter the house.

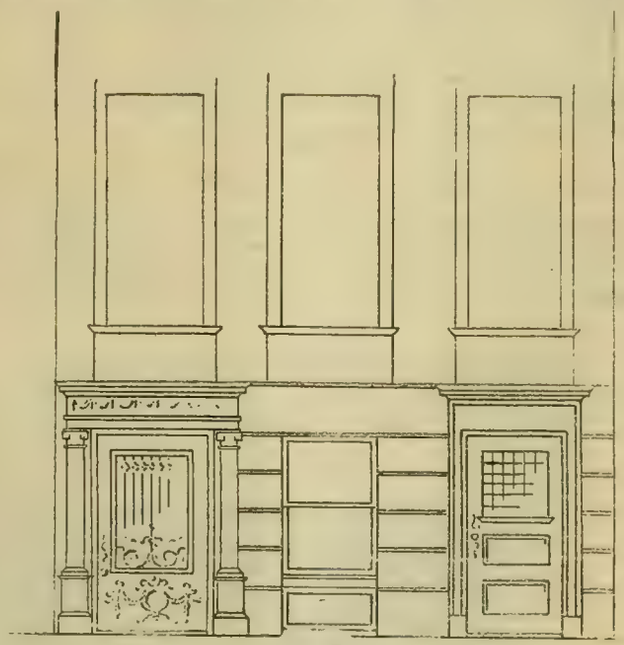
The arrangement of the basement floor in the old high-stoop house is generally as follows. The entrance in under the stoop and opens into a dark hall, lighted only by the glass panels in the entrance door and what light it could borrow from the front room, or more properly the dining room. The hall extended back to the kitchen and laundry, which in most cases were one. The space between the front and back rooms was taken up with closets, storeroom and butler's pantry. In the newer arrangement the kitchen may remain the same, but in most cases it is necessary to change the stairs, not only to enlarge them, since there are rarely more than 2 ft. 4 ins. from the wall to centre of rail, but to make them conform to the new entrance and arrangement of the front room. A narrow passageway must be provided for entering from the outside to the kitchen, and the space formerly occupied by the butler's pantry and closets is now converted into a storeroom, or is used for any other purpose not requiring a great deal of light, as the only way of lighting it at all is by putting glass panels in the front and rear partitions. An extension is generally added to provide a laundry on the first floor, a butler's pantry on the second for the new dining room, and a bathroom on the third floor. This extension contains back stairs for communication between the kitchen and butler's pantry. The main stairs lead up into a foyer hall on the second floor, with a drawing room in the front and dining room in the back.

The entrance hall can be treated in a variety of ways, and a small room may even be constructed at one side to be used as a cardroom or reception room, and which, in any case, is isolated from the rest of the house. The new situation of the drawing room allows a seclusion that is necessary for the proper use and enjoyment of this apartment. The rearranging of what is now the third floor is effected by abolishing the closets, washrooms and bathroom (see Fig. 4), and substituting the salon dressing rooms of the present day (see Fig. 4), the bathroom being placed in the extension. The fourth floor may be remodelled in the same way and an extension bathroom added. The whole top floor may be arranged as servants' quarters or the front room used as a billiard room.

The alteration of the facade involves the construction of a new main entrance on the first floor and a smaller entrance to the kitchen. The old front door is made into a window conforming to the old windows, and a new cornice is sometimes added and the front repointed and cleaned. The new entrance may be treated as a doorway with an entablature and columns with or without the addition of a metal and glass enclosure, or the treatment may consist of an entranceway of stone either open or enclosed. A new window is generally substituted for what was the window of the old dining room, or what is now the reception room or hall, or in some cases the old window opening may be utilized.

All or part of these changes may be made with any degree of elaborateness, and there are instances where a new front has been put in a building and the rear wall rebuilt, so that the only parts of the old house that remained were the side walls. In some cases the old basement, parlor and second floors, three in all, are removed, and a first floor several feet above the sidewalk and a second floor substituted. Both stories have high ceilings, but it is then necessary to add another story at the top of the house, and this in almost every case calls for an additional 8 inches to the side walls for at least two stories, to bring the strength of the walls up to the requirements of the law.

The cost of altering a house ranges in proportion to the extent of the operation, the value of the material used and the quality and extent of the plumbing system. Where the entrance is unchanged and the work is confined to removing the dining room from the basement to the rear of the parlor, extending the latter to the full width of the house and adding an extension for laundry, butler's pantry and bathroom, the expense will amount to about 40% of the cost of a new house on the same scale. The expense of changing a high-stoop house into an American basement will cost in the neighborhood of 60% of the cost of a new house of the same kind. In all cases the figures are based on plans containing only what is adequate and necessary in the ordinary sense. In extreme cases where only the sidewalls are left standing, or where the remodelling is done on a very lavish scale, there is a proportionately small saving over an entirely new house.



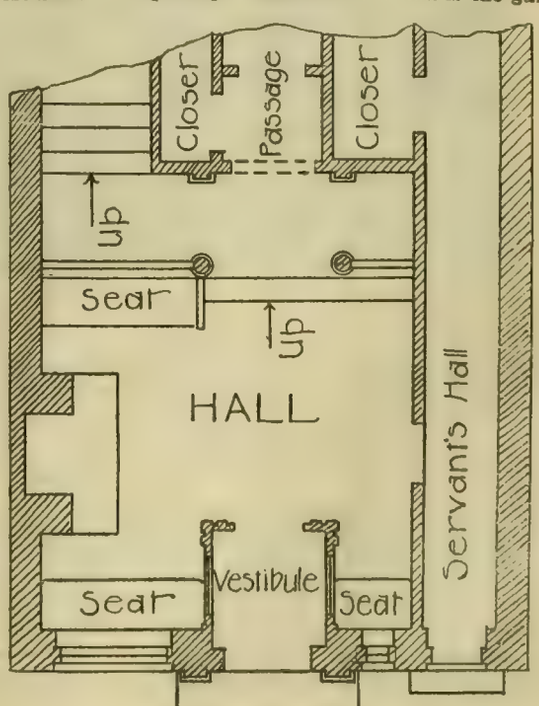


Fig. 7.

Sketch showing new main entrance and entrance to kitchen, etc. The old basement window remains and a new window to match old ones takes the place of the old entrance on the stoop.

In conclusion, it is safe to say that it does pay to alter out-of-date houses into modern dwellings, but it must be fully understood that the success of the operation depends upon two principal factors: The house must be one that lends itself readily to the change, and the work must be carried out with a due regard to economy.

The accompanying drawings show the alterations that were made in a particular case which is a fair type of the conversion of a high-stoop into an American basement house. The details are explained by foot notes to the drawings. In the preparation of these drawings and of the article which they illustrate we are indebted, among other architects, especially to Horgan & Slattery for valuable assistance.

The accompanying sketch shows a rather artistic arrangement of the entrance hall of an American basement house on the upper West Side. The principal feature of the hall is the gallery at

the end, which is the first thing to meet the eye on entering the hall from the street. On the gallery are fluted columns supporting the timbers of the ceiling, and a delicate balustrade in mahogany and white extends from these to the wall on either side. The next feature in the disposition of this room is the fireplace and seats on either side of the same, forming an artistic composition. The placing of seats in the windows add to the comfort and attractiveness of the interior. The room is finished in white, with mahogany doors, and the windows are in leaded glass.

JOSEPH A. FARLEY'S NEW AND ARTISTIC DWELLINGS.

An interesting group of private residences has just been completed on the south side of 108th street, east of Riverside Drive, by Builder Joseph A. Farley. The houses, three in number, are in modern French style, and are constructed of Indiana limestone

to the second story, with grey Roman brick and terra cotta above. The fronts are treated in bays for three stories, so that an excellent view of the river is obtained from the front rooms. While the treatment of the middle house differs in general detail from that of the others, the three harmonize together with good effect.

The interior arrangements are the same in all the houses. The hall is entered through a Colonial vestibule entirely paneled in white enameled wood. The doors are dark mahogany, and the outside one has a full length panel of plate glass, protected by a handsome black iron grill. Over the inner door is a fanlight of leaded glass, and there are sidelights to correspond. The hall has a parquet floor, a large fireplace and mantel surmounted by a stepped hood, and supplemented by deep fire-seats on either side. Recesses formed by the projection of the vestibule are lighted by latticed windows and furnished with seats. The finish of the hall is in white enamel, the walls are wainscoted for seven feet, at which height a 6-inch shelf runs around the apartment. Another interesting and attractive feature is a gallery at the back with fluted Ionic columns supporting the ceiling. The stairs ascend from this gallery. An arched recess, with a coat closet at one side, leads through a mahogany door to the rear rooms on this floor. The effect of this hall is extremely artistic and attractive.

Back of the hall is a bicycle room with excellent light and provided with a washbasin. In the rear are the kitchen and laundry, which have separate communications with the street. The kitchen is airy, light and spacious, and has an abundance of dressers and closets as well as a large storeroom. The laundry is light and roomy and has closets for the laundry utensils. The sinks and tubs are of white ceramic, and the plumbing and water supply pipes are all exposed. Back stairs extend from the laundry to the fourth floor, and a dumb-waiter connects the kitchen with the floors above. On the first floor are the drawing room, the foyer, the dining room and the butler's pantry. The drawing room is in white mahogany and gold, and contains a large Colonial mantelpiece and fireplace. A high base runs around the room, and full length French windows allow egress to a balcony in the front, which commands an excellent view of the Drive and river. The foyer on this floor is finished in white enamel and dark mahogany. Large mahogany columns, with an entablature in white, support the ceiling at the stairwell, and between these is a broad seat opposite a mahogany mantel and tiled fireplace. The balustrade of the stairs, which can be seen from the hall, has a mahogany hand-rail, and the balusters are in delicate spiral designs, placed three on a step, each one of the three being different in design. The sliding doors between the hall and the front and rear rooms have full length panels, showing a symmetrical pattern in the natural wood. The dining

room is in English Gothic design, executed in dark quartered oak. On one side is a mantelshelf supported on Gothic columns, the capitals of which are carved lions' heads. The room is wainscoted to the height of seven feet, and there is a large window in leaded glass with swinging sash in the middle and sliding sash at the sides. Below this is a broad window seat adjoining the fireplace. The three rooms on this floor are laid in parquetry. Back of this room is the butler's pantry in oak, which contains a wealth of dressers and closets, besides a porcelain lined refrigerator.

On the second floor there is a handsome library lit by a spacious bay window. The trim is dark mahogany and the floor is laid in parquetry. This room is separated from a bedroom in the rear by a salon passage which contains four large hanging closets, one washstand with closets and drawers and a large cheval glass. The bedroom has a fireplace in the Colonial style, and is finished in birdseye-maple. Adjoining this room is a handsomely appointed bathroom, the floor of which is paved in marble mosaic, and the walls are wainscoted in white and gold tile. The tub is enameled and provided with a shower. The third floor is laid out in bedrooms, and is provided with a bathroom in a different style from the first, though it is quite as luxurious. The front room has a fireplace and mantel and is finished in hazel wood. The rear room is finished in sycamore. A salon passage with cheval glasses, two washstands and closets and four large hanging closets, communicates between the front and rear rooms. The top floor has two roomy bedrooms in the front, provided with closets, and in the rear are the servants' rooms, three in number, each provided with a large closet. There is a well-appointed bathroom on this floor for the use of the servants, besides a large storeroom. A large stained-blass skylight lights and ventilates the stairs and halls. The plumbing throughout the houses is nickel-plated and open, and a separate line of water supply pipes runs to each floor. The houses are wired for electric light and piped for gas, and are complete in every detail, and the architects, Messrs. Janes & Leo, have not only turned out an artistic design, but have made a step forward in domestic architecture.

It is interesting to note that Mr. Farley is erecting at the side of these houses four others of similar character, three of them to be 22 feet and one 25 feet wide. Intending buyers are invited to examine the plans, which in case of purchase can be altered to suit the wishes of the owner during construction. It is quite usual for buyers of even new houses to make alterations to suit their own particular requirements, and it is easy to see how much better and more economically this can be done before the houses are completed than after.

It is unnecessary to speak of the location of these houses, as it is known so well to be in the very best residential section of the West Side. The street is restricted to private houses not less than 22 feet wide, a feature not recalled in connection with any other street in the neighborhood.

Mr. Farley's office is at No. 967 Boulevard, between 107th and 108th streets, and near the houses he is now offering to residential investors.

DOES FLAT-HOUSE PROPERTY PAY?

Since the revival of the building industry in 1895, speculative activity in the construction of flats has been centered in the district immediately north of the Park, between 110th and 125th streets, Morningside and Park avenues. In fact, this district, which is distinctly a flat-house district, has practically been built up during the past four years. There is no other part of the borough where an equal amount of new housing can be found in a compact group. The district immediately north of the Park is adjoined on the east by an old flat-house district. The competition for tenants occasioned by recent building necessarily lies for the most part between these two districts, as the more substantial tenantry of the modern flats west of the Park will, for social and other reasons, prefer to pay the existing difference in rent to remain where they are. Two weeks ago the Record and Guide published the result of a house-to-house canvass of flats in certain streets in the new district north of the Park and in the adjacent old district, those streets being selected in which the "to-let" signs appeared most numerous. In this canvass it was found that the proportion of vacancies was slightly smaller in the old than in the new flats, a phenomenon which is explained by the fact that the rapidly growing tenement house population, which some years ago practically did not extend west of 2d avenue, has been overflowing into the old flats and private houses between 2d and 3d avenues. In a total of 2,324 new and old flats (i. e. suites of rooms) canvassed the proportion of vacancies was found to be 11.6 per cent. As the canvass was confined to the least prosperous streets this percentage of vacancies is inferentially higher than the average for either or both of the districts in question, and is undoubtedly much higher than the proportion in any other typical flat-house district in the borough. It is worth while to discover whether flat-house property pays on the basis of a vacancy of 11.6 per cent at the rentals which rule where the percentage exists. Readers may draw their conclusions from certain properties whose incomes and expenditures have been furnished to the Record and Guide, although it is not at liberty to locate the properties further than to say that two of them were actually included in the canvass of two weeks ago, while the third is an avenue property in the new district. They are admittedly favorable examples, but their value lies in the information furnished regarding them being quite reliable.

The first property contains an old 5-story double flat house, with 6 rooms and a bath to the flat. The property was purchased by its present owner one year ago. Since then one flat has been vacant three months, the vacancy existing at the present time. The total income from the house, when fully occupied, is at the rate of $2,088 a year. The property was purchased for $23,000. The income and expense account on the basis of a vacancy of 11.6 per cent would be as follows:

Gross income when fully occupied		$2,088.00
Less 11.6 per cent.		242.20
Balance		$1,845.80
Taxes	$230.00	
Janitor	120.00	
Water	46.00	
Insurance	15.00	
		411.00
Net income		$1,434.80

The net income from the property, on the basis of a vacancy of 11.6 per cent, would be $1,434.80, or 6.2 per cent per annum on the purchase price of the property, free and clear. As a matter of fact, however, there are two 5% mortgages on the property, which would make the income and expense acount read as follows:

Gross income when fully occupied		$2,088.00
Less 11.6 per cent.		242.20
Balance		$1,845.80
Interest on mortgage of $17,000 at 5%	$850.00	
Interest on mortgage of $2,700 at 5%	135.00	
Taxes	230.00	
Janitor	120.00	
Water	46.00	
Insurance	15.00	
		1,396.00
Net income		$449.80

There is here a net income of $449.80, or 13.6 per cent interest per annum on the owner's equity of $3,300. This would constitute the profit from the equity on the basis of a hypothetical vacancy of 11.6 per cent through the year. The owner's actual profit is much larger, as in the course of the past year he has had a vacancy of but 10 per cent three months only.

The second property, which was purchased for $20,000, is an old 5-story double flat house, with four rooms and a bath to the flat. The house has been fully occupied during the past year, while the year before a loss of 15 days' rent for one flat was occasioned by a change in tenants. The actual income and expense account of this property for one year is:

Gross income when fully occupied		$1,836.00
Mortgage of $15,000 at 5%	$750.00	
Taxes	221.00	
Water	46.00	
Janitor	108.00	
Insurance	15.00	
		1,140.00
Net income		$696.00

The net returns from the property is $696, or 13.92 per cent per annum on the owner's equity. If the property were held free and clear, the return would be 7.23 per cent per annum. On the basis of a hypothetical vacancy of 11.6 per cent, the net income from the property would be 6.33 per cent interest on the purchase price, and 9.66 per cent interest on the owner's equity.

The third property is a new 5-story double house with two stores. It has six rooms and a bath to the flat, and supplies steam heat and hot water. It may be purchased for $30,000. It has one flat vacant at the present time. On this basis its income and expense account is as follows:

Gross income when fully occupied		$3,576.00
Less actual vacancy		357.00
Balance		$3,219.00
Mortgage of $20,000 at 4½%	$900.00	
Taxes	212.00	
Janitor	144.00	
Coal	150.00	
Water	50.00	
Insurance	25.00	
		1,481.00
Net income		$1,738.00

The actual interest on the owner's equity is, therefore, at the rate of 17.38 per cent per annum, or 8.79 per cent on the selling price. On the basis of 11.6 per cent of vacancy the interest on the selling price would be 8.63 per cent, and 16.81 per cent on the equity. In the foregoing computations the only element of expense which has been omitted is that of repairs, which is a more or less variable quantity, but the profits as calculated above both in the actual and the hypothetical cases, are ample to provide not only for repairs but for a sinking fund to repay the original cost of the buildings within a reasonable term of years.

OCTOBER FORECLOSURE SALES.

Below is our usual table showing the disposal of properties announced for sale in foreclosure during the month of October, compared with the same for the corresponding month of last year. The only sale of marked importance included in the figures for last month was that of No. 634 Broadway, 25x192, extending into Crosby street, which was bought by the plaintiff, who first purchased it some years ago, at the price of $156,000, and to whom the property now stands at $192,000. The chief feature brought out by the comparison of the figures of the two months is the larger

proportion that was taken in protection of the mortgage loans in the month of this year:

THE HUNT MEMORIAL.

The monument erected to the memory of Richard Morris Hunt, the distinguished architect, was unveiled on last Monday at 4 o'clock. The memorial is executed in marble and granite from the design of Bruce Price, the President of the Architectural League. On the pedestal at the centre there stands a splendid bronze bust of Mr. Hunt, executed by Daniel Chester French, who is to do the bronze figures representing Architecture and the Allied Arts, which are to occupy the pedestals on either side of the monument.

THE HUNT MEMORIAL.

The ceremony began with a preliminary reception in the Lenox Library, after which the committee of architects and guests assembled in front of the monument. George B. Post, President of the American Institute of Architects and of the Fine Arts Federation, and Chairman of the Hunt Memorial Committee, in presenting the monument to the city paid a high tribute to Mr. Hunt's memory, and spoke of him as the father of American architecture. At the conclusion of his speech the monument was unveiled by Richard Hunt, a grandson of the architect, and was accepted in the name of the city by Randolph Guggenheimer, President of the Council, and G. C. Clausen received it into the custody of the Park Board, of which he is President. The ceremony closed with a prayer by William R. Huntington, of Grace Church. The monument stands on the edge of the Park in a singularly appropriate position, directly opposite the Lenox Library, one of Mr. Hunt's most beautiful compositions.

WAR TAX RULINGS.

The following additional rulings, of interest to the realty world, have been made by the Commissioner of Internal Revenue since the Record and Guide last referred to the War Tax Act:

Tax must be paid on a mortgage presented for record after July 1, 1898, whether made before that date or not.

The tax on a conveyance is calculated on the value of the property conveyed, and irrespective of what the equity of the conveyer may be. This is a repetition of an old ruling.

A mortgage must be stamped to the amount of the consideration named therein at the time of its issuance, delivery and record. This was in answer to the question, whether a mortgage is taxable at the time of its delivery and record, or whether it would be a sufficient compliance with the War Revenue bill to put stamps upon the mortgage at the rate of 25 cents for every $500 advanced or fraction thereof exceeding $1,000 at the time when the money is advanced.

MATERIAL MARKET.

BRICK.—The arrivals this week were about as usual, and the sales were up to the arrivals. The number left over on Monday was less than it has been for some time past. The quality is not up to the usual good grade, the wet weather of the fall having made it impossible for manufacturers to produce the desired quality. Owing to this the values on some favorite brands have apparently not been maintained. Straight cargoes, however, have gone off quickly at former prices, and in some cases an advance of 25 cents has been asked for specials, making the price $6.25. Pales are very quiet at $4.00. New Jersey manufacturers have difficulty in meeting the demand for their product, and are able to market their brick in Newark and other New Jersey cities at prices superior to those obtained in this market for North Rivers.

LIME.—About 5 cargoes of Rockland came in this week, and is selling off easily at prices ranging from 65 to 75 cents. The demand is good on account of fall laying in of stock, and cargoes are being sold to arrive. The demand for State is seasonably very good. There is only a limited amount on the way and quantities are selling to arrive. The market is in good condition, and the demand will probably continue very good until the end of the month, or until the canals are closed and rail rates prevail. Prices are firm at 65c. for common and 90c. for Jointa.

LATH.—The number sold during the past two weeks was in the neighborhood of 2,000,000, at $1.75. There are practically none in the market, and few on the way. The demand is very good; $1.75 is offered for lath to arrive.

CEMENT.—Domestic and imported Portland are being absorbed as rapidly as they come to the market. The mills are working night and day, and cargoes are arriving right along, but the demand is far in excess of the supply, and dealers are having great difficulty in filling orders. In some cases work is being laid over until the spring, awaiting an easier market. The demand for Rosendale is increasing, and prices are firmer than they were. Manufacturers who have heretofore been selling off are now getting better prices. The demand will probably continue good up to the end of the season. Prices are firm at 70 and 75 cents.

OIL.—The market is very firm, both in spot and future oils. The principal factors which sustain this condition are: The excellent demand; dealers taking oil so readily that it is not accumulating on the hands of the crushers; the high price of seed in Chicago; as high at $1.05 and $1.06 being paid for spot seed and the increased export demand for seed. Out-of-town brands are pretty well up to city oil, and none can be procured at less than 35, and even 36 is paid in some cases. The indications are that the demand will continue excellent for some time, owing to the small stock in the hands of consumers. Raw oil quoted at 37c. for 5-barrel lots and 38c. for smaller quantities. Boiled oil is 39c. and 40c. Calcutta oil is selling at 54c.

NAILS.—There has been some cutting of prices on carload lots. The demand has fallen off a little and will continue light probably until the end of the year. There is a good assortment of stock on hand, and orders are being promptly filled. The cut nail manufacturers held a meeting on Thursday, at which was discussed the cutting of association prices on carload lots by some of the mills.

LEAD.—Owing to the decline in price of pig lead, from $4.09 to $3.60 per 100 lbs., the prices of white lead, red lead and litharge have dropped ¼ of a cent. The prices of the above commodities quoted by the National Lead Co., are now as follows: In lots of less than 500 lbs., 6 cents net, in lots of 500 lbs. and over 5½ cents. The other conditions of the schedule of the above company published last week have not been changed. September business was satisfactory, and October business was very good. Trade will probably quiet down during the present month, although at present it is seasonably very good.

PAINTS.—Business is seasonably good, and prices this week show no material change.

GLASS.—Business is quiet at present, but there is nothing to warrant a decline in prices. The American window glass manufactures are starting their fires. This will have no material effect on prices, as the new stock will be confined to certain sizes, which are required to complete the full assortment of sizes which is at present incomplete. Prices are as follows. Plate 80, French window 80 and 10, American window 80 and 20.

LUMBER.—Prices have a tendency to stiffen throughout the market. Business in Yellow Pine is improved, although no material changes have been made in prices. Spruce is in good demand with prices unchanged.

HARDWOODS.—The advance in prices of hardwood is due more to light stocks than to increased demand which continues very good. Poplar is in excellent demand, and has sustained an advance of about $1.00 per 1,000 feet, during the last two months. Cypress is in good demand, and is bringing good prices. The supply of this wood is limited by local conditions at the mills and by quarantine restrictions at points along the Gulf.

NAVAL STORES.—The spirits of turpentine is quiet. Inquiry was light and limited to jobbing trade. Large consumers are not buying, so that the light stocks are sufficient for current trade. Local prices have resumed a more normal condition in relation to the Southern market, and buyers are inclined to hold off, awaiting future developments. The market closed dull at 37c. for Southerns and 37½ for machines. The offerings in tar are light, and the inquiry is very limited, so that the market is dull. Regulars are selling at $1.80 and $1.85, and oil barrels at $3.00 and $3.10. Pitch is moving slowly at $1.60 and $1.65.

OF INTEREST TO THE BUILDING TRADES.

F. J. Miller has removed from 3438 3d avenue to No. 962 Boston road.

Lawrence & Ringrose, of 3d avenue and 150th street, will remove to the Metropolis Theatre Building, 3d avenue and 142d street.

The contract for the new fire engine-house at Schofield avenue and Main street, Bronx, has been awarded to John Fury, at $7,997.

The provisions of the Federal Bankruptcy Law, under which creditors may move to have debtors adjudged bankrupts went into effect on Tuesday last.

The conditions in the plumbing trade are at present fair. It is to be hoped this state of things will continue, although in view of the comparatively small number of building operations in prospect it is feared that the demand for workmen will decrease.

An informal gathering will be held at the Building Trades' Club rooms in the Townsend Building, on the evening of Election Day, when the results of the election will be announced. A special wire has been put in for the purpose, and an attendance of about three hundred members and their friends is expected.

An examination of the last caisson for the new East River bridge, which recently struck bedrock at a distance of 108 feet on the Williamsburg side of the river, was made this week, and it is understood that progress will now be made in beginning the overhead work.

The terms of the architectural competition to be held for the purpose of selecting the plans for the new Mount Sinai Hospital, to be erected on 5th avenue, between 100th and 101st streets, will probably be published in the course of next week. The hospital will comprise a group of eight buildings, the estimated cost of which will aggregate $1,000,000. Ground will be broken in the spring.

Although the work of changing the motive power of the Third Avenue system to the underground electric trolley began this week, the reconstruction of the power house at Kingsbridge road and 216th street will not be commenced before spring. The building, when completed, will furnish the motive power for the entire system. The contract for the improvement is held by Isaac A. Hopper, No. 219 West 125th street.

Although no settlement of the strike in the Ivins Syndicate Building has as yet been effected, the work is progressing with workmen who have replaced the strikers. Up to a few days ago the portion of the plumbing work left unfinished at the time the strike commenced was the only work in the building that was not progressing, but the plumbers have now returned to work, and it is hoped that the building will be completed without any more interruptions.

The following is a statement of the permits granted for new buildings and alterations in Brooklyn during October, and the estimated cost of the same: Brick buildings, 171; frame, 276; total buildings, 447; alterations, 225; total number of permits issued, 672. Estimated cost of brick buildings, $1,054,145; estimated cost of frame buildings, $711,228; total estimated cost of all buildings, $1,765,373; estimated cost of alterations, $139,273; total estimated cost, $1,904,646; total estimated cost for October, 1897, $2,114,597; excess in favor of 1897, $209,951.

The Mercantile Exchange of this city met on Wednesday last and adopted a series of resolutions endorsing the purposes and work of the Merchants' Association of New York. In the list of

other associations which have passed similar resolutions, or have them under consideration are the names of the Architectural League, the New York Chapter of the American Institute of Architects, the Builders' League of New York, the Architectural Iron Manufacturers' Association, and the Tile, Grate and Mantel Association.

The following is a comparative statement of the receipts of the Department of Water Supply for Croton water for building purposes for the months named:

Mason Builders' Association, Building Trades' Club, Thursday evening at 8 o'clock.

Real Estate Market

The business of the private sales' market has been very respectable for an ante-election week. Transactions in flats and dwellings, and in properties intended for improvement with residential housing, have been the feature of the market. Several of the dwellings reported were of a high grade, as, for example, No. 5 East 42d street, which sold for $120,000; and No. 414 Madison avenue, which sold for $75,000. An apartment house on the corner of 85th street and Amsterdam avenue brought $200,000. Besides the fair volume of business actually transacted, the week has produced rumors of negotiations concerning a number of large properties, including, among others, No. 117 West 42d street, No. 538 Broadway, and the old Columbia College site. Facts like these account for the feeling general among real estate men that the movement in the private sales' market which became manifest at the beginning of October will continue to gather force. The total number of transactions given below is 43, with considerations given in 15 amounting to $765,550; corresponding figures for last week were 44.9 and $517,000 respectively.

The following are the comparative tables for the New York Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1898 and 1897:

The apathy usual in the auction market immediately before an election was marked this week. There was only one parcel scheduled for voluntary sale, namely, No. 512 West End avenue, by Bryan L. Kennelly, and this was withdrawn. Of the properties offered in foreclosure proceedings, few were of a nature to invite competition. Two parcels, more attractive than the average, were withdrawn and disposed of at private sale—No. 13 East 80th street, and No. 32 West 75th street, both of which had been billed for public sale by Richard V. Harnett. A third parcel, No. 423 141st street, on the northeast corner of Hamilton terrace, which was to have been sold on Monday by Peter F. Meyer, was disposed of at private treaty last week. The foreclosure sale by James L. Wells, of the property belonging to Lewis S. Samuel, at Hunt's Point, in the 23d Ward, was the principal event of the week. The property comprised 117 lots, offered in seven parcels, five of which went to the plaintiff. The sale of ten of the dwellings built by the late George J. Hamilton, on Edgecombe and 8th avenues and 138th and 139th streets, resulted in a deficiency of about $24,000. It is said that prior to the sale a responsible offer was made to the executors to relieve them of liability on the mortgage bond for $12,000, an offer which they were, however, unable to accept. No. 13 West 113th street, Strong & Ireland, auctioneers, was withdrawn. There were no adjournments to dates beyond the coming week.

D. Phoenix Ingraham, on Tuesday, November 15, will sell in foreclosure Nos. 313 to 323 East 22d street, a 5-story brick factory building, with a plot 150.8x98.9, and engines, boilers, machinery, etc. The building is capable of sub-division into separate factories. Liberal terms are promised to buyers. For particulars see announcement in our business pages. Maps may be had at the auctioneer's office, No. 11 Broadway, or of Julius J. and A. Lyons, attorneys, No. 520 Broadway.

Bind your copies of the "Record and Guide." They are invaluable for search and reference. We will either bind your copies in ½ sheep for $1.75 a volume, or in ½ morocco for $2.00 a volume, or supply you with handy binders, which you can use yourself, for $1.00, postage nineteen cents. "Record and Guide" office, 14 and 16 Vesey street.

LEASES.

De Blois & Eldridge have leased for the Whiting Estate to Harold Brown, of Newport, R. I., the dwelling No. 382 5th avenue.

Gustave L. Morgenthau has leased for ten years, from May next, from the trustees of Anna R. Morris, No. 244 West 125th street, which adjoins a property Mr. Morganthau owns and recently altered into a dry-goods store. The property now leased will be altered when possession is obtained.

REAL ESTATE NOTES

No. 117 West 42d street, owned by the estate of George L. Pease, is reported sold at about $92,000.

The Hammerstein Amusement Co. have obtained a building loan of $36,000 from Herman Wronkow for the erection of the new theatre at 7th avenue and 42d street.

Roswell P. Flower has taken title to No. 599 5th avenue, the consideration stated being $160,000. At the time of signing contracts the price was reported as about $151,000. The seller paid $72,750 for the property in 1877.

No. 538 Broadway, a 5-story building on lot 25x110, owned by the estate of N. D. Higgins, and for which Mr. Higgins paid $60,000 in 1878, is reported sold at $110,000. No. 536, adjoining, 25x100, was sold at auction in 1896 for $110,250, and Nos. 532, 534, 50x100, were sold at private sale in 1896 for $235,000, and have since been improved with modern buildings.

It is reported that negotiations are very nearly completed for the sale of the Columbia College site at Madison avenue, from 49th to 50th streets. In connection with this report it is stated that if the sale goes through the Madison avenue front will be improved with high class dwellings, and that the two corners will be occupied by gentlemen prominent in real estate circles.

Stephen Farrely, a member of the Committee on Site for the Roman Catholic Orphan Asylum, states that they are no nearer a decision as to the new site for the asylum than they were six months ago. A great number of sites have been offered, and he states that the number under consideration is nearer thirteen than three, the number stated in current reports. A plot in the Hunt's Point section is said to be receiving favorable consideration.

An important meeting of the House and Real Estate Owners' Association of the 12th and 19th Wards was held at the association rooms, No. 1591 2d avenue, Thursday evening of this week. The failure of the city to begin work on Exterior street, the projected street which is to run along the East River from 64th to 81st street, was the leading subject of discussion before the meeting. The assessment on adjoining property owners was paid in by the 1st of November, a year ago, while the city has done nothing to apply this money to its intended use. The counsel for the association, Mr. Adolph Bloch, was directed to draw up a resolution for the introduction into the Municipal Council providing for an official inquiry as to why work on the street has not been commenced. He was also instructed to prepare a resolution to provide for grading and paving 83d and 84th streets from East End avenue to the East River. It was reported to the meeting that Chief Engineer Birdsall, of the Department of Water Supply, in answer to representations from a committee, promised speedy relief from the water famine which has prevailed in the streets east of 3d avenue, the famine being due to the inadequacy of the supply-main for these streets.

TRADE NOTES.

PLASTIC SLATE ROOFING.

J. Casmento & Co., of No. 160 5th avenue, manufacturers of plastic slate roofing, report a growing demand on the part of architects, builders and owners for plastic slate roofing. They are actively engaged in recovering old tin and slate roofs in the lower part of the city with plastic slate roofing, and have recently covered with the same material roofs of Nos. 155 and 157 West 34th street, 109th street and Central Park West, and 95th street and Riverside Drive, and are now engaged roofing three houses on 117th street, near Morningside Park, for Builder Judson Lawson. Plastic slate does not soften under the influence of heat, or crack from cold, and affords a water and fireproof covering. It is light in weight, does not require painting, will not corrode, and is guaranteed for a term of years. Circulars and estimates for new or old work will be sent on application to J. Casmento & Co., the oldest firm in the business, at the above-mentioned address.

ARCHITECTURAL IRON WORK.

The young and enterprising firm of Posthauer & Dichting, who, a year ago, commenced business at the old-established architectural iron works, No. 422 East 48th street, have had a very busy year, and executed satisfactorily many important contracts. An exceptionally speedy and unique job was executed in 15 days at Nos. 763 and 765 Columbus avenue, where a cantilever bridge was erected to carry two 12-inch light shaft walls, after plans by Architect G. A. Schellenger. The firm supplied all the iron work, including beams, stair work, elevator enclosures and railings for the seven-story brick and stone apartment house Nos. 28 and 30 West 128th street, and for three 50-foot front six-story flats, on 92d street, near Central Park West. They also furnished all the iron work for a block of five five-story flats, on 162d street, between 3d and Brook avenues, for Thos. Overington. All orders receive careful attention from start to finish.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

MORTGAGES.

NOTE. The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the date when the mortgage was handed into the Register's office to be recorded.

When the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

Mortgages under this head marked with * denote that the property is located in the new Annexed District (Act of 1895).

BUILDINGS PROJECTED.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects) for the first time in one volume, illustrated, indexed and supplied for $2.50. Record and Guide, Publishers, 14 and 16 Vesey street.

The [illegible] that below [illegible] stands for architect, m'n for mason, c'r for carpenter and b'r for builder.

When character of roof is not mentioned, it is to be understood that the roof is to be of tin.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (+) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about Muresco for the asking.

Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors, and altogether it is impossible to give a line of retail quotations thoroughly reliable in character.

"Entered at the Post-Office at New York, N. Y., as second-class matter."

Vol. LXII. NOVEMBER 12, 1898. 1,600

AN easy explanation of the present enormous buying of investment securities is found in the large amounts of money seeking use at low rates. It does not take much calculation to show that, with four and five months' money at 3%, it pays to buy good 4% issue in the 90s and 5% ones at not too high a premium, provided only that the interest is sure to be paid and the prospect is good for a sustention of quoted values. The condition of trade and the results of the election, which latter were anticipated by Wall Street, account for the good buying to which we have directed attention for two weeks past. It is risking nothing to say that this country was never stronger in available funds than it is to-day, nor has it ever had such good prospects for keeping so. Some causes contributing to this state of things are given in another column. The important question to consider here is, whether the money market will continue for long to favor Wall Street as it does now? The answer to this question depends on the ability of trade and commerce to absorb funds. As soon as the expansion of business renders extensive increased commercial demands on the money market necessary, corporate securities will lose the advantage of cheap money that they enjoy now, and we shall see here a repetition of the movements which, for example, put Consols up in London to prices they had never known before and later brought them down again to figures normal for good times. The process of rise and fall took a few years to complete. In our own case, and particularly in view of our pecuniary strength and the confirmation of confidence as the fears of currency agitations are removed by the ballots, there is no apparent likelihood of dearer money for some time to come. Industrial and commercial development will absorb more and more money, and so take it away from the speculative markets, as time goes on; but this is a slow movement, and the point at which it will materially force up rates is a good way ahead.

CAUTION is so marked a characteristic of Lord Salisbury that the speech delivered by him at the Guildhall banquet this week, may be accepted as reassuring on the whole. His intimation that Great Britain could not afford to relinquish a policy of readiness for any emergency had no special application to France or the Fashoda incident. It might, with equal justice, have been made one or two years ago as now, or, for that matter, ten years ago, because the contest, which until now has happily been diplomatic, but might have and still may at any moment become martial, for the control of the tropical trade, has been going on and must continue for a long time to come. What is actually being accomplished is a re-distribution of the trade of the world, and the conservation or dispersion of the estates of incompetent peoples, in which the issues are so vital and colossal, that any man on whose words responsibility rests, may well display caution in his utterances. The Fashoda incident having excited the world and sent the prices of securities fluctuating, will make way for others of more importance. France ought to have something to say about the Emperor William's policy in Asia Minor, where a French tradition has prevailed since the time of the First Crusade, and France has been the protector of the Christian congregations, and which Queen Hortense's pretty song, "Partant pour La Syrie," that our grandmothers used to sing, was intended to perpetuate. Paris has abolished the octroi on wine, cider and beer, and, to compensate the loss of income created thereby, proposes to tax alcohol, revenues of houses to be paid by landlords and rents to be paid by tenants, besides many other things. The stringency of money at Berlin continues, as does also, there being relatively between the two, great industrial activity in many directions, particularly in electrical work. The Union Electric Company, founded by the Ludwig Loewe, a local company, and the Thompson-Houston, of Boston, has just increased its capital from $750,000 to $4,500,000; a Nuremberg electric company has also raised its capital, by about $1,250,000. The Vienna surface roads are to be reorganized, converted to electric and operated by Siemens & Halske, i. e., the Deutsche Bank of Berlin. Among the conditions of the contract are these: That changes of carriages (transfers) are to be paid for at a stipulated rate, and that children, who pay half price, are to be measured by the guard (conductor) with a metre measure, whether for height or breadth is not reported. The Vienna Bourse narrowly escaped a panic on the discovery of the bubonic plague in that city; one death outside of hospital circles would have precipitated it. The Indian jute crop of the present season is estimated at 88% of the normal. Egyptian cotton prospects are less favorable than they were a year ago, and a decline of 50,000 to 75,000 bales is expected. The cheapness of the American cotton is, to a considerable extent, displacing others from the market. One of the most remarkable things brought out by cotton statistics, is the ability and apparent desire of the grower to give the consumer the advantage of the increase in his own demand; the increase of the production being continually more than equal to the increase of consumption, although the latter is quite large.

THE charter provides for a "just and equal" tax throughout the Greater New York. Until the annual record of the assessed valuation of real and personal estate in the several boroughs shall have been completed, some weeks hence, it will be impossible to express in precise figures the effect of consolidation on taxes in Manhattan and Bronx. However, that the incidence of taxation will fall with greater severity on those boroughs than was originally expected is patent, inasmuch as the budget for 1899 has turned out to be some thirteen millions of dollars larger than was anticipated. In Brooklyn, at the last tax levy, the assessed valuation on real estate was popularly supposed to be 75% of the actual value, and in Manhattan and Bronx 60%. In Richmond and Queens the average was probably 50%. Public policy, dictated by the necessity for securing a reasonable debt margin, requires that the assessed valuation shall be raised more or less uniformly throughout all the boroughs to 75%. If strict uniformity were to be observed, some $446,800,000 would be added to the assessed valuation of real estate in Manhattan and Bronx. There is reason to believe, however, that the addition will not exceed $300,000,000, though there are some who put the prospective increase much higher than either of these figures. The increase, as was intimated last week, will probably be obtained by raising the valuation of commercial and the better class of residential properties, particularly in the middle sections of Manhattan, from 20 to 40 per cent, tenements on the East and West Sides remaining untouched. According to unofficial, but, nevertheless, quite reliable report, the tax rate for the coming year will not be over 2.50. The average tax rate in Brooklyn last year was 2.83; in Richmond and Queens 4.50. As the assessed valuation in Brooklyn remains the same, except on a small quantity of suburban land, which has hitherto been rated according to its value for agricultural use, the considerable decrease in the burden of taxation in that borough will be measured by the drop in the tax rate. Long Island City, where both the assessed valuation and the tax rate were unusually high, will also experience material relief. To Manhattan and Bronx, that is, the old New York city, consolidation will mean, according to the best available information, an arbitrary addition of at least $300,000,000 to the assessed valuation on their real estate, and an increase in the tax rate from 2.01 to anywhere between 2.30 and 2.50. And no matter what the tax rate happens to be next year, it will most probably be higher in each succeeding year for some years to come. The current budget was cut mercilessly, so mercilessly as probably to interfere with the administrative work of the government. On this ground alone, therefore, we may look for a substantial increase next year. Besides, the cost for the maintenance of streets in the new boroughs will grow as the hundreds of miles of dirt roads are improved, and the demand for education and police and fire protection grows with the population. In another column are given the assessed valuations of the several boroughs and other data, on which these calculations are based.

A MORNING contemporary calls attention to the fact that there are four whole blocks of land for sale, within an area of three square blocks, bounded by 52d and 49th streets and 5th and Lexington avenues, and therefore located in one of the most aristocratic sections of the city. These blocks contain within them St. Patrick's Cathedral, the Buckingham Hotel and the Villard mansions as representatives of permanent improvements. The four blocks referred to as in the market, are the

two occupied at present by the buildings of the Catholic Orphan Asylum, for which no new site has yet been selected, the old Columbia College site, and the site of the Women's Hospital. Owing to the circumstances of the several cases, it must be some years yet before all these blocks are disposed of, and existing improvements torn down and replaced by others more in consonance with the character of the section in which they are located, and the high value attained by the land on which they stand. It may be urged that no better uses could be found for the land than the charitable and educational ones it has served for so many years past, but with cheaper and, from a practical point of view, equally, and perhaps more suitable, sites to be found elsewhere, the managers of the institutions mentioned exercise only business prudence in availing themselves of the latter and securing for their several works the benefits of the incrementary values of the old sites. As to what will happen when the institutional buildings have gone and the land has been newly developed, while only what are known as "first-class" buildings can be erected, it is hoped that it will be possible to apply the term to them architecturally as well as commercially.

OUR RESERVES OF GOLD.

ACCORDING to the report of the Director of the Mint, Africa has become the largest gold producer in the world, the value of its output in 1897 being placed at $58,306,600, in comparison with $57,363,000 for the United States, which has led the world for so many years hitherto. The Rand production is continually increasing, it being reported at 3,081,997 ozs. for the first eight months of this year, and, as every ounce is worth about $20, it is highly probable that the small lead of 1897 will become quite a good one in 1898. Whenever these reports of production appear the question arises, What becomes of all the gold produced? The answer to this question, however, is not easily found. A recent attempt to account for the production of the ten years 1887-96 first placed it at the enormous figure of $1,432,253,500. The gold coinage of the world for the same period is estimated at $1,704,775,000, or $263,600,000 more than the total production. The consumption in the industries is put at $58,000,000 a year, or $580,000,000 for the period of ten years. This amount deducted from the total production would leave $852,253,500 new gold available for currency purposes; the difference between this and the actual coinage, $852,521,500—by a curious coincidence very nearly one-half of the total—is explained by recoinage of old gold coins, but the latter were probably supplemented by drawings from stores that existed prior to 1887. The location of the gold is attempted to be shown by the imports and exports and the production distributed nationally. From this it appears, in round figures, that Great Britain produced no gold, but imported, net, $249,775,000; the United States produced $360,810,000, but exported, net, $244,440,000, and therefore, finally retained $116,370,000; France produced none, but imported, net, $142,105,000; Russia produced $233,285,000 and imported, net, $255,110,000, so consequently made a total gain of $488,395,000; Austria-Hungary produced $150,350,000, and imported, net, $200,305,000, making thereby a total gain of $350,655,000; Australasia produced $340,955,000 and exported, net, $211,945,000, retaining $129,010,000; India produced $28,130,000, imported, net, $75,660,000, and so increased its stock $103,790,000; South Africa produced $216,795,000, exported $154,715,000, and retained $62,080,000. The totals thus shown to be retained together make $1,668,885,000, and about $245,740,000 more than the production. A sharp critic would find arithmetical discrepancies in these results, when compared with first statements of production, but that is due to the later amounts being given in round numbers. It will be noted also that the smaller countries like Holland, Belgium, Italy, Switzerland and others are not mentioned, but the movements of gold in them would not affect final results materially.

Perhaps the figures in the foregoing paragraph prove rather that it is impossible to follow the movements of gold from the mine to final rest, if finality of location can ever be claimed for it; but at the same time they do give some idea of where the vast amounts that have been produced in the ten years have gone to. The stocks in the great European banks at the end of 1896, though they have since depreciated considerably, as was stated last week, had all increased, more or less, that of the Bank of Russia in the largest degree, and we know that the great military nations, Russia, France and Germany, have all accumulated gigantic war chests in preparation for the financial needs of the great struggle, that the physical development of armies and armaments has threatened for a quarter of a century past. The figures, relating as they do to a period closing when there was considerable depression of business in the United States, place this country in what may be considered a bad light, if the accumulation of gold is invariably a proof of prosperity. It is interesting, therefore, to note that, as a gold-holder, this country to-day occupies a very different position to what it did at the close of 1896. As has been seen, the United States had in ten years exported all but $116,370,000 of its production of that period. Since then it has added to its gold holdings considerably. In the year 1897 imports and exports of gold about balanced, there being an excess of only $255,809 of the latter, consequently the production of that year, which, according to the Director of the Mint, amounted to $57,363,000, was practically all retained. This year has been a great importing year. Complete statistics are not available, but such as are prove this unquestionably. The Treasury reports show a balance in favor of imports from January 1st to Sept. 30th of no less than $114,648,814. Between October 1st and November 4th the net imports of gold at the Port of New York alone amounted to $13,750,527. Considerable, also, doubtless came in at San Francisco, but the figures relating thereto are not yet at our disposal. We have then to show the accretions to our gold balance in the past two years: The production of 1897, less the small export balance of that year, $57,107,191; the production of 1898, which may be estimated at $60,000,000, the prospect being for an increase rather than a decrease, and the excess imports, which already may be safely put at considerably more than $130,000,000, or in round figures no less an amount than $250,000,000. The gold stock of the United States, as estimated by the Director of the Mint, as of January 1st, 1898, was $745,245,953, an increase of $48,945,000 on his estimate made six months previously. To the estimate for last January should now be added the production and excess imports of this year.

This inquiry begun, to some degree, in a spirit of curiosity, has produced results not only sufficient to gratify that spirit, but important enough to justify a little thought upon them to determine what it means to the United States to have acquired so much gold in so short a time and to possess so large a share of the world's holdings of so highly esteemed and useful a metal. Our recent ability to draw gold from Europe and Australia was in a considerable measure the result of good harvests here, simultaneously with bad harvests elsewhere, and also to the fact that we have been small importers, and large exporters of manufactures produced under a necessity to provide an outlet for them owing to the shrinkage of the home demand. We thus built up large credits abroad to be drawn upon as soon as the requirements of money, from too many causes to be explained just now, made it necessary. It is probable that under the continuation of export business, and because money has all along brought higher rates in Europe than here, that these credits are not yet exhausted, but that some remain either to meet an adverse balance against us, if one should be created, or to be called home if money should become in such great demand here as to make its use more profitable on this side of the Atlantic than on the other. Consequently so far as the movements of gold will affect us, our position seems to be a very good one. Regarding the more general question, the advantage of having a large store of gold, the acknowledged fact that all modern commerce asd credit are finally based on gold answers that. If our figures are correct, the gold holdings of this country will amount, on January 1st of next year, to more than $900,000,000—a figure that will be raised, or lowered according to whether we import or export the metal, and of the latter, as we have seen, there is little probability. These stores of gold will be found partly in the treasury—but $300,000,000 will probably be a generous estimate of what will be held there—in the banks and in private hands; the last, however, hold but a small proportion. With $600,000,000 in gold as a foundation for commercial development, protected by the unlikelihood of an export movement, and $300,000,000 to protect note and the currency issues, the position of the country, so far as its gold reserves are concerned, must be considered to be in the highest degree satisfactory.

ASSESSED VALUATIONS OF THE BOROUGHS.

The assessed valuations of the several boroughs in the City of New York are given in the table below to help to an understanding of the work the Tax Department has to do in meeting the requirement of the charter that tax valuations shall be equalized throughout the consolidated city and of which an explanation is given in the editorial columns of this issue. The ratios of assessed to actual real estate valuations and the tax rates at which collection was last made are also given. The amount to be raised by taxation next year is about $86,500,000.

NEW RIVERSIDE DRIVE MANSIONS.

Two handsome and complete residences have just been added to the architectural attractions of the Riverside Drive by the well-known builder, Alexander Walker. These are Nos. 414 and 415 on the Drive, whose exterior features are portrayed by the accompanying illustration.

The location, near 114th street, is admirably chosen to secure all the advantages of residence on the Drive. It is near Columbia College, and commands extensive and charming views of the Hudson River, the Palisades, and Grant's Tomb. The houses are an improvement on the American basement style, with fronts of French Renaissance design, executed in blue Indiana limestone, with which a very good effect is produced.

Interiorally they are spacious and well-designed, and contain all the fittings, finish and arrangement necessary to convenient and comfortable living. A feature that ought to receive special praise, is the bays running up four stories, which afford the finest opportunities of enjoying the outside prospect from the house. From cellar to kitchen the arranagements are all first-class; the plumbing is of the latest, and comprises all the improvements suggested by recent scientific research. The houses are heated by direct and indirect steam. The service for the laundry, kitchen and butler's pantry is perfected for a considerable establishment, a warming closet in the latter and a glass-lined refrigerator there, as well as near the kitchen, being illustrations of the care exercised in providing complete and luxurious furnishings.

An ingenious floor plan provides a handsome entrance, reception room, foyer, dining-room, with butler's pantry attached, drawing-room, library, bedrooms, connected and separate bathrooms, separated servants' quarters, linen and store closets. etc. The finish of the various rooms is in selected hardwoods of rich quality, among them being Mexican mahogany, quartered oak, curly birch, bird's-eye maple, and sycamore. The entrance and parlor are in Mexican mahogany, the foyer in quartered oak, and the dining-room in English oak. The effects are the best that can be produced with these valuable woods. The other woods mentioned are dispersed through the bedrooms. The latter have dressing-saloon connections, supplemented by large clothes' closets, small and large mirrors, washbowls, etc.

The bathrooms, of which there are four, are all tiled and fitted with nickel-plated exposed plumbing; elaborate needle and shower baths are also supplied. A servants' stairway connects with the second story, and a servants' reception room and bicycle-room are placed in the basement. The houses are wired for electric light. The dimensions of the houses are each 25x65, with 12x16 butler's pantry and bathroom extension, on lots 97 feet deep.

NOS. 414 AND 415 RIVERSIDE DRIVE.
Alexander Walker, Owner.

The foregoing are only the most prominent features in two excellent houses that will bear the most thorough inspection, one of which, No. 415, is for sale at a moderate price, and on easy terms. No. 414 is occupied by Mr. Walker as his home. He is President of the Colonial Bank.

STATEN SLAND

Attention has been called to the activity in suburban real estate in Bronx and Brooklyn, which is, indeed, a characteristic feature of the market at the present time. The activity is probably not less marked in Richmond—that is, Staten Island. In the absence of statistics on which to base an opinion, an interview has been had with Mr. Cornelius G. Kolff, Secretary of the Staten Island Chamber of Commerce, who summarized the salient facts affecting Richmond real estate as follows:

"The industrial development of Staten Island has been very marked during several years past. For example, the Burlee Dry Dock and Shipbuilding Works at Port Richmond have in three years increased the number of their employees from 50 to 450. Similar reports of expansion come from all parts of the borough; there are now fifty industrial establishments employing upward of nine thousand hands. This industrial development has been accompanied by a rapid increase in population. In the list of Counties in New York State Richmond ranks fifth in the percentage of increase of population. The increase is estimated to be over 20,000 in the last eight years, giving the borough a population of 75,000 to-day.

The development of transportation facilities has been an important factor in the progress of the borough; particularly the recent construction of over 50 miles of electric road. Until 1895 the Rapid Transit Railroad, extending from South Beach, on the South Shore, to Port Richmond and Arlington, on the North Shore, and from St. George's to Tottenville, was the only means of transportation on the island. But since the construction of the Midland Trolley and the Staten Island Electric Railroad, nearly all parts of the island have been made accessible, resulting in a very rapid development, particularly along the lines of the new trolley systems.

The building activity and real estate development in the borough is especially marked in the case of mercantile property along the shore, at Port Richmond and West New Brighton, on the North Shore, and at Stapleton and Clifton, on the South Shore. Equally marked is the development of acre property in the interior. The establishment of a five-cent ferry fare from the Battery to St. George's has created a good demand for residence property within walking distance of the landing. As the passenger and team traffic is centred at the St. George's ferry landing, from where the electric roads and the steam cars, as well as the system of macadam roads radiate to all parts of the borough, investors have been quick to appreciate the future of this part of the island, and the price of building lots in this district has rapidly advanced from $1,000 per lot to $2,000 and $2,500 per lot.

The contemplated improvement of the water front by the municipality has given an impetus to the market for this class of property. Several valuable parcels have recently been purchased by Congressman-elect Nicholas Muller and others. Among recent investors in acre property for subdivision into building lots are Mr. Amazi L. Barber, the well-known asphalt man; Mr. Frank J. Nettleton, of Los Angeles, California; Mr. Alexander C. Watkins, of Pittsburg, Pa., and other well-known capitalists.

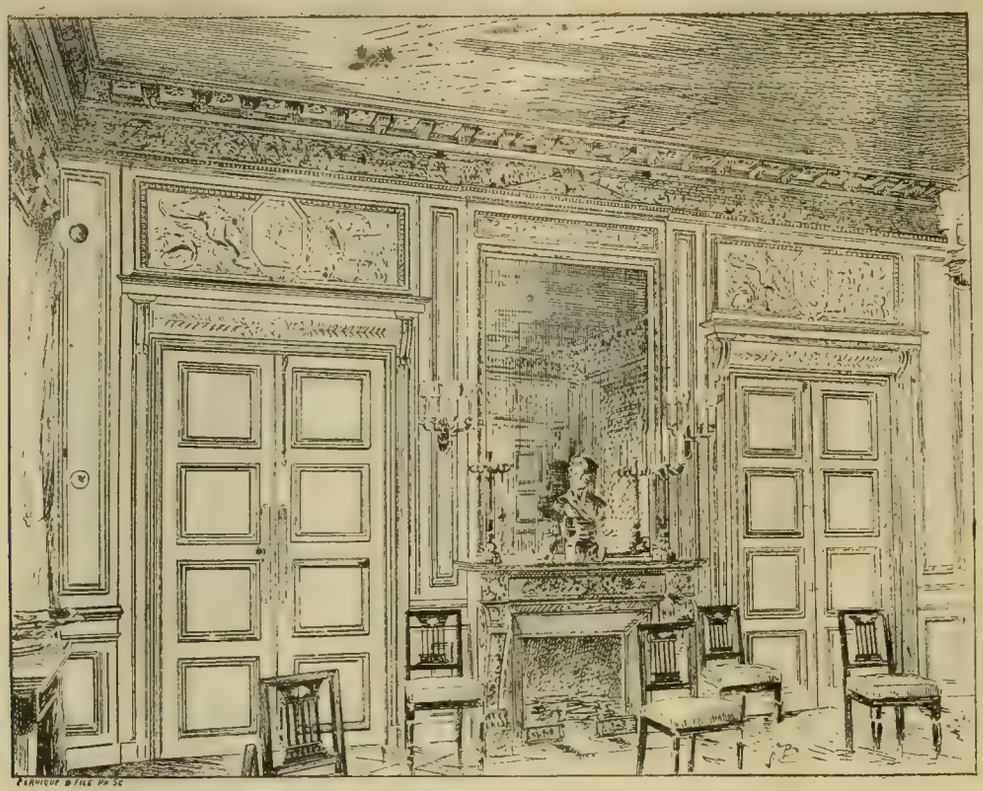
A circumstance which is adding materially to the growth and development of the borough is the greater ease with which loans on real estate are obtainable since the Greater New York Charter went into effect. Trust funds, which can be loaned on New York City real estate only, are now available for loans on Staten Island property. The prevailing rate of interest is 6%; within the last few months a number of loans have been made at 5% and 5½%. Up to January 1, 1898, no public records have been kept of building operations in Richmond, and the records since that time have not as yet been compiled. But it is safe to say that the building activity since consolidation has been greater than during any similar previous period. Another important advantage derived from consolidation will be a decided reduction in the tax rate, which means a saving of from two to three and four per cent.

CORRESPONDENCE.

LEAKY BRIDGE PAVING.

To the Editor of THE RECORD AND GUIDE:

Dear Sir—As an evidence that the expensive patent pavement of granite block with gravel between seams, then filled in with asphalt and laid on cement foundation, is not impervious to water, but on the contrary that the water leaks through it as through a sieve, you are cordially invited to stand under the north approach to the new bridge over the Harlem River at 3d avenue on any rainy day and take a shower bath. The water even leaks through the side walls of solid masonry.



Seams should have been filled in with hot asphalt first and then hot gravel.

Respectfully,

P. R.

BUILDERS' WOODS.

The lumber market, disorganized last spring and summer by the late war, has only now got into fairly good shape again. In the interval there have arisen local and other influences affecting the supply that will prevent resumption of operations at the exact point of interruption, and which are important and interesting as bearing on the immediate future of the market. For instance, lumber business of the Gulf ports continues to be very dull. Naturally these ports felt the early effects of the war severely; but, in addition, for the past two months the cutting sections have been flooded so that many mills have been compelled to close down. These conditions are being remedied by the introduction of surface drains. In addition to this, the heavy storms along the coast in the region of the shipping points have greatly damaged the piled stock on docks as well as the cargoes ready for shipment. The quarantine restrictions against yellow fever have also interfered with shipments, so that it is not surprising that dullness prevails at Fernandina, Ship Island, Pensacola and Mobile. As to white pine, the export demand on river business has not been satisfactory, the Argentines, which are usually large buyers, having been threatened with war with Chili; now that danger of that war is averted, trade should improve. North Carolina dealers feel so confident of the future that they have recently raised the prices on certain sizes of their specialties, being led thereto by an improvement of the export demand.

Spruce, one of the largest commodities in domestic and foreign business, has of late years been, and still is, affected by the development of the West Virginia section, which produces a large quantity of excellent quality. The footage of spruce consumed yearly in the metropolitan district of New York is 300,000,000, of which 200,000,000 comes from East and the rest from West Virginia and the Adirondack region. During July and August, the months of depression, random cargoes from the East, consisting of the yield of the log, in whatever sizes then produced, were sold on the market at nearly the buyers' prices, which were lower than they had been for years. There being very little demand, and cargoes, which consisted of small size timber, were being consigned on sale and subject to port and vessel charges. These conditions were so prevalent that a number of large operators throughout the East closed down their mills, preferring to remain idle rather than accept prices that prevailed then for the finished product. The conditions are now somewhat improved, and desirable widths and lengths are bringing their value. The stumpage supply in West Virginia is apparently unlimited, reaching from the upper waters of the Cheat River in Virginia along the high altitudes of the Alleghanies, covering the whole length as far south as Georgia. This vast area is absolutely out of the market on account of the lack of railroad or any other shipping facilities. The present cutting section is limited to the few mills in and along the line of the Central Virginia Railroad, the central point of distribution being the town of Davis, the seat of Tucker County. The output from this section is subject to the peculiar condition of being in the hands of three firms, who agree among themselves to sell their stock at reasonable prices, with no deviation whatever. The lumber is large and long, and the railroad facilities being excellent, prompt deliveries are effected, the average time for ordinary blocks of timber being 10 days to points on tide water. Prevailing prices on long sizes are about equal to those of similar sizes on schedule sawn from these in the East. An advance on the part of Virginia operators by reason of quick deliveries is probable. Long sizes in lengths and widths will be advanced in West Virginia, the manufacturers feeling justified in making an advance, and there is little possibility of interference, since the Eastern mills confine their operations to the spring and summer months, or the season of water transportation. Probably as much comes from the Adirondack region as from West Virginia, but is mostly in 1 and 2x9 sizes.

For some unknown reason commercial hardwoods include bass and poplar, which are more properly soft lumber. The latter is an article of universal consumption. Conventional names of hardwoods do not convey exact facts, many of the regions from which they were taken having ceased to be timber districts and gone into farming. What is known commercially as Ohio ash and oak and commonly sold in the trade as such, means those grades that approximate to the lumber originally sawn in that State, and which has never been equalled since. The best quartered oak in the world to-day is from the delta lands of Upper Mississippi, and approaches the old Ohio standard for texture and color. West Virginia oak is not equal in texture, color and general quality to that grown in Arkansas and the Mississippi region, and is only used for poorer grades of trim; the better qualities are utilized for finer grades of trim and for furniture. The quality of ash from this region is good, and probably equal to any eastern (Memphis) ash. Arkansas produces a very desirable article, slightly inferior to that produced on the eastern side of the Mississippi River, and which is taking the place of the old Ohio ash. This is known as "cane ash," and is produced in great quantities, the city of Memphis being considered the centre of distribution for that territory. Quite a large foreign demand is supplied by water transportation to New Orleans, from whence it goes by steam vessels. The market for poplar is excellent and it is being used extensively for nearly all the purposes of building except doors and sash, which are, for the greater part, of white pine. One of the singular facts concerning the value of this wood is, that in 30 years there has been no diminution in price in the leading first class manufacture of stock of more than $1 per 1,000 ft., the price being from $28 to $31. The greatest demand for this wood comes from what is called the "Central Traffic Belt," comprising the region around the larger manufacturing towns of Ohio, Indiana and Illinois, and this has made the demand for the lower grades in the East what it never was before this time. Therefore, the better grades of poplar show no material advance, but the middle and lower grades bring a slight advance over last year's prices.

Quartered oak and ash are leading staple articles, and both show a marked tendency to advance in price. This is especially so in reference to oak, because the sections producing first class stock in color and quality are limited. The conditions are also especially marked in the case of ash, for the reason that experiments with elm, which for the past three or four years has been sold and manufactured as ash, have not resulted satisfactorily. Prices of plain oak have moved sympathetically with those of quartered stock. Consumers have found that plain oak in many instances will serve as well as quartered, and at much less cost. An advance is particularly noticeable in prices of lower grades of what is known as cutting stock. One of the first reasons for this advance is the great German demand for parquetry strips. Strips are made of small pieces in widths and lengths as low as 1x1x12 inches, and this constitutes a very considerable output. Ash is good property and has a tendency to increase and advance. Cherry is practically out of the market, mahogany and black birch or sweet gum from the South, at less price, are taking its place. Bass wood is in limited supply and large demand. There is a good demand for hardwoods in general, and it will probably increase as the good grades of wood die out, for these cannot be replaced. Cypress and sweet gum, or satin walnut, as it is called abroad where there is a considerable market for it, are both possessed of intrinsic merit, and are woods of great beauty. Another wood deserving of more extensive use is what is known as Tubulo, or paddle-wood, for which great virtues are claimed. These virtues are: That it grows in large quantities and is spotlessly white; it is as soft as poplar, but can be given a very hard finish; it is well adapted to cabinet work of all kinds and makes excellent trim, and it can be turned with very satisfactory results, having a texture as fine as boxwood, without approaching it in hardness.

Cypress is in growing demand and just now is in limited supply. The best cypress is cut in Mississippi and Louisiana and shipped from the Gulf ports.

OBITUARY.

HENRY V. MEAD.

Henry V. Mead, the senior member of the real estate brokerage and agency firm, Henry V. Mead & Co., of No. 422 8th avenue, died on Tuesday last at his residence, No. 342 West 29th street, aged 72 years. The funeral services took place on Thursday evening, and the interment yesterday, at Pompton, N. J. The late Mr. Mead was one of the oldest and most respected members of the real estate business in this city. He had a large connection, built by personal ability and a long period of honest, conscientious work. He established the firm in 1859 and had associated with him his two sons-in-law, L. P. Van Riper and W. H. Smith, who will continue the business at the address given.

DORE LYON.

Dore Lyon, whose name was familiar in the list of speculative builders until a few years ago, died early this week at his home, "Lyoncourt," Westchester, aged 57 years. Originally in the wine business, he took up land speculation, like many others, as a second issue, but finally turned to it and building for the serious occupation of his life. He was prominent in the West Side movement, but while participating largely in its successes, did not avoid all its vicissitudes so well as others did. His operations extended all over the West Side and it is stated that in his time he built about 600 houses in this city. He failed four years ago, in the dull times that followed the panic of 1893, and since then little or nothing has been seen of him in the realty world. Prior to his death he underwent a long sickness, having been confined to his bed since September, suffering from Bright's disease, which was the producer of the final catastrophe.

TRADE NOTES.

NEW DWELLINGS ON CATHEDRAL HEIGHTS.

Builder David T. Kennedy is completing five new houses of the American basement type on the south side of 114th street, between Amsterdam avenue and the Boulevard. The fronts of four of the group are of light colored brick and the fifth is of red brick and imparts a look of warmth to its neighbors. They are of uniform width, 20x52 feet in depth and are honestly built and well planned.

PLASTERING.

Carucci Bros. (Tony and Frederick), plain and ornamental plasterers, are active and careful workers, and repeated orders from the same builders give evidence of satisfactory work. They are now plastering three flats on West 24th and 25th streets for P. Herter & Son and have completed or under way four houses on West 138th street for Wm. Hall; three on East 107th street for C. Haft; four on the southeast corner of 1st avenue and 106th

street for Arthur Gorsch; three on East 3d tsreet for Isaacs & Jacobson and two on the corner of Madison avenue and 129th street for F. W. Gilbert. Carucci Bros.' office is at No. 333 and 335 East 114th street. Telephone call, 617 Harlem.

The Real Estate Market

Real Estate Market

Owing to the interruption occasioned by the election the business transacted in the private sales' market this week was effected chiefly on Thursday and Friday. The business of these two days was very satisfactory, indeed, both in respect of quantity and character. In addition to the activity in speculative property and in residential housing, which has been the feature of the past summer, the market has this week developed a demand for mercantile property. The sale of No. 601 Broadway, a 5-story business building, which will be replaced by an 8-story structure; No. 174 Wooster street and No. 221 Wooster street gives tangible promise of a revival of activity in down-town investment properties.

The auction market this week calls for very little comment. Two sales scheduled for Monday were adjourned. On Wednesday one sale took place, and on Friday two. Thursday, in fact, was the only day on which any pretense to business was made. Perhaps the most interesting sale was that, in partition, by William M. Ryan, of a plot of fifty-one and a-half lots on the East River, extending from 3d to 4th street, in which the bids mounted rapidly from $75,000 to $225,100. The competition, though chiefly confined to the parties in interest, was participated in by several East Side operators. The final bid came from the defendants, who were subsequently offered $5,000 for their contract, by Chauncey S. Truax. The sale of eight dwellings on 162d street, near 11th avenue, William M. Ryan, auctioneer, was held to clear title, and the properties were bought in by a party in interest. No. 225 Delancey street, a 4-story brick tenement with stores, John T. Boyd, auctioneer, sold at a high figure to Mandelbaum & Lewine, illustrating afresh the predilection of professional operators for East Side property suitable for reimprovement. There were no withdrawals or adjournments to dates beyond the coming week.

Bryan L. Kennelly, as announced in our business pages, will sell, on Wednesday, November 23, by order of the executrix of the estate of Charles B. Cornell, the following properties: No. 450 3d avenue, and Nos. 163 and 165 East 31st street, a valuable corner lot with 5-story brick store and flat facing 3d avenue, and a similar building on 31st street; No. 96 Lexington avenue, near 27th street, a 3-story high-stoop brick dwelling; No. 240 East 21st street, a 3-story and cellar brick private dwelling; a 5-story and basement brick and stone building on the northwest corner of Central Park West and 97th street; and No. 243 3d avenue and No. 202 East 20th street, a corner lot with two 4-story brick buildings. The attorney for the executrix is Henry B. Wesselman, No. 150 Broadway. On the same day Mr. Kennelly will sell Nos. 80 to 86 Carmine street, four 2½-story brick buildings with stores in two of them. These sales comprise some choice parcels, and will, no doubt, prove more attractive to investors, pure and simple, than most auctions held recently. For maps and particulars apply at the office of the auctioneer, No. 66 Liberty street.

Wm. M. Ryan gives notice in our business pages of the most important auction sale that has been announced this season. This sale is by order of Frederic R. Coudert, as trustee, etc., and the bill comprises an extensive list of investments, dwellings, building lots, acreage and water fronts, distributed over the boroughs of Manhattan and the Bronx. The locations, characters, dimensions, etc., of the various parcels will be found in the notice of the sale previously referred to and additional particulars can be had of Coudert Bros., attorneys, No. 100 Broadway, and of the auctioneer at No. 111 Broadway. The sale will take place on Thursday next, 17th inst., and will undoubtedly be the auction event of the week and the season so far. The announcement is particularly recommended to the attention of those contemplating invsetment or speculative purchases of realty.

Richard V. Harnett & Co. announce, in our business pages, the executor's sale, with guarantee of title, of six lots on Ogden and Nelson avenues, which will take place on Tuesday next. Four of the lots form a plot about 50x110 and 114 running between the two avenues. Particulars can be had of William H. Willits, attorney, No. 29 Wall street, and of the auctioneers at Nos. 71 and 73 Liberty street.

The Petty, Soulard & Walker Realty Co., No. 156 Broadway, have for sale at bargain prices, a number of new flats in the Borough of the Bronx. They are located contiguous to 3d avenue, east and west thereof, and close to "L" stations. Two corners are included and some contain stores. They are four and five stories high and are arranged mainly for two families per floor. The figures range from $15,000 to $35,000, and as they are well tenanted they will prove good investment parcels.

REAL ESTATE NOTES.

It is reported that negotiations are very nearly completed for the sale of a vacant corner on 5th avenue, opposite the Park, involving over $200,000.

Adams Brothers were the buyers, at about $92,000, of No. 217 West 42d street, mentioned in our last issue. Charles H. Easton & Co. were the brokers.

The New York and Hoboken Ferry Company was incorporated on Thursday, at Trenton, N. J., with a capital of $3,300,000. It is understood that an uptown slip will be built.

The directors of the Bond & Mortgage Guarantee Co., No. 175 Remsen street, Brooklyn, have declared the usual quarterly dididend of 1½ per cent., as will be seen by the announcement in our business pages.

It is reported that Joseph L. Buttenweiser has traded the 10-story, 25.3x100, building, No. 530 Broadway, northeast corner of Spring street. The value put upon it in the trade is reported to be about $400,000.

Lewis S. Marx, the owner of No. 332 1st avenue, reported sold last week at $15,000, informs us that there is no truth whatever in the report. From inquiries made it appears that endeavors are being made to purchase this and adjoining properties, and the suspicion arises that the unfounded report of the sale of last week may have been put out to influence prices on other parcels.

The Receiver of Taxes gives notice to all persons whose taxes in the Boroughs of Manhattan and The Bronx for the year 1898 remained unpaid on the 1st day of November, that unless the same shall be paid to him at his offices, No. 57 Chambers street, in the Borough of Manhattan, and at 3d avenue and 177th street, in the Borough of The Bronx, respectively, on or before the 1st day of December, he will charge, receive and collect upon such taxes so remaining unpaid on that day, in addition to the amount of such taxes, 1 per centum on the amount thereof, as provided by section 916 of the Greater New York Charter (chapter 378, Laws of 1897).

Real estate agents on the East Side report a favorable condition in the renting market for stores and tenements on 1st and 2d avenues. A recent canvass disclosed only thirteen vacant stores on 1st avenue in the twenty-seven blocks from 59th street to 86th street. No count was made of the vacancies in the corresponding section of 2d avenue. However, the number is apparently inconsiderable here also. In fact, the only avenue on the East Side which appears unprosperous is 3d avenue, and the unsatisfactory condition of this thoroughfare is undoubtedly due to the recent introduction of the cable in Lexington avenue and of the trolley in Madison and 2d avenues, which has deprived 3d avenue of the advantage of possessing the only system of modern surface transportation on the East Side.

It is reported that extensive plans have been made for the development of the Union Trolley Company's lines in the Bronx, which will not only give additional transit facilities in outlying portions of the district, but will reduce the fare from Yonkers to Harlem. About two weeks ago a new trolley line was opened for traffic between King's Bridge and Yonkers. This line will be connected with the present High Bridge line by tracks laid along Sedgwick avenue, and then through cars can be run from Harlem Bridge to Yonkers. Another important branch of the system now in course of construction runs between Mount Vernon, Pelham and New Rochelle. Arrangements have also been completed for the laying of a double track from West Farms along

the West Farms road to Morris Park, and then along Morris Park avenue to Bronxdale. In addition to this, it is the intention of the company, as soon as the bridge over West Farms Creek is completed, to connect the Unionport line with the Westchester and Boulevard lines, and on this road cars will be run on the loop system—that is, they will go over the present line through Westchester and Unionport, and down over the new line to Harlem Bridge.

CONCERNING REAL ESTATE AGENTS AND BROKERS.

J. F. Perring has entered the ranks of the realty workers and opened a well-located office at No. 948 Boulevard, between 106th and 107th streets. He has an extensive acquaintance with builders and owners, and will give careful attention to all matters entrusted to him. Buying, selling, exchanging, renting and collecting rents, and the placing of mortgage loans will all be looked after by Mr. Perring. His telephone call is 501 Columbus.

The Building Trades

MATERIAL MARKET.

BRICK.—Arrivals and sales were about equal this week. Nearly all that is coming is more or less mixed with rough brick. Values are about as stated last week. Some little concessions have been made on very inferior lots. On the other hand specials have sold at an advance of 25 cents per 1,000, so that the present range is from $5.25 to $6.25. Pales are very active and are selling in advance of arrival at $4.00. The number of brick left over this week was smaller than it was a week ago. Manufacture of brick on the Hudson has stopped for the season. New Jersey are in quick demand with the inquiry in excess of the supply. Stocks are being held. Prices are about $6.00. Owing to a typographical error Pale brick were said to be in "quiet" demand last week. They were in quick demand at $4.00.

OIL.—Prices are firm at 37c. for 5-barrel lots of raw oil and 38c. for smaller quantities. Out of town oil is pretty well up to city. Spot oil is not accumulating and business is mostly in oil for current uses together with deliveries on old orders. Boiled oil is selling at 39c. and 40c. and Calcutta is firm at 54c.

NAILS.—The two mills that have been outside of the association of Eastern cut nail manufacturers for the past month have signed for the present month. At the meeting held last week prices on cut nails were fixed at $1.25 for base, carload lots dock New York which is about on a basis of $1.10 for base f. o. b. Pittsburg. Small lots New York stores $1.35 for base. Prices on wire nails, carload lots, f. o. b. Pittsburg, $1.35 for base, small lots New York stores range in price from $1.55 to $1.60 for base. The demand continues quiet for both cut and wire nails.

LEAD.—Prices are firm at last weeks' quotations. Business is seasonably very good and the indications are that trade will continue active until the end of the season.

PAINTS.—Business is good for this time of year and prices are unchanged with the exception of English Vermillion, which is selling for 62c. and Dry French Zinc at 7 and 8¼c.

GLASS.—As a result of the increased output of the American window glass manufacturers as noted last week, the assortment is now complete. Trade is active and prices are firm at 80 for Plate, 80 and 20 for French window and 80 and 10 for American window.

NAVAL STORES.—The market for spirits of turpentine was quiet and featureless, business being confined to jobbing trade. Large buyers are holding off and stocks are light and well controlled. The Southern market is steady. The market closed quiet at 36½c. for Southerns and 37c. for machines. Tar is moving slowly with no new features and values about steady. Regulars are selling at $1.80 and $1.85; oil barrels $3.70 and $3.75. Pitch was neglected at $1.60 and $1.65.

LUMBER.—The wholesale market for lumber has improved very much. Prices have advanced and the stocks in the West and South are small; in fact there are no large stocks anywhere. This condition together with the advance on freights from the North and South is the cause of the higher prices prevailing throughout the market. The difficulties that have arisen from the floods in the South and the quarentine restrictions at the Gulf ports are gradually disappearing. Most of the North Carolina mills have orders enough to keep them going for the next sixty days and it may be safely said that the North Carolina market has never been better since 1892. There is an excellent demand for White Pine. A Government order was placed last Monday for 2,000,000 feet and another contract will be let sometime next week for 17,000,000 feet. Yellow Pine is in good demand with advanced prices. Spruce is holding its own and there is not much stock at present coming from up the State or from Canada.

HARDWOOD.—There is a fairly good demand for hardwoods and prices are stiff and, in some instances, they are higher than they have been for some time. Ash is selling well at considerably advanced prices. 1 in. is selling at $37.00; 1¼ in. and 1½ in. at $38.40; 2 in. at $42.00, and 2½, 3 and 4 in. at $48.00. Quartered and Plain Oak are in fair demand at advanced prices. Cypress is in slightly improved demand with prices about the same as last reported. Poplar is in very good demand and prices are firm at $31.00 basis for 1's and 2's.

LIME.—About nine cargoes of Rockland came in this week and all were sold. The quality runs first rate and never was better. Manufacturers are taking great care as to the quality of stock and the condition of barrels. Prices in this market are likely to advance. Sales have been very good at 65c. and 75c. State lime is in good demand at 65c. and 70c. for common and 90c. for Jointa. There is little here and not much on the way.

CEMENT.—Shipments of Portland both domestic and imported, are being absorbed as rapidly as they arrive and the demand is still in excess of the supply. Rosendale is in very good demand; the inquiry has increased considerably during the past two weeks and stock is finding a ready market. The demand will very probably continue to increase up to the end of the season from the fact that dealers are taking advantage of the present low price to lay the stocks for winter and spring use before rail rates prevail. Prices range from 65c. to 75c.

Lath.—About 6,000,000 arrived this week and were all sold at $1.75. There are none here and few on the way. The demand is seasonably excellent.

Pollard & Steinam, No. 19 Union square, were the successful architects in the competition for the Sanitarium for Hebrew Children at Rockaway, L. I. The present building will be altered, and several new buildings constructed. The cost of the operation is estimated at $10,000.

John H. Shipway was elected President of the Marble Industry Employers' Association on Monday evening last. The association includes all the manufacturers and wholesale dealers in marble in Greater New York and the position of its president is therefore one of responsibility and honor.

William Bryan has filed a voluntary petition in bankruptcy with liabilities of $138,000 and no assets. About $105,000 are claims against him jointly with others arising out of the erection of the Syndicate building at Nassau and Liberty streets, which property was sold under foreclosure.

The Department of Justice has held that the absence of the rules of Court which Congress provided should be framed by the Supreme Court, will not materially affect the enforcement of the bankruptcy law; that they are not absolutely essential to the execution of the act, and that there is no need to wait for the Supreme Court rules.

The Paint, Oil and Varnish Club of this city held its sixty-third dinner and meeting Thursday night in the Down-Town Association's headquarters, 60 Pine street. Some forty members attended, including Runyon Pyatt, the President, who was in the chair; W. B. Templeton, Secretary and Treasurer; William E. Lucas, A. B. Rogers, J. L. de Fremery, and Major A. B. Garner.

A Pittsburg press despatch states that the new tin plate trust has practically been formed. Manufacturers representing forty plants and several jobbers are conducting the negotiations. The trust is to be a corporation chartered under the laws of New Jersey, with a nominal capital of $30,000,000, representing the interests of the consolidating mills and provisions for improvements in plant, etc.

A movemenf has been started to stop the cut-throat warfare between the Board of Walking Delegates and the Building Trades Council by amalgamating the two bodies under a new name. A letter has been received by the Building Trades' Council from one of the large contractors suggesting that committees of the board and council meet and try to come to an understanding on the matter.

We have been informed by several people supplying material for buildings that a young man representing himself as Mr. Bagge has called and borrowed money on our account. We wish to inform the building trades we do not borrow money and we request them not to lend any on our account. Neville & Bagge.

Questions and Answers

FLAG POLE CUT DOWN.

To the Editor of THE RECORD AND GUIDE:

A, owner, leased store to B. B leased same store to C. C gave order to City to cut down flag pole in sidewalk which was neither obstruction nor encumbrance. Said pole was 40 feet high and was considered an ornament and enhanced the value of property. A, the owner, was not notified by City to remove pole. Now, has A, the owner, a case against City, and if so, to what extent?

Answer.—No.—Law Editor.

HEIGHT OF FIREPROOF APARTMENT HOUSES.

To the Editor of THE RECORD AND GUIDE:

How high may a fireproof flat be built; and how does the width of the street affect it?

Answer.—The height of such buildings is restricted to 150 feet upon all streets and avenues exceeding 79 feet in width, and to 100 feet upon all streets and avenues not exceeding 79 feet in width. Such heights are measured from the sidewalk line and taken in all cases through the centre of the facade of the house to be erected, including attics, and mansards. See also article "The Height For Iron-Fireproof Apartment Houses," in Record and Guide of August 6th, 1898.—Editor Record and Guide.

HOUSE NUMBERS.

To the Editor of THE RECORD AND GUIDE:

In the block of West 114th street, north side, between Madison and 5th avenues, the houses are so numbered as to have two numbers "13" and also two numbered "19." Great inconvenience and confusion arises, especially in the two "19s," which have twice changed owners, and they seem to be indifferent to have the correct lettering done. What course should be pursued to compel owners to change to right numbers of each house, or to what department of the city should application be made to obtain right and proper numbering?

Answer.—Address your complaint and petition for redress to the Municipal Assembly.—Editor Record and Guide.

LEASE WITH OPTION OF RENEWAL.

To the Editor of THE RECORD AND GUIDE:

If a lease reads five years with a privilege of five years more, is such a lease as good or as safe as one that reads ten years?

Answer.—A lease for five years with the option to the tenant of a five-years' renewal, is more to his advantage than a ten-year lease. He can exercise his option or not, and if he exercises his option the landlord is bound for the full ten years.

LAWYER'S FEES.

To the Editor of THE RECORD AND GUIDE:

Can a lawyer charge any amount he likes for searching title for a piece of property?

Answer.—He can charge any amount he likes, but collecting is another matter. The usual charge is one per cent on the valuation of the property, besides disbursements.—Law Editor.

COMMISSIONS.

To the Editor of THE RECORD AND GUIDE:

A gives to B, a broker, a piece of property for sale. The street number was given and the dimensions. B submits same to C and an agreement is reached as to price, amount and time of mortgage, etc. C's attorney submits a contract in which the description is taken from a copy of a deed in an abstract of A's. The contract is sent to A's attorney, who draws another substantially the same. The same description is used, with the following added thereto: "subject to any restrictions contained in old deed, and subject to any encroachments of adjoining premises on said premises or of any encroachment of said premises on adjoining premises." C's attorney refuses to accept, and A's attorney refuses to modify the contract, claiming that A's title is of inheritance, and that A does not know what her title is. C is still willing to purchase. B claims that he has brought a purchaser able and willing to buy, but that A refuses to contract to give good title. Is B entitled to commission?

Answer.—I think he is.—Law Editor.

To the Editor of THE RECORD AND GUIDE:

Having charge of property which has been taken out of my hands as agent, for which final statement has been rendered, and in which commission has been charged for unexpired terms of tenants, with whom agreements had been made for yearly term, subject to five days' notice to quit by either party. Owner declines to pay said commissions, claiming that as the leases are optional, they are, as a matter of fact, not binding on either party. Under the circumstances, am I entitled to the commissions as stated. The leases were made so as to conform to the Revenue law, so as to control terms of tenants and to obviate the necessity of stamping each monthly receipt as required by law.

Answer.—You are entitled to your commissions—Law Editor.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. appear, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed omitting all covenants and warranties.

2d—C. a. G. means a deed containing Covenant against Grantor's acts, in which he covenants that no one has a better title than the grantee, and only asserts that the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, which, although the seller makes no express covenants, he usually grants or conveys the property for a valuable consideration, and thereby asserts that he is the owner of it. The words "grant, bargain and sell" are generally used in this form of deed. Mortgages given to the Insurance Companies for loans invested in the bonds, which they are required by law to hold, do not appear, as the mortgages are only owing to trustees for the Companies, and are made [illegible] Works.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

When the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

Mortgages under this head marked with * denote that the property is located in the new Annexed District (Act of 1895).

JUDGMENTS.

In these lists of Judgements the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means jugment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

BUILDINGS PROJECTED.

THE LAWS AFFECTING BUILDING.

There has not been any book on the market containing all the laws and regulations relating to building in New York City; yet the need of such a volume is plain enough, because a building from its foundation to its final demolition is subject not only to the building law, but to special regulations of the building department concerning passenger elevators, fire-escapes, light and ventilation and plumbing. There is also a law limiting the height of dwelling houses and another requiring temporary flooring. There are the tenement house and lodging house laws, laws relating to the extinction and prevention of fires and explosives, and the storing of combustible materials in buildings. Moreover, there are very important fire department regulations which must be observed in the installation of electrical apparatus, and there are, of course, all the regulations of the department of public works concerning Croton water rates and the use of water, the opening and refilling of trenches and restoring of street pavements; in addition to ordinances pertaining to the inspection of steam boilers. The architect, builder, building material man and real estate owner must be familiar with these laws and regulations; if he is not, he suffers. They are now all gathered together (with a directory of architects) for the first time in one volume, illustrated, indexed and supplied for $2.50. Record and Guide, Publishers, 14 and 16 Vesey street.

The first name is that of the owner; ar't stands for architect, m'n for mason, c'r for carpenter and b'r for builder.

When character of roof is not mentioned, it is to be understood that the roof is to be of tin.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur preceded by the name of the grantee they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d—C. a. G. means a deed containing Covenant against grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in the list of Satisfied Judgments.

MURESCO!
It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and give a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.
You may have a color card and full information about Muresco for the asking.

LUMBER.

Appended quotations are based almost wholly upon prices obtained for goods from first hands. Yard rates necessarily range much higher owing to the expenses attending sorting out and grading cargo and even car lots, besides which must be added the cost of handling and carrying until consumers are ready to invest. Terms of sale also prove important factors, and altogether it is impossible to give a line of retail quotations thoroughly reliable in character.

Vol. LXII. NOVEMBER 19, 1898. 1,601

WHAT will Congress do? is the question now asked bearing most directly upon the fortunes of the stock market. Left alone, with money cheap and plentiful, the movement begun a week or so prior to the elections would continue sometime yet. The industrials are active enough to incite speculation and railroad earnings, especially in the Northwest encourage the buying of Granger stocks, notwithstanding the high prices to which most of them have been put. Investment purchases at these prices would hardly be judicious, but where speculative operations are carried on, the manipulator knows all the time he is throwing a ball without knowing exactly where it will come down; he hopes for the best and is willing to take the chances. Bond buying while not so large as it was last week is still quite good and there is still a strong demand for investment issues; the over-subscription of the Southern Pacific 5's the other day fully proved this. Congress generally puts an end to stock market enthusiasm when it meets, though people will never believe that the immediately impending Congress is going to imitate its predecessors, until it has met and disappointed them. According to Mr. Dingley we are to have no revival of tariff discussion in the coming session, which is something to be thankful for, because if there is one thing more disturbing to business in general than another, it is a tariff discussion. Among the measures that will be introduced will be a currency reform bill. The chances for the passage of such a bill are not very clear, but if Congress fails to act upon the question involved it will only leave it where it is now. Some action ought to be taken on the question of pooling by the railroads, but failure in this instance also would not change present conditions. Congress is more likely to spend its strength in discussing the conduct of the late war and the final settlement that may be made with Spain, than in dealing with the currency and other economic questions that ought to have disposition; but, as has been pointed out already, neglect of these in the present condition of business and the spread of confidence, can be endured.

ALONG with the fall in gilt-edged securities in the European markets is a much larger decline in and a neglected condition of speculative issues. In the London market for instance not a few of these that pay dividends, are quoted at figures that show very large returns on the investment in particular cases as much as 20 per cent. Of course nothing that is certain of making so large a return sells at any such figure, but that any that pay it at all should do so, is a remarkable evidence of the lack of public interest in the stock market. Prices of commodities have, on the other hand, distinctly advanced, the London "Economist's" index figure for the end of October being the highest seen since March of last year. Among the details the most pronounced movements have been in iron and steel and metals generally. For sometime until recently little has been heard of the Barnato enterprises. The latest news regarding them is not very favorable. The Johannesburg Consolidated Investment Company, which took in the Barnato Bank three years ago amidst a great blowing of the Barney Barnato trumpet has just passed its dividend and the Consolidated Mines Company, organized also to the accompaniment of similar strains has never made any return to its shareholders. It is easy to see now, who were paying for the music. The French Department of Public Works has issued a circular inviting the railroad companies to have a sufficient number of corridor cars of all three classes ready in 1900 for all fast and long distance trains during the Exposition, to be composed wholly of such cars. These cars are not very plentiful and in some classes do not exist now, so that compliance with the "invitation" means large expenditures for rolling stock. Berlin is reported to have been a buyer of Spanish exteriors this year sufficient to raise its holding from 50 to 200 million pesetas. It is also reported that French money is still being absorbed at Berlin. A number of annual meetings of directors and shareholders of German coal mining, iron and other industrial companies have been held lately. The reports presented at these meetings gave a highly favorable view of the state of the companies in question and in many cases higher dividends were declared. Among the measures in preparation for the coming session of the Reichstag, is a general customs tariff bill. Not much is as yet known about its character, but it is generaly assumed that it will make a considerable advance in duties. It is also stated that the bill will be much more specialized than the existing law, containing more than twice as many items. The Vienna Bourse has benefited by the arrangement with Siemens & Halske for reorganizing the surface transit lines, mentioned last week, shares of the existing companies having boomed, but besides this there is little to report from that centre.

THE owners and managers of the Manhattan Elevated Railroad have now to learn the moral of a deficiency. There was a time when they had the problem of rapid transit in New York City for solution, but they would not undertake the task; now, judging by recent reports of travel on their line, it has been taken out of their hands. During the quarter ended September 30th, they collected 3,000,000 less fares than in the corresponding quarter of 1897. For the year ended on the same day, the total was almost the same as it was for 1889, indicating a serious retrograde movement in the ten years. All this time the controlling interests in the Manhattan Elevated Railroad Company, instead of adapting themselves to the changes of the times, have been stickling for special privileges, that the revelation of the value of carrying franchises in large cities made it utterly impossible to grant. Whether the earlier and commanding position of the company can be retrieved is very doubtful, though, of course its present position may be improved by a more scientific examination of its circumstances than has hitherto been given it. Be that as it may, it is very significent that in the present phase of the rapid transit discussion the elevated railroads are not considered as an important factor. The lively and enterprising surface railroad companies are satisfactorily disposing of the problem as it relates to short distance travel, and public opinion is turning more and more to underground systems as the only way to supply long distance wants. New Yorkers, while they would doubtless prefer overground travel into the northern sections of their city, if they could get it, which has become an apparent impossibility, cannot be blind to what is going on elsewhere. They see for instance a perfect network of railroads connecting important parts being built under the feet of the Londoner and with improved methods of propulsion underground travel made pleasant where it was unpleasant before, because of the use of coal and steam. It is therefore not remarkable if they turn from elevated railroads, which have failed them in this important particular, to underground ones for the realization of their hope of rapid transit to the northerly suburbs and the consequent development of the latter.

WHILE on the subject of city railroads it is as well to point out that the managers of the surface roads, also, sometimes do things that bring them into unpopularity. For instance, the arbitrary way in which the duplicate sets of underground trolley tracks are being forced upon Amsterdam avenue is an outrage upon the owners of abutting property and on the residents of that thoroughfare and its vicinage. There is no reason in the world why the two traction companies that now control surface travel in this ciay, should not do in Amsterdam avenue what they have already agreed to do in Kingsbridge road when lines are laid there, namely, operate jointly over one set of tracks. The property interests that are fighting against the four tracks on Amsterdam avenue have been very badly treated by the traction companies, the Commissioner of Highways, who granted a permit to the Third Avenue Railroad Company to lay the second pair of tracks on the avenue, and by the Mayor, who refused to revoke the permit when asked to do so to enable the complainants to appeal to the courts. The Commissioner and the Mayor were doubtless acting within their privileges, but they ought to understand that in this matter they are exercising the discretion given them by the law against the public for whose protection the powers they possess were created. The Mayor seems to have sympathized with the deputation that waited upon him, because he remarked that he thought four tracks too many for any one avenue, in which remark all disinterested people will agree with him; but it is a great pity that he lacked the courage to live up to this opinion. His defence of himself, that if he revoked the permit of the Third Avenue Railroad Company he ought also to revoke that of the Metropolitan Street Railway Company, only emphasized his weakness and the difficulty he experienced in excusing himself. For a lawyer and one who has sat upon the bench his conduct in this instance was

especially weak and illogical. Perhaps having had time to think over the matter he will have seen this himself and may be in a better frame of mind to act judicially if the delegation makes another appeal to him.

CHANGING CONDITIONS ON EAST SIDE AVENUES.

IT has been the experience of persons, natural and legal, who make a practice of lending money on real estate that, other things being equal, the safest loans are those on property improved with a building devoted partly to mercantile and partly to residential use, inasmuch as the income from such property is less liable to extremes of fluctuation. But the feature that makes a property attractive to lenders also makes the property attractive to holders of the fee. Avenue flats or tenements, which for the most part contain stores, have therefore been considered choice investment properties.

The suggestion has recently been made that the presence of an uncommonly large number of vacant stores and, perhaps also, of apartments on 3d avenue, especially, calls for a modification of the high estimate which obtains in respect of the investment qualities of avenue property. But this estimate, as intimated, is based on years of experience, and should, at any rate, not be discarded until it is shown that the condition which prevails in 3d avenue is general, that is, common to all the avenues, and that it is permanent. Undue publicity has been given to the vacancies in 3d avenue, for the reason that so many downtown business men ride through it daily. One hears comparatively little of the vacancies in 2d avenue. As a matter of fact, there are 73 vacant stores in 2d avenue between 59th and 125th streets, and 74 in 3d avenue. On the other hand, there are only 34 in 1st avenue, while the conversion of dwellings to stores in progress in Lexington avenue bespeaks a normal demand for business quarters in that thoroughfare. Similarly favorable conditions prevail in all the other avenues. Indeed, it is only in 3d and 2d avenues that the number of vacancies is notably large, and here it is only an average of 1 12-100 store to the block. If, now, we look into the matter of distribution of these vacancies, it is found that they are located mostly on the east side of 3d avenue and on the west side of 2d avenue. On the east side of 3d avenue there are 50 vacant stores; on the west side, only 24. On 2d avenue there are 40 on the west side, and 33 on the east.

This marked preponderance of vacancies on the east side of 3d avenue and the west side of 2d avenue is not accidental. It is unquestionably caused by the change which is going on in the character of the population in the streets that lie between the two longitudinal thoroughfares. The houses in most of these streets were nearly all originally flats and private dwellings. Recently the streets between 2d and 3d avenues, as also, of course, the avenues themselves have lost caste owing to the irruption of the rapidly growing tenement house population. The substantial families which formerly occupied the flats and private houses in question have left a neighborhood which has sadly deteriorated socially, and with them has gone the trade that maintained many of the vacant stores in the avenues. The flats and private houses, converted into tenements and cheap boarding houses, undoubtedly, despite many vacancies, contain as large a population as before, but its purchasing power is immensely smaller. Ultimately the relatively smaller buying capacity of the new tenement house population will be compensated for by a relatively greater density. Thus, the vacant stores in 2d avenue have recently been decreasing in number, and the process of absorbtion is said by East Side agents to be very marked. The underground trolley is serving to facilitate the absorbtion by promoting the growth of the tenement house population above 59th street. On the other hand, the vacancies in 3d avenue have been growing more numerous. Third avenue has not only suffered from the removal of the substantial tenants in the side streets on the east, but since the opening of the Lexingon avenue cable in 1895, it has also lost the surface trade of the population to the west.

Third avenue is now in the unfortunate position of constituting the border between two residential districts of differing character, and property in a transition stage is always less immediately profitable than property whose nature is fixed and definite, although its speculative value may be greater than ever. Naturally, as 2d avenue lies first in the path of the advancing tenement house population, the improvement in the demand for store property resulting from a growing density of the population will benefit that avenue before it benefits the more westerly thoroughfare.

COPIES WANTED.

We will pay a liberal price for copies Nos. 253, 618, 619, and 930, of the "Record and Guide," also Index to Vol. 41, delivered at our office in good condition.

DO FLATS PAY?—A NEGATIVE VIEW.

In the issue of the Record and Guide of Nov. 5th the query "Does Flat House Property Pay?" would seem (according to your figures) to be solved beyond a peradventure, and the hitherto despised flats are thus proven such a veritable bonanza, notwithstanding the present supply of 11.6 per cent, beyond the demand, that the inexperienced investor will naturally be tempted to exclaim "Go to, let us borrow money and build more flat-houses," which (although having 11.6 per cent. of vacancies the year round), will still net us from 13.06 to 17.38 per cent. per annum on our equities.

The danger lies in the fact that these figures look so very fair; but are they what they seem? Let us see.

You say "in the foregoing computations the only element of expense which has been omitted, is that of repairs, which is a more or less variable quantity." Quite so; variable, according to the quality of the workmanship and materials used; the more cheap and flimsy, the greater, necessarily, the annual repair bill from natural wear and tear, added to which the un-natural, or accidental wear and tear must be considered. In unheated bathrooms water will freeze, careless tenants frequently allow water to overflow and flood lower ceilings, untrained children will deface and destroy walls, etc., all of which must be made good by the owner before the new tenant will condescend to enter, or pay rent. At least 4 of the 10 suites in each house must be done over each year, averaging $25 each; total, $100.

Plumbers' bills will run from $5 to $10 per month, averaging $90 per annum.

Then there is the necessary carpenter, plastering, exterior painting and roofing work. Also, the window shades, hall carpets, etc., must be renewed at short intervals, averaging at least $150 per annum.

In short, in my experience as owner of these cheap flats, our repair bills ran from $300 to $375 per house, per annum. Again, you fail to include gas in your expenses. The halls and janitor's rooms, which must necessarily be lighted, would average about $40 per house per annum.

Now, let us apply these general rules to your illustrations, and let us see what the outcome will be:

In the first instance, the purchase price is		$23,000.00
Gross rental when fully occupied	$2,088.00	
Less 11.6 per cent. for vacancies	242.20	
		$1,845.80
Interest on mortgage of $17,000 at 5%	$850 00	
Interest on mortgage of 2,700 at 5%	135.00	
Taxes	230 00	
Janitor	120.00	
Water	46 00	
Insurance	15 00	
Gas	40.00	
Total	$1,436.00	
Repairs: Re-decorating	$100 00	
Plumbing	90.00	
Carpenter, painting, plastering, roofing work, shades, hall carpets, etc., averaging	150.00	
	340.00	
		$1,776.00
		$69.80

This gives a net income of 2.11 per cent. on $3,300 equity. In the second case, let us allow nothing whatever for loss by vacancies, and we have the following results:

Price		$20,0 0 0
Gross rental when fully occupied		$1,836.00
To yearly list of fixed charges	$1,140.00	
Add for gas	4 0 0	
Add for repairs	340.00	
		1,520.00
Total		$316.00

Which would be 6.32% on $5,000 equity, with no allowance for vacancies.

The third instance is such a "favorable example" that it is practically a non-such; any person who desires to sell a gross yearly rental of $3,576.00 for $30,000.00 ought to secure a prompt purchaser. Perhaps, however, the buyer might have a like experience with myself, who viewed with a covetous eye a line of leases aggregating over $40,000 on a "flat" property, valued at $400,000, but, alas, when these leases expired ye lessees demanded from 2 to 3 months' deduction (as before), otherwise they refused to renew. This reduced our rent roll from 15 to 20 per cent. The fact of being new and having only one flat vacant looks suspicious. However, let us put this to the same test with first case, and thus see how much should properly be deducted from your 16.81 per cent. on the equity.

Gross income when fully occupied	$3,576.00	
Deduct 11.6% for vacancies	414.8	
		$3,161.20
To your list of fixed charges of	$1,481.0	
Add for gas	40.00	
Add for repairs	360.00	
It is too risky as a rule to have a man wor h only $12 per month to run steam boiler; it is worth $20; add for this $8 per month	96.00	
The taxes instead of $212, will probably be raised to $300; add for this	88 00	
		$2,065.00
This gives net income of 10 96% on $10,000 equity		$1,096.20

Now, we must bear in mind the fact that these percentages of profits are on the equities, which necessarily render the owner's holdings much more precarious than if he were independent of the money lender, but also entail a periodical expense which we have not hitherto taken into account. The mortgage falls due, perhaps, at a critical financial period; then he must pay a bonus to some middle-man either to extend the existing mortgage, or obtain a new loan, the amount of bonus being in exact ratio to

the difficulties of the situation. If he cannot pay this bonus, the hapless owner is compelled to add this wail to the plaintive chorus:

The mortgage was "foreclosed."
I was financially naked, and he took me in.
My cherished equity has vanished.

My object in writing this is to modify the roseate conclusions of your article, artificially so because of your failure to give all the phases of the "flat" question due consideration, and thus demonstrating my claim that even when you select "admittedly favorable examples" the ordinary inside lot 25 feet front flats will not as a rule pay over 4 per cent. on the investment (your article and Dr. Madison Peters' to the contrary, notwithstanding); and why builders continue the foolish practice of building rows of 25-foot flats with a 2½-feet jog on each side for light, with a narrow public hall through the centre, flanked on each side by narrow rooms, thus giving the appearance of three bowling alleys, through the centre of the building, these rooms lighted by a central (boxed in) light shaft, instead of making them from 37.6 to even 50 feet wide, thus giving more, and better-shaped rooms with private halls, and abolishing the ancient practice of opening a living-room on a (boxed in) light shaft, thus by improved conditions obtaining a much better return on investment, is a conundrum that "no fellow can find out."

HUGH LAMB.

NEEDS OF THE CITY

The following brief review of the recent meeting of the Architectural League has been kindly furnished to us by Mr. Horace Moran, who arranged the course of discussion:

The Architectural League of New York held its second regular monthly meeting of the season on Tuesday evening, November 1, at the League rooms.

Mr. Bruce Price, President, in the chair.

This was one of a number of subscription dinners to be held during the winter, and was participated in by members of the American Society of Civil Engineers and the Engineers' Club.

The embellishing of the water fronts of New York and their use as places of recreation was the topic discussed. A number of schemes for structures to be erected over the docks and marginal streets for use as pleasure grounds were both favored and opposed with much earnestness.

Mr. G. S. Morrison, the distinguished bridge engineer, opposed any attempt to evolve a general scheme for improving the docks and their approaches, contending that our Anglo-Saxon character forbade any such overwhelming meeting of problems for the solution of which there is now no crying need.

Mr. O. S. Greene, Jr., ex-chief engineer of city docks, told of the great improvements of our system of docks made during the last three decades and seemed to feel that the question of embellishment should be approached only after careful consideration of the growing requirements of our import trade.

Maj. Hollis Wells, 1st Engineers, U. S. Volunteers, deplored the unsightly appearance of our docks, but confessed the difficulty of undertaking to beautify them.

Prof. Wm. H. Burr, of Columbia University, who was consulted by the city when the Harlem River Speedway was in course of construction, described that important work. Professor Burr anticipated that much would be done to develop the already beautiful water front of the upper part of Manhattan.

Captain Taylor, of the U. S. S. "Indiana," received a warm greeting when he rose to tell of the views of "a plain sea-faring man" upon the subject of the evening.

Messrs. Julius Harder, E. B. Tilton, F. Wellington Ruckstuhl, H. K. Bush-Brown, and Alex. Rice McKim, all of whom are members of the League, were among the speakers. Mr. McKim criticised the present system of sewers, which empty into the rivers, both east and west of the city, and described a system by which all the waste could be carried out to sea.

The whole question being one of such magnitude, in the short space of one evening, even with the assistance of the learned guests present, little more than a general survey of it was attempted, but the great possibilities of the future of our interesting water front were brought to light, as were also the inevitable union of the engineer and the architect in the great problems involved.

APPRAISEMENTS IN CONDEMNATION PROCEEDINGS.

Near the close of the year 1898, the public obtains through the columns of "The City Record," the report of the Law Department for the year 1897. For many months, information regarding the standing of municipal litigation on January 1st last, has lain hidden in the types of the public printer until nearly all its value has been lost, because, although printing did not go on, the proceedings in the courts did and changed entirely the status of the several suits in which the city was engaged. This report contains among other things a summarized statement of the condition of the hundreds of condemnation proceedings in the office of the Corporation Counsel at the close of the year, which, if made public as soon as prepared, presuming that that was done within a reasonable time from the date of the report, might have been of great service to the many interested property-owners. These proceedings have now reached new stages and the statements affect them in the report are, therefore, practically valueless.

Among the little that can be reproduced, with a fair possibility that it will be useful, is a table showing the school sites acquired in 1897 and including, in every instance where such sites were acquired by condemnation, the appraisements of the owners and of the city, and the amounts of the awards. It is in these figures that the value of the table is found and they make it worth publishing for future reference. As the report of the Department says regarding the acquisition of school-house sites, the statements and tabulations show in detail the extent and importance of this branch of the Department's work, which, it may be remarked, is in charge of Mr. Charles D. Olendorf, as well as the skill, fidelity and success with which it has been conducted. This statement is supported by the remarks suggested by the tabulations and made below. In 1897, 44 separate and distinct school sites were acquired, 36 by condemnation proceedings and 8 by purchase. The sums awarded in the 36 condemnation proceedings amounted to $2,396,966; the sums paid for the 8 sites acquired by purchase amounted to a total of $354,000, making a total of $2,750,966 to be expended in sites for school houses for the year. The tabulation of the proceedings given in the report is the following:

It appears then that, for the 36 sites acquired by condemnation, the several commissions awarded $767,884 less than the total claimed by the owners, and $233,976 more than the aggregate amount at which the several properties taken were valued by the city. That is to say, the property owners' valuations were 32% more than the awards, and the awards 9.7% more than the city's valuers appraised the properties at. If reference is had to the Record and Guide of November 21, 1896, it will be found on page 748, that between September 12th, 1895, and November 17, 1896, the city acquired 21 school sites, for which $1,460,195 was awarded, and that the 21 sites were valued at $1,803,191 for the owners and at $1,315,300 for the city. The property-owners' valuations were 23.5% more than the awards, and the awards 9.9% more than the city's valuations. It may be merely a coincidence, but it may also result from similarity of causes, that the awards in the two tables, so nearly approximate in proportions to the city's valuations. If it could be assumed, and the presumption lies that way, that the results were worked out by the Commissions on scientific principles, it would follow that the values presented by the city's appraisers were the true values, and the excess in the awards represented the solatium bestowed upon the owner of the property, because of the fact that he was an unwilling seller. Elsewhere it is an admitted principle that the owner shall receive compensation for the arbitrary way in which his property is taken for public uses, in England this is placed at 10% upon the determined valuation, and, while not openly accepted here, the principal doubtless influences the final findings of the commissions of estimate. These deductions are supported by the fact that a separate commission sits on each case and the results given above are obtained from the rulings of as many commissions as there were cases.

TRADE NOTES.

WINDOW CLEANING.

The Great International Window Cleaning Co. is one of the most useful and busy concerns in town. Their list of customers include such builders as Norcross Bros., D. C. Weeks & Son, T. J. Duffy, J. C. Hoe's Sons, John H. Whitemack, Mason & Co., List & Lennon, J. A. Zimmermann and P. Herman's Son, for whom they cleaned, besides many others, such structures as the Sloane Maternity Hospital, Barnard College, Skin and Cancer Hospital, 32-35 5th Avenue and the southeast corner of Canal street and West Broadway. The company's list of commercial customers is a long one, embracing leading establishments like the Waldorf-Astoria Hotel, St. Luke's Hospital, Grand Central Station, N. Y. Telephone Co. and Postal Telegraph Co., where they keep, nearly every day, a staff of men employed. Mr. C. H. Zimmermann is the manager of the Great International Window Cleaning Co., which he has brought to the front by honest and regular work. Their offices are at No. 196 Second avenue. Telephone 1115—18th street.

LEADERS IN THEIR LINE.

It certainly speaks well nowadays for any firm, long established and reliable though it be, to secure and execute almost simultaneously contracts for such important work as Machwirth & Smith, of No. 149 East 26th street, now have in hand. The list includes contracts for roofing, cornices, copper work and skylights for five such important structures as the Museum of Art addition, for Contractors Cullen & Dwyer; Botanical Museum at Bronx Park, for the John H. Parker Co., contractors; Hall of the Board of Education, Park avenue and 59th street, and southeast wing of the Museum of Natural History, Manhattan Square, both for Contractors T. Cockerill & Son, and Public School at Beaumont and Cambreling avenues, for Contractor J. J. Loonie. It goes without saying, that Machwirth & Smith's facilities are of the very best. Their telephone call is 1731 18th.

CYPRESS TRIM.

The growing demand for cypress for house trim was noted in our article last week entitled "Builders' Woods." Murray & Hill, 617 to 621 West 130th street, who manufacture doors, sashes, blinds and house trim, were among the first dealers to recommend "Cypress" to builders, and many of their customers have been gratified with the results following its use.

The Building Trades

MATERIAL MARKET.

BRICK.—Arrivals of North Rivers this week amounted to 56 barges and all were sold. The stock in quality continues to be very much mixed. Values for everything but specials were said to be a trifle easier than last week, but when sales are made of straight stock it is found that old prices prevail. Concessions are being made on inferior stock. Pales are in very good demand and short supply; $4.00 is being offered and accepted. New Jerseys contiuue quiet and are selling at prices in excess of ordinary North River grades.

LATH.—About 2,000,000 laths were sold last week at $1.75. The demand is excellent. There are none here and few on the way.

LIME.—The demand for State lime continues good from the fact that dealers are laying in their winter stock. Prices are firm at 70 cents for common and 90 cents for Jointa. There is a good quantity on the way. The demand for Rockland continues good at 65 and 75 cents. About 8 cargoes arrived this week; these are all sold and are discharging rapidly. There is a moderate supply on the way. Prices will continue firm as the shipping season draws to a close.

CEMENT.—Rosendale is firm at 65 and 75 cents. There is a very good demand and there is a fair amount coming to market. The scarcity of Portland has had the effect of strengthening the market for Rosendale. The demand for Portland continues very active and stock is sold in advance of arrival and there is no free stock in the market.

NAILS.—Trade has improved during the past week in both cut and wire nails and prices are steady. Cut nails are selling for $1.25 for base on dock, New York, and $1.35 for base, small lots, New York stores. Wire nails are $1.35 f. o. b. Pittsburg for base and $1.55 and $1.60, small lots, New York stores.

LEAD.—The drop in prices has not stimulated business perceptibly, although the good weather this fall has allowed the continuance of out-door work exceptionally late this year, so that the demand keeps active and will probably continue so as long as the weather is favorable.

PAINTS.—Business is good for the time of year and prices have not changed from last quotations.

GLASS.—The demand is quite fair and the assortment of grades and sizes is well filled. Prices are unchanged at 80 for plate; 80 and 20 for French window and 80 and 10 for American window.

OIL.—The trade in oil last week was not so brisk as the week previous. Oil has been going up steadily for the past three months and at the latter end of October was selling at 38 and 37 for the raw product. Dealers and consumers, fearing a further rise, laid in heavy supplies, and are, consequently, not buying very extensively at present. Prices are firm at 37c. for 5 bbl. lots, and 38c. for smaller quantities. Boiled oil is at 40c. and 39c. Calcutta oil is selling at 54c. The seed market has not advanced over last week and there is little or no inquiry for future oil.

NAVAL STORES.—The local market in spirits of turpentine, in sympathy with the Southern market, has advanced to 37½c. for machines, at which figure one or two round lots were carried through, but trade was mostly confined to jobbing business. Later advices from Savannah sent prices up to 38c., but only a jobbing trade was done on this basis. Better buying in the local market and a firm Southern market is anticipated. The market closed firm at 37½c. for Southerns, and 38c. for machines. Tar was steady with little inquiry except in small lots at retail. Prices are: $1.80 and $1.85 for regulars; oil barrels, $3.70 and $3.75. Pitch ruled slow and featureless at $1.60 and $1.65.

LUMBER.—The market is in a stronger condition this week, the improvement being more in the nature of a better feeling than in an actual advance in prices, although better prices are being received for certain kinds of stock. The demand has improved, owing to the fact that buyers are beginning to stock up for future trade in fear of a still further advance. There is some advance in white pine of upper and lower grades. Yellow pine is in good demand with prices about the same as last week. North Carolina pine is advancing. The large quantities brought into the country before the enactment of the tariff on Canadian pine have become about exhausted, and Southern stock is now in excellent demand at good figures. The spruce market is about stationary, with perhaps a tendency to advance, as the shipping season comes to a close.

HARDWOODS.—The demand for hardwoods has shown some improvement over last week. Cypress is still in great demand. The scarcity of stock is due to the insufficient quantity of water in the Southern rivers, notably in Mississippi and Louisiana, to float the logs. Poplar is in good demand at about $31.00. The demand for mahogany is fair, but the supply, owing to the lack of Cuban mahogany, is light. Quartered oak is active, with a slight advance in prices. Firsts and seconds, 1-inch, are selling at about $53.00. Plain oak shows an advance of about 10% over last summer, and prices for firsts and seconds, 1-inch, are about $39.00 and $40.00. Elm is in good demand and is scarce. Prices have advanced about 15% since last spring, owing to the duty of $2.00 per 1,000 ft. imposed on Canadian elm, and the excellent condition of the trade in the West, in and around Grand Rapids, Michigan, where large quantities of elm are used in furniture. Ash is in good demand for similar reasons.

OF INTEREST TO THE BUILDING TRADES

Edward Lee Young, architect, has removed from No. 142 East 33d street, to No. 127 East 23d street.

Joseph P. Powers has been appointed Superintendent of Buildings for the Boroughs of Queens and Richmond.

Messrs. Brazier & Simonson, architects, No. 127 East 23d street, have dissolved partnership. E. B. Simonson can now be found at 795 East 134th street.

William H. Hand, a prominent carpenter and builder, and member of the Building Trades' Club, died on Tuesday, November 15th, of heart disease at the age of 62.

The following have been appointed inspectors in the Department of Buildings, Borough of Manhattan: John J. McArdle, John E. Peek, William G. Moir, Peter C. Macevoy, Joseph J. Ryan, Orlando C. Flynn and Anthony Grogan.

Another of the famous B. T. C. stags will be given by the Building Trades' Club on next Wednesday evening. The House Committee have arranged an elaborate programme, and many new features will be introduced.

The application of the New York and New Jersey Bridge Company to the Sinking Fund Commission for permission to run an elevated freight railroad along the Hudson River, from 59th street to South Ferry, was heard this week, but the Commission declined to act upon it.

The annual dinner of the Tile, Grate and Mantel Association was held last Thursday evening, at the Building Trades' Club. Over fifty members attended the affair, which proved to be a great success. Among those present were the following: D. W. O'Neil, of the Bradley Courrier Co., D. Traitel, A. S. Nichols, Mr. Bogart, of J. L. Mott & Co., and W. H. Jackson.

The Congregation of the Holy Cross, the Catholic order whose headquarters are at Notre Dame, Indiana, and which has bought the Rosemont estate, comprising five acres adjoining the Catholic University, two miles from Washington, D. C., will eventually erect a group of buildings on the property for the accommodation of seminarians. Work on the first building will begin presently, the plans having been prepared by a member of the order.

John L. Thomas, manager of the Mills hotels, has written "The Sun" as follows: "In accordance with the purpose expressed by Mr. D. O. Mills at the opening of Mills Hotel No. 1, and as an answer to very many inquiries received from persons who feel an interest in the subject, or who contemplate similar enterprises, I am authorized to state that, after providing for depreciation and replacements, the first year's business leaves a sum equal to 3 per cent. upon the investment."

The Board of Estimate and Apportionment has authorized the issue of bonds to an amount of $4,250,000 for street openings and improvements. At the Comptroller's office it was said that the authorization was obtained in advance of present needs, and that only a quarter of the bonds would now be issued. The Comptroller is now offering to bidders $1,725,000 bonds for the benefit of public works in the Boroughs of Manhattan and the Bronx, as follows: $200,000 for school-houses and sites, $250,000 for street improvements, $100,000 for the extension of the Metropolitan Museum of Art, $200,000 for a botanical museum and herbarium, $475,000 for the Willis Avenue bridge over the Harlem River, and $500,000 for assessment bonds.

Thomas J. Brennan, who until about two years ago carried on the brownstone yard at the foot of 57th street and the North River, now owned by Cosgrove Bros., died on Monday last in Roosevelt Hospital. He fell from a cable car two years ago, and did not attend to his injury for a year. He had besides organic troubles, and went to the hospital last week. It was decided to perform an operation, but he died before the operation could be performed. He was a relative of Deputy Charities Commissioner T. S. Brennan. Mr. Brennan was for a time a prominent figure in the stone trade and sought energetically to cure the disorganization that afflicted the trade. He was one of the organizers of the Exchange on East 60th street, by which it was thought that the trade could be brought together and unity of action created thereby, but which had a brief life. He was also among the pioneers in apartment building on the Boulevard, having built the three apartment houses on the southeast corner of 106th street and that thoroughfare back in 1895-6. His success, however, was not equal to his enterprise, a not unusual fate of the pioneer. Thomas J. Brennan was of a most genial temperament and was liked wherever he went. His death arouses as much regret among those who knew him as his illness and business reverses previously did sympathy.

Comparison of the budget for 1899 with the estimate submitted by the Board of Education shows that, so far as general repairs to school buildings are concerned, Manhattan and Bronx fared better before the Board of Estimate and Apportionment than the other boroughs. The appropriation asked for under this head, namely, $480,068, was conceded to Manhattan and Bronx, while the appropriation requested for Brooklyn was cut down from $259,573 to $218,577; that of Queens, from $83,423 to $51,720; and that of Richmond, from $82,691 to $52,053. The aggregate appropriation is said to be sufficient to preclude the necessity of dismissing any of the present efficient force of inspectors and draughtsmen in the building department of the Board of Education. The entire appropriation requested for rents and the erection of temporary school premises was also granted, namely, $157,781, distributed as follows: Manhattan and Bronx, $104,227; Brooklyn, $21,910; Queens, $17,758; Richmond, $4,000; Board of Education, $9,886. The appropriation requested for new schools, including sites and additions to old schools, which was refused in the budget, aggregated $9,473,640, distributed as follows: Manhattan and Bronx, $5,883,640; Brooklyn, $2,873,000; Queens, $567,000; and Richmond, $150,000. As regards Manhattan and Bronx, no money was requested for sites, but merely for the improvement of sites and premises already in possession of the Board of Education.

Correspondents are respectfully requested to confine their inquiries to matters directly relating to real estate, building or architecture. Each question must be accompanied by the name and address of the inquirer, though not for publication; anonymous communications cannot be answered.

LIFE INSURANCE.

To the Editor of THE RECORD AND GUIDE:

My laundress has a policy in a life insurance company which she has paid on now for seventeen years. The policy is for $500, and is to be paid at her death. She is now seventy years of age, very poor, has no heirs, and wants to dispose of it. The company tells her she can surrender the policy, pay no more premiums, and, at her death, her assigns will receive from $250 to $300. Can it be sold, and to whom can she apply? I should like very much to assist her, and will you not kindly assist me?

Answer.—You do not disclose the terms of the policy. Some policies companies will give a surrender price for, but outside of the company that issued the policy I do not know of any person that will buy it.—Law Editor.

BROKER'S COMMISSION.

To the Editor of THE RECORD AND GUIDE:

A owns a house in Brooklyn; mortgage, $8,400. He intends to trade with B, putting the house in at $10,900. B gives $500 in cash, and $2,000 in stock. In a trade am I not entitled to a commission on $2,500 from B of one per cent., and from A commission of $109, or one per cent.?

Answer.—You do not state which of the two is your customer. You are not entitled to a commission from both parties unless each knows that you are acting for the other, and agrees that you are to get a commission from both. You are entitled to a commission from your customer of $109.—Law Editor.

EXCHANGE NOT CONSUMMATED.

To the Editor of THE RECORD AND GUIDE:

A agrees to exchange lots for a house owned by B. A signs contract, to take effect on a certain day. On that day A discovers house is in bad condition, and accordingly consults with B, who agrees verbally to have the house put in good condition by a certain day. On that day B fails to have the house in good condition as agreed, and accordingly A refuses to accept title as the tenants are moving out, and in other ways rents are not forthcoming. Also there are no chimney caps or cesspool in back of basement, as required by law. B in the intirim has a lis pendens placed on A's lots. What I desire to know is what redress has A, and in case B should sell the flat, what would become of

the lis pendens on A's lots? Can it be removed? Will the selling of house by B make the lis pendens on A's house void?

Answer.—The doctrine of caveat emptor (let the buyer beware) applies in this case, in the absence of fraud or misrepresentation. A can be compelled to fulfil his contract notwithstanding the bad condition of the house, etc. If a notice of pendency of action has been filed this implies that B has commenced an action to enforce the specific performance of the contract, although this is not explicitly stated in the query. If B should sell the flat this fact would be a defence to B's action, and on motion the notice of the pendency of the action would be canceled by the court.

MORTGAGE.

To the Editor of THE RECORD AND GUIDE:

I loaned $15,000 to my son, for which he gave me a mortgage on real estate, which he owns. The mortgage is dated February 1, 1895, and executed March 1, 1895, but same is not recorded in the Register's office. Would like to assign same to my wife without putting mortgage or assignment on record. Will both transactions be legal by not putting same on record in the Register's office?

Answer.—Yes.—Law Editor.

The Real Estate Market

Real Estate Market

Excepting the Columbia College trade, the business of the private sales' market, while not large absolutely, though large by comparison with the weekly average during the summer, has been pretty evenly distributed over the week, as well as fairly divided between speculative and investment transactions, so that the improved vigor of the market which has found sporadic expression of late, may, perhaps, now be regarded as a permanent condition. Among the speculative purchases, expensive sites intended for improvement with high-class apartments continue to maintain their prominence, including, as they do, a parcel on Central Park West and another on Riverside Drive. Indeed, according to present appearances, these avenues will soon cease to be an eyesore to the Henry George men. The investment purchases comprise a marked number of flats, with and without stores, and also include two purely business buildings, one of which, at any rate, belongs to the six-figure class. The event of the week, of course, was the trade, involving the old Columbia College site, on the one hand, and the Berkeley School, on the other. It is evident that the reported valuations placed upon the properties, namely, $400,000 on the school, and $900,000 on the college, are excessive. Eight years ago the school plot of four lots cost $100,000. At the values which rule in the neighborhood at present, the lots can impossibly be worth over $60,000 each, and hardly over $50,000, so that the most liberal estimate possible being put upon the building, the attempt is futile to figure out $400,000 for the property. For the Columbia College site $750,000 would probably be a conservative estimate. In connection with the plans for the disposition of the various parts of the property, as reported by the press, and which, among other things, contemplate the conversion of the School of Mines into bachelor apartments, and the restriction and sale of parts of the street fronts for improvement with private dwellings, it is interesting to know that, according to good authority, Dr. John S. White was influenced in his judgment of the future of the college site by the prospect of electricity being substituted for steam as a motive power on the cars that run through the tunnel, following the precedent of the Baltimore & Ohio Co.'s belt line at Baltimore. The number of transactions given below is 46, with considerations given in 18 instances, and amounting to $1,931,500.

The unusually large number of valuable properties offered voluntarily and in partition this week gave evidence of returning confidence in the auction market as a means of disposing advantageously of real estate. The week, however, was on the whole rather unsatisfactory. The temper which the market disclosed was eminently conservative. The professional element, cautious of bids, was strongly predominant in the attendance. On the other hand, the properties offered were well protected, and the sales achieved were at good prices. In many instances the bidding was started by the parties in interest at figures which precluded competition, although in some events the bidding was sufficiently brisk to satisfy the severest critic of the market. In a voluntary sale by Peter F. Meyer, on Tuesday, nine lots on 179th street and Belmont avenue were bid in, while a plot on Washington avenue, near 178th street, was sold. No. 126 East 17th street and No. 220 West 105th street, offered by Bryan L. Kennelly, were bid in. The only other voluntary non-offering, a plot on Kelly and 167th streets, was sold by William Kennelly. Of the twenty-six parcels offered at trustees', executors' and partition sales, eleven were sold to outsiders, three were adjourned, and five withdrawn. The events of the week which attracted the largest attendance were the executors' sale of the Guion estate, and that for Frederick R. Coudert as trustee and otherwise, by William M. Ryan, on Thursday, in which cases most of the parcels were bid in or withdrawn. A plot on the south side of 173d street, between Washington and Bathgate avenues, brought a very good price because of the activity in that immediate neighborhood. In an executors' sale of two Upper East Side parcels on the preceding day the same auctioneer administered a well-merited rebuke to a syndicate of speculators who attempted to deter other outsiders from bidding. Despite the interference, the parcels, No. 2156 2d avenue and No. 328 East 52d, were sold after active competition. Among the foreclosure sales were that by D. Phoenix Ingraham of Nos. 313 to 323 East 22d street, five factory buildings belonging to John Petit, which illustrates the "mortgaged" condition of that operator's holdings. The property sold for some $2,500 less than the encumbrances. The results of the week's auction business will be found in detail elsewhere, excepting the following withdrawals and adjournments to dates beyond the coming week: No. 65 East 113th street, John N. Golding, auctioneer, withdrawn; sale of property on Ogden and Nelson avenues, near 167th street, by Richard V. Harnett, adjourned to November 29; No. 666 West End avenue, acre property at Clason's Point, property on Broadway and Putnam avenues, between 234th and 235th streets, Wm. M. Ryan, auctioneer, withdrawn; No. 39 Little West 12th street, and Nos. 426 to 430 West 13th street, Peter F. Meyer, auctioneer, withdrawn.

Richard V. Harnett & Co. make a number of important auction announcements in our business pages. From these it will be found that on Tuesday next, 22d inst., they will dispose of four lots on Claremont avenue and near Grant's tomb, and three lots on Vanderbilt avenue, between 172d and 173d streets. On the following day they will sell No. 609 East 156th street, a frame house and lot near Courtlandt avenue. Details can be found on another page and maps, etc., obtained of the auctioneer at Nos. 71 and 73 Liberty street.

Bryan L. Kennelly again announces in our business pages that he will sell on Wednesday next, 23d inst., by order of the executrix of the estate of Charles B. Cornell, the following properties: No. 450 3d avenue, and Nos. 163 and 165 East 31st street, a valuable corner lot with 5-story brick store and flat facing 3d avenue, and a similar building on 31st street; No. 96 Lexington avenue, near 27th street, a 3-story high-stoop brick dwelling; No. 240 East 21st street, a 3-story and cellar brick private dwelling; a 5-story and basement brick and stone building on the northwest corner of Central Park West and 97th street; and No. 243 3d avenue and No. 202 East 20th street, a corner lot with two 4-story brick buildings. The attorney for the executirix is Henry B. Wesselman, No. 150 Broadway. On the same day Mr. Kennelly will sell Nos. 80 to 86 Carmine street, four 2½-story brick buildings with stores in two of them. As stated last week, these offerings comprise some choice parcels, and will, no doubt, prove more attractive to investors, pure and simple, than most auctions held recently. For maps and particulars apply at the office of the auctioneer, No. 66 Liberty street.

Peter F. Meyer has been commissioned by the Democratic Club to sell at auction, their purchase, made early this year, known as the New York Athletic Club Building, on the southwest corner of 6th avenue and 55th street. It need not be remarked that this is a choice and valuable parcel. It consists of a 5-story brick, stone and iron building, with three lots of land, admirably located for a variety of purposes. The sale is announced as peremptory, and will take place on the 29th inst. The auctioneer will furnish particulars on application at his office, No. 111 Broadway.

Richard V. Harnett & Co., auctioneers, will sell at auction, Tuesday, November 29, 1898, at 12 o'clock, noon, at the New York Real Estate Salesroom, No. 111 Broadway, the premises known as No. 216 West 72d street, N. Y., 4-story and basement brick and stone dwelling and lot, 20x57x extension, x102.2. Foyer hall, exposed plumbing, decorated, perfect order. Maps at auctioneers, Nos. 71 and 73 Liberty street, New York.

William Kennelly calls attention in our advertising pages to the auction sale of Nos. 1334 and 1336 3d avenue, which he will conduct on Tuesday, 29th inst. These consist of two 5-story stores and two-family apartments, said to be well rented and in good order. Prices on 3d avenue have been well maintained, in spite of what has been said, in the past year, and a demand for property there has always been brought out by desirable offerings. Bernard Metzger, attorney, No. 261 Broadway, and the auctioneer, at No. 111 Broadway, will furnish particulars of the ones in question in response to application.

OUT OF TOWN.

Samuel Forthingham, with Pease & Elliman, have sold for Mrs. Clarence Andrews to H. H. Pease her place of about seven acres at Lenox, Mass. It adjoins the Barclay place and is opposite that of A. P. Stokes.

C. H. Crisfield has sold 9.8 acres on the west side of South Broadway, 825 feet south of Valentine lane, Yonkers, at $6,500 per acre. The sale was made to close the estate of John Crisfield. The property will be cut up immediately into building lots.

Edward Bement has sold, through Cornelius G. Kolff, No. 50 Broadway, to Frank J. Nettleton, of Los Angeles, California, a plot of 13 acres at Livingston, Staten Island. The property is located on the east side of Bement avenue, north of Forest avenue, and has a frontage of about 1,400 feet on Bement avenue, and about 400 feet on the north side of Forest avenue. The property commands a fine view of the Orange Mountains, and is located in close proximity to the Brighton Heights branch of the Staten Island Electric Railroad, a distance of 14 minutes from the New York ferry landing at St. George. Mr. Nettleton contemplates improving the property as a first-class residence district, and is already negotiating for the erection of several large colonial houses.

REAL ESTATE NOTES

Julius Friend was the broker in the sale of No. 174 Wooster street at $83,000.

F. de R. Wissmann was the broker in the sale of No. 538 Broadway mentioned in our issue of November 5th.

The sale is reported of a prominent Broadway parcel below Houston street, particulars of which cannot be given to-day.

Real estate agents report that many leases are made now-a-days conditional on the houses being certified to be in good sanitary condition by the Building and Sanitary Inspection Co.

The tax budget of the city for 1899, aggregating $93,520,082, was adopted by the Municipal Council on Monday last. The amount to be raised by taxation will probably be about $8,000,000, less than the amount of the budget, because the income from the general fund is estimated at the last-named figure.

Janpole & Werner, of No. 206 Broadway, is a new firm of real estate operators who are likely to be heard of often. Last week they bought twelve lots on East 111th and 112th streets, part of the old Polo Grounds, and this week they purchased a plot on East 11th street.

The new high-class apartment hotel and store building on the south corner of Columbus avenue and 80th street, covering half the avenue block, has been christened the "Orleans." Some of the stores are already tenanted, and the apartments will be ready for occupants by January 1st.

The ease with which money is obtained on desirable real estate at low rates is shown by a recent loan of $400,000 at 4% obtained by the Temple Beth-el on its synagogue at the southeast corner of 5th avenue and 76th street. The plot is 100x150 and was appraised at $550,000. The ground was bought by the congregation in 1890 for $250,000 and was improved at a cost of $500,000.

Elsewhere in this issue we refer to the auction sale of 216 West 72d street, which Messrs. Richard V. Harnett & Co. will sell on November 29th. As bearing upon values, it is interesting to note that the adjoining house was recently reported sold at $80,000, and it will be remembered that some time ago Thomas F. Ryan purchased a house opposite at a price reported to be $95,000.

An Albany dispatch dated 17th inst. says: A certificate incorporating the Fort George Extension Railway Company, of New York City, with a capital of $10,000, was filed to-day with the Secretary of State. The company proposes to operate an electrical surface road from 172d to 185th street, on 11th avenue. Its directors are: M. G. Starrett, W. F. Plummer, John Lambdon, Andrew Loughlin, D. W. Patterson, and Harry Hartwell, of New York City; John Kerr and Charles E. Corby, of Brooklyn, and H. A. Himely, of Far Rockaway.

At a largely attended meeting of the North Side Board of Trade Monday evening at its rooms, No. 278 Alexander avenue, Col. J. A. Goulden reported that he had interviewed E. J. Maher, President of the Union Railway Company, in regard to extensions of that company's system and that he had been informed that the company intended to make application to lay tracks across the Central or McComb's Dam Bridge, connecting the 161st street line with the Amsterdam avenue line of the Third Avenue Railroad Company; also that the company would shortly extend its Burnside avenue line to Morris Heights.

Referring to the reports that assessments on property in Manhattan and the Bronx are in process of being increased, Tax Commissioner Sheehy is quoted as saying: "Our Board will equalize valuations, which means that no man will have to pay more on his property than his neighbor does. This does not necessarily involve a sweeping increase in the valuations in Manhattan, although the tendency will be in the direction of some increase. Down in lower Broadway and in some of the great business streets there are enormous buildings belonging to great corporations on which an increased valuation may be placed. We shall see that all such buildings are assessed at a fair valuation, and that their owners pay a proper amount."

A delegation of west side property owners asked Mayor Van Wyck on Tuesday to compel Highways Commissioner Keating to revoke the permit he had granted to the Third Avenue Railroad Company allowing it to open Amsterdam avenue for the installation of another underground trolley. Among the speakers were Cyrus Clark, President of the West End Association; Thomas A. Fulton, Chairman of the People's Committee, and Principal Boyer, of the 77th street public school, whose son was killed recently by a Metropolitan Street Railway car in Amsterdam avenue. Isidor Straus also spoke. He told the Mayor the property owners did not want him to interfere with any vested rights, but to protect the lives and property of citizens. The Mayor said he had no power in the matter, and suggested that the property owners go to the courts for remedy. On the same day, at a meeting of the Board of Aldermen, a resolution was introduced asking the Board of Health to prevent the building of another electric road on Amsterdam avenue. The Board adjourned without acting on the matter.

THE MARBLE CUTTERS' STRIKE

The strike which has been on in the Irvins Syndicate Building for the past two months, was started by order of the Board of Delegates, because of some misunderstandings between the elevator constructors and the Electrical Union. The firm of Batterson & Eisele, marble manufacturers, were drawn into the difficulty through no action of their own, but through complications growing out of the sympathetic spreading of the strike. The strike has now been on for eight weeks, during which time difficulties have arisen between the Reliance Labor Club of Cutters and the Whitestone Association of Polishers. The former organization was not affiliated with any central labor body and did not go out when the strike was ordered; whereas, the Association of Polishers were represented in the Board of Delegates and went out when ordered. Since the beginning of the strike it has been the endeavor of the Employers' Association to harmonize the different employees' organizations in the marble trade but without success. To further complicate matters, the skilled cutters and setters have joined the Building Trades Council, so that an employer in the marble trade has a part of his employees under the control of the Board and the rest under the dictation of the Council. Because of this state of things, the Marble Industry Employers' Association have taken a decisive step, which is set forth in the following letter, signed by the Secretary of the Association, William K. Fertig: "The Executive Committee of the Marble Industry Employers' Association, now in session, informs the Board of Delegates that the Marble Industry Employers' Association will have no further dealings with them in regard to the strike in the shop of Messrs. Batterson & Eisele." The Board is not in a very vigorous condition, as there are now only five skilled organizations of the building trades left in it.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed can be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street and avenue numbers given in these lists are, in all cases, taken from the Insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

When the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward property will be found altogether at the foot of this list.

Mortgages under this head marked with * denote that the property is located in the new Annexed District (Act of 1895).
